Honorable Director,

Petitioner respectfully requests authorization for briefing in the form of a five-page Reply to Patent Owner's Preliminary Response in each of IPR2025-01456, IPR2025-01487, and IPR2025-01489. In each case, the proposed Reply would address arguments in the Preliminary Response alleging that Petitioner's district court claim constructions are irreconcilable with the Petition for IPR.

Petitioner suggests a deadline for the Reply of no later than five business days after the Director's authorization.

Moreover, if Petitioner's request is granted, Petitioner does not oppose Patent Owner's submission of an equivalent Sur-Reply.

There is good cause for granting Petitioner's request. For one, complete briefing on this issue would clarify the record by permitting argument from both parties. In addition, this brief is Petitioner's first opportunity to address many (if not all) of Patent Owner's allegations because the claim construction proceedings in the district court began after Petitioner initiated these IPRs.

Patent Owner takes no position on this request. If, however, Petitioner's request is granted, Patent Owner requests a Sur-Reply of equal length.

Respectfully,

Kenneth Darby :: Principal :: Fish & Richardson P.C.
