PROFESSIONAL EXPERIENCE

Robert Stoll is President and CEO of Stoll Patent Consulting and Expert Testimony, LLC. Most recently, Bob was a partner at Faegre, Drinker, Biddle and Reath, where he served as co-chair of the Intellectual Property practice group. Bob retired from the United States Patent and Trademark Office (USPTO) as Commissioner for Patents at the end of 2011 after a distinguished 34-year government career. He was instrumental in the passage of landmark patent legislation, the America Invents Act and was lauded for his efforts to reduce patent pendency and improve patent quality. Bob served as a patent examiner at the USPTO from 1982 to 1990. He then assumed the position of supervisory patent examiner from 1990 to 1994. In this position, Bob supervised an art unit of approximately 15 patent examiners, reviewing and signing the actions of the non-primary examiners and monitoring the work of the primary examiners. In 1994, Bob was promoted to executive assistant to the U.S. Commissioner for Patents. After a series of further promotions, the Secretary of Commerce appointed Bob as Commissioner for Patents in 2009. Having risen from the rank of examiner to lead an organization of about 8,000 employees, Bob has spent his career improving the intellectual property system. He focused on educating the public, applicants, corporations and foreign governments on the criticality of intellectual property to economic growth and job creation and stressed the importance of a comprehensive understanding of complex intellectual property laws to best use the system to protect an invention. Having led the PTO's legislative efforts, the international group, the training academy and the enforcement initiative, Bob has a deep understanding of domestic and foreign intellectual property law. He developed and delivered programs worldwide to educate foreign officials and the public. He was instrumental in the development and analysis of legislation concerning all areas of intellectual property and was one of the country's leaders in establishing the US government's positions on international issues related to intellectual property. He also helped develop and plan USPTO strategic goals, objectives and priorities, and served as a liaison with patent and trademark bar groups and academic and scientific communities.
