

Cisco Meeting Server

Meetings for everyone

Cisco Meeting Server brings premises-based video, audio, and web communication together to meet the collaboration needs of the modern workplace. It works with third-party devices, and provides an enjoyable and intuitive user experience. It also scales easily, and can be purchased using our all-in-one, user-based multiparty licensing offer.

Features

Better meeting experiences

Cisco Meeting Server provides a simple, intuitive user experience for everyone, however they choose to meet.

Business-quality collaboration

Find out how Cisco Meeting Server software makes collaboration easier, boosts productivity, protects your investments, and simplifies purchasing.

Invite anyone

With Cisco Meeting Server, anyone can join a meeting and enjoy a high-quality, consistent, and familiar experience using a **Cisco Collaboration Endpoint**, Jabber client, Cisco Meeting Server web app or third-party device.

Extensive scalability

Cisco Meeting Server scales easily for small or large deployments. Meetings scale across multiple platforms, optimizing bandwidth and cutting costs. You can start small and add capacity as needed.

Cisco has been recognized as a Leader

Gartner positions Cisco a Leader in 2021 Magic Quadrant for Meeting Solutions for the 15th consecutive time.

How to deploy Cisco Meeting Server

Talk with a Cisco salesperson or partner to learn about deployment and choose the best options for you.

Select a platform

Cisco Meeting Server software has been optimized to run on our UCS-based Cisco Meeting Server 1000 and Cisco Meeting Server 2000

Choose a licensing option

Our multiparty option supports per-meeting licensing. Or you can purchase capacity units, as in a traditional license model.

Consider add-on features

Include recording ports, or consider Solution Plus partner Vbrick for recording/streaming distribution and Vyopta for assurance and analytics.

Download the software

Get the Cisco Meeting App for Macs and PCs on our site or from iTunes. Use the Apple Store for iOS devices.

Platforms

Cisco Meeting Server 1000

This Cisco UCS x86 server supports up to 120 simultaneous HD video conferencing calls.

Cisco Meeting Server 2000

This Cisco UCS x86 server supports up to 875 simultaneous HD video conferencing calls.

Find the best subscription plan for you

With the Flex Plan, you can choose the right subscription based on your business size and needs. Each option includes technical support.

Cisco Enterprise Agreement

Reap the benefits of providing services for your entire business. Save more by adding other Cisco technologies. **See how.**

Active User

Purchase meetings based on usage. Anyone can host a meeting, and you only pay for those who use the service.

Named User

Provide meetings, calling, and team collaboration services to individuals, teams, or departments. Buy what you need today and grow at your own pace.

Easy licensing

The multiparty licensing model allows you to buy the services you need and add more later.

Cisco Collaboration is at the core of fantastic

"We believe Cisco is the best positioned vendor to integrate a collaborative experience for all of our users on a consistent basis around the globe."

Kevin Rice, Enterprise Architect, Voice and Video Engineering, A.T. Kearney
