Re: Invitation For Patent Licensing
LR Reference: 413218-00003

Dear Spotify Legal,

We are Intellectual Property counsel to Mr. Manuel Tijerino. In or around 2010, Mr. Tijerino devised and developed a system and method by which independent artists could self-publish their music by uploading it to a web service for real time distribution to listeners worldwide via an Internet jukebox, such as computers and cell phones.

To protect his novel idea, Mr. Tijerino filed U.S. Patent Application No. 12/804,665 in the U.S. Patent Office on July 27, 2010, which issued as U.S. Patent No. 9,146,925 on September 29, 2015. A copy of Mr. Tijerino's '925 Patent is attached to this letter.

It has come to our attention that Spotify's "Spotify for Artists" program¹ offers features and functionality that appear similar to those devised, developed, and patented by Mr. Tijerino. Further, we understand that Spotify's "Spotify for Artists" program was first launched in or around December 2013, well after Mr. Tijerino's patent was filed and was first published.

Accordingly, we would like to discuss Spotify licensing the innovations and inventions covered by Mr. Tijerino's '925 Patent. We look forward to hearing from you.

Sincerely,

A handwritten signature in black ink, appearing to read "K. Kellar".

AD DENIAL AFTER APPROVAL

Effective Ad Strategy. All artists are from somewhere. I ran ad Elvis Crespo

now on check1two.com targeting his city NY and latinos, got user comments on ad, but domain was wrong, I thought, weird I don't remember typing .con I tried fixing .con to .com and now my ad was unexplainably denied.
