Winners receive the ultimate recognition for innovation that improves the human condition

NEW YORK, Oct. 27, 2023 /PRNewswire/ -- The Prix Galien USA Committees honored excellence and innovation in life sciences during the Prix Galien USA Forum and 17th annual Prix Galien Awards Gala last night at the American Museum of Natural History in New York City. The USA Committees, composed of 20 committee members, 12 subcommittee members and 20 advisory board members, represented renowned leaders from the biomedical industry and academia. With three Nobel Laureates, these groups honored this year's award winners in the following categories: "Best Biotechnology Product," "Best Pharmaceutical Product," "Best Product for Rare/Orphan Diseases," "Best Medical Technology," "Best Digital Health Solution," "Incubators, Accelerators and Equity" and "Best Startup."

"It is a privilege to thank all of the nominees and winners, on behalf of the Prix Galien USA Awards Committee, for endeavoring to solve the most challenging problems in human health," said Dr. Michael Rosenblatt, Chair of the Prix Galien USA Awards Committee (Categories: Biotechnology, Pharmaceutical, and Rare/Orphan Diseases). "Year after year, we are amazed by the impressive achievements and the standard set by nominees' for the Prix Galien Awards. It is our greatest hope that the 2023 winners will take this moment to celebrate the recognition of their accomplishments and continue to surpass their greatest expectations in the future."

The 2023 Prix Galien USA Award Winners

"Each year, the Awards Committee is astounded by the growing number of applicants and the level of passion, creativity and determination from the nominees who are developing their ideas into highly desirable solutions for patients around the world. We applaud their unwavering commitment to improving the human condition and are honored to celebrate their achievements," said Bernard Poussot, Prix Galien Committee Chair (Categories: Medical Technology, Startups; Digital Health; and Incubators, Accelerators and Equity), Board Member, Roche Holding & Cargill Inc. Former Chairman & CEO, Wyeth.

The Roy Vagelos Pro Bono Humanum Award for Global Health Equity was presented to Dr. Mae C. Jemison, the first African American woman to be admitted into the National Aeronautics and Space Administration (NASA) astronaut training program and enter space aboard the Endeavour on mission STS47. Dr. Jemison was recognized for the exceptional achievements of her career, which has expanded across several roles including general practitioner, Peace Corps medical officer, educator, and founder of her own company, The Jemison Group.

"We are delighted to extend the Prix Galien legacy to another distinguished cohort of winners who have demonstrated the unparalleled skill, innovation, and dedication required across the life sciences industry," said Bruno Cohen, Chairman of The Galien Foundation. "Our Awards Committee, Prix Galien Alumni, and all members of The Galien Foundation extend our gratitude to each winner and nominee, and we look forward to witnessing their impact on the future of global healthcare."

The Prix Galien Awards were created in 1970 by Roland Mehl in honor of Galien, the father of medical science and modern pharmacology, to recognize outstanding innovation and scientific advancement. With chapters in 14 countries and Africa, and an inaugural chapter being established in India in 2024, Prix Galien is regarded worldwide as the equivalent of the Nobel Prize for the life science industry.

Former Advisor of Sanofi CEO, Healthcare Consultant

About the Galien Foundation

The Galien Foundation fosters, recognizes and rewards excellence in scientific innovation to improve the state of human health. Our vision is to be the catalyst for the development of the next generation of innovative treatments and technologies that will impact the state of medical practice and save lives.

The Foundation oversees and directs activities in the US for the Prix Galien, an international awards program dedicated to progress through innovative medicines development, with chapters in 14 countries and Africa. The Prix Galien was created in 1970 by Roland Mehl in honor of Galien, the father of medical science and modern pharmacology. Worldwide, the Prix Galien is regarded as the equivalent of the Nobel Prize in biopharmaceutical research.
