

We are India's first indigenous manufacturer to introduce

Adani Solar

Monocrystalline Silicon Ingot

Adani Solar reached a historic milestone by becoming the nation's very first Large-Sized Monocrystalline Silicon Ingot Manufacturer. This Ingot technology represents a quantum leap in the efficiency and performance of solar cells. With our cutting-edge manufacturing capabilities, we can produce resilient and high-quality, single-crystal ingots that serve as the foundation for top-tier solar modules.

Adani Solar

Monocrystalline Silicon Wafer

India's first indigenous Large-sized Monocrystalline Silicon Wafer is a remarkable achievement by Adani Solar. These Wafers unlock new possibilities in generating renewable electricity with unprecedented efficiency and performance.

TOPCon Solar Cell

We take immense pride in becoming the first indigenous manufacturer to introduce TOPCon Cell technology. By enabling this technology we enhance charge carrier collection, reduce recombination losses, and boost overall solar cell efficiency significantly. This groundbreaking achievement showcases our agility and preparedness for the future of solar manufacturing.
