Re: *U.S. Patent No. 11,751,302*

Dear Ms. Lyons:

We appreciate your courtesy in extending the deadline for your offer until December 7, 2023 to permit us to investigate the matter raised in your October 31, 2023 letter.

It appears, however, that the technology to which the subject patent is directed has been available before the filing date of that patent, which raises serious questions about the validity of same.

For example, attached is a specification sheet published as least as early as March 17, 2020 regarding a product manufactured by Light Efficient Design and resold by Prolighting under the FLEXWATT and FLEXCOLOR marks. This product was listed with DLC in February 2019 long before the filing date of the subject patent.

Under the circumstances, we decline your offer for a license at this time.

Yours sincerely,
COLLARD & ROE, P.C.

Frederick J. Dorchak
