Pursuant to 37 C.F.R § 42.74 and the authorization provided by the Board on October 21, 2025, Petitioner Bose Corporation (“Bose”) and Patent Owner IngenioSpec, LLC (“IngenioSpec”) jointly request termination of this proceeding, IPR2025-01548, which challenges all claims of U.S. Patent No. 11,829,518 (“the ’789 Patent”).

Bose and IngenioSpec have resolved their dispute regarding the ’518 Patent, including both this proceeding and Bose’s declaratory judgment action seeking a declaration of non-infringement of the ’518 Patent, *Bose Corp. v. IngenioSpec, LLC*, 1-25-cv-10240 (D. Mass.). The parties do not anticipate further litigation between them concerning the ’518 Patent. Contemporaneous with this motion, the parties are filing substantively identical motions to terminate three related proceedings involving patents owned by IngenioSpec that are also at issue in Bose’s declaratory judgment action.

Good cause exists to terminate this proceeding because the parties have resolved their dispute regarding the ’518 Patent and the proceeding is still at an early stage with IngenioSpec not having yet filed its patent owner preliminary response. Terminating the proceeding now would thus serve the interests of judicial economy as well as the mutual interest of the parties.

A true and correct copy of the parties’ settlement agreement will be filed as Exhibit 1027, along with a joint motion to treat the settlement agreement as

confidential business information. The parties certify that there are no other agreements, oral or written, between the parties made in connection with, or in contemplation of, the termination of the proceeding.

Respectfully submitted,
