Curriculum Vitae of Richard A. Flasck

My fifty-five year professional career has involved high tech product development, intellectual property (IP) issues, projection displays, lens and optical system design, thin film optical filters, non-imaging optics, LCD flat panel displays and modules including touch panels, backlighting of flat panel displays, light emitting diode (LED and OLED) product development, injection molding, chip-on-board development, and High Definition Television (HDTV) systems.

I am an inventor on twenty-six patents (26), both US and foreign, including one US design patent. I have concluded several licensing agreements, demonstrating both technical innovation and expertise in Intellectual Property (IP) issues. Additionally, on several occasions I have testified before the US International Trade Commission and in US District Court as an expert witness on display and lighting technologies.

I am also an author of twenty-five (25) published papers and conference presentations.

Education

- 1970 BS – Physics University of Michigan (Ann Arbor, MI)
- 1976 MS – Physics Oakland University (Rochester, MI)

Employment

- 1989 – Present
  - Organization: RAF Electronics
  - Position: Founder / CEO / Owner
    - Developed, patented, and licensed Liquid Crystal on Silicon (LCOS) microdisplay technology. Engaged in development and patent prosecution of proprietary LED based Solid State Lighting (SSL) products. Etendue limited optics, non-imaging and hybrid optics, thermal management, layout and electronic drive of LED arrays. Expertise in semiconductor IC's, touch panels, Active Matrix Liquid Crystals Displays (AMLCD), thin films, optics, and video electronics. Optics and electronics manufacturing, technical consulting and independent testifying expert witness work in numerous patent lawsuits.

- 2002-2007
  - Organization: Diablo Optics, Inc.
  - Position: Co-founder and COO
    - Development, production and commercialization of key optical components for HDTV projectors. Polarization optics, condenser lenses, projection lenses, ultra-high performance optical thin film stacks. Established, and

BOE Ex. 1026, p. 1
BOE v. Paneltouch
IPR2025-01483

managed international supply chain. Developed domestic and international customers.

- 1997 – 1999
  - Organization: Alien Technology Corporation
  - Position: President and COO
    - Responsible for successful MEM fluidic self-assembly (FSA) technology implementation and completion of a DARPA contract. Managed company growth from a four-person start-up to a VC funded twenty person operation. Cleanroom, photolith, thin film deposition (back-end) semiconductor processing.

- 1982-1989
  - Organization: Alphasil, Inc.
  - Position: Founder and CEO
    - Pioneered amorphous silicon thin film transistor (TFT) active matrix Liquid Crystal Displays (AMLCD). World's first amorphous silicon TFT LCD pilot line in 1986. TFT process and circuit design, data driver and gate driver design, scalers, video circuits, backlighting, and inverter design. Worked with touch screen pioneer Elographics to develop and integrate resistive and capacitive touch screens into Alphasil LCD modules.

- 1970 – 1982
  - Organization: Energy Conversion Devices, Inc.
  - Position: Scientist, Manager
    - Originated, managed, developed, and licensed several high tech products including thin film photovoltaics, ablative imaging films, EEPROMs, multi-chip modules, and superconducting materials.

Professional Affiliations

- Member - SPIE, Optica (formerly OSA), SID, IEEE, AES
- Co-Chairman – SPIE/ IS&T Symposium on Electronic Imaging (1991 and 1992)
- Former Board Member - RAF Electronics Corp., Alphasil, Inc., Somanetics Corporation, Diablo Optics, Inc.

IPR2025-01483

Testifying Expert Witness Experience in Patent Litigation

I have been an expert witness on over 65 cases, 14 of which involved touch panel patents and technology, and 12 of which involved OLED display patents. I have written scores of expert reports and declarations, have been deposed over 24 times, and have testified in district court or at ITC hearings 8 times. I am familiar with IPRs, EPRs, and PGRs. None of my testimony or opinions have ever been excluded.
