

I, Jared Bennett, declare and state as follows:

1. During the year 2012, I viewed a video on YouTube titled “Honda Generator Tri-Fuel, EU2000i Triple-Fuel,” shown at this link:

<https://www.youtube.com/watch?v=DpknaAPTQ9U&t>. The video described how to modify generators to operate on both gasoline and LPS or natural gas. The modification shown by the video resulted in a generator that could be operated on any of these fuels and could switch between those fuels.

2. The published date listed on the YouTube video is October 2, 2011:

Honda Generator Tri-Fuel, EU2000i Triple-Fuel

Honda generator EU2000i Triple fuel.

3. I know I saw this same YouTube video in 2012 because I made a comment on the YouTube video 13 years ago, my comment shown in the screenshot below and attributed by my YouTube username “jaredmbennett”:

@jaredmbennett 13 years ago

Please show step by step on how you drilled the carb. Nice and detailed for some of us less talented

4. The 2012 date is consistent with my recollection. I recall that around that time (2012) it would have been nice to have a generator that could operate on both propane and gasoline. I recall watching the YouTube video and considered the

modification taught in the video myself, but ultimately did not attempt it. Specifically, I recall wanting a more close up video specifically showing exactly where to drill. Because at the time I was trying to learn about conversion kits.

5. My comment is still publicly available on the YouTube video in the comments section.
6. The video that is available today on YouTube at the link cited above is the same video I viewed and commented on in 2012.
7. I declare that all statements made herein of my own knowledge are true and that all statements made upon information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code.
8. I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Executed on: 05/09/2025
