Re: Notice of Infringement to BOE Technology Group Co., Ltd. re Parkside's Patent Portfolio

Dear Mr. Wang:

It is my understanding that IP Bridge, Inc. has put BOE Technology Group Co., Ltd. on notice for patent infringement of the IP Bridge, Inc. patent portfolio relating to LCD technologies.

This letter is to provide notice from Parkside IP LLC ("Parkside"), the new patent owner to at least some of the IP Bridge, Inc. patent portfolio relating to LCD technologies, to BOE Technology Group Co., Ltd. (together with its affiliates and subsidiaries (collectively "Company")) of Company's infringement of Parkside's patent portfolio.

Because Company is infringing patents in Parkside's portfolio, we write to invite you to an opportunity to license Parkside's patent portfolio relating to display technologies. The portfolio includes more than a hundred patent assets, including 28 issued United States patents. The patents resulted from decades-long investment in display technologies from leading technology companies (e.g., Panasonic).

After an investigation, we understand that Company makes, uses, offers to sell, sells and/or imports LCD displays and/or devices that include LCD displays. These products (e.g., NV156FHM-N42) may require a license to several patents in this portfolio, including exemplary U.S. Patent Nos: 8,093,830; 7,995,047; 6,816,208; 7,583,347; 6,906,769; 6,850,303; 6,787,829; 7,414,682; 6,801,293; 6,525,798; and 6,822,706.

As an objective to make patented innovations available more effectively and broadly, Parkside seeks to license these and other patents in its portfolio to Company on very reasonable terms.

IP EDGE LLC ("IP EDGE") is Parkside's licensing advisor and is authorized to discuss licensing of Parkside's patent portfolio. Through its licensing advisor, Parkside would like to discuss with Company a mutually beneficial agreement that will provide Parkside with value for Company's use of its intellectual property.

We respectfully request an initial response of this letter within two weeks from the date of this letter.

To discuss further, please email the undersigned at [gbodepudi@ip-edge.com](mailto:gbodepudi@ip-edge.com), and please cc [admin@ip-edge.com](mailto:admin@ip-edge.com).

Please let me know if you have any questions.

Best,

Gautham Bodepudi
