Case No. LACV17-04146 JAK (PLAx)

ORDER REGARDING REDUCTION OF ASSERTED CLAIMS AND PRIOR ART REFERENCES

GOOGLE EXHIBIT 1032
GOOGLE v. SONOS
IPR2025-01590

The parties have stipulated to reduce the number of claims and prior art references asserted in this action.

IT IS HEREBY ORDERED THAT:

(1) By August 3, 2018, Plaintiff will elect no more than 5 asserted claims per patent (and no more than 16 claims total across all asserted patents), to be selected from currently asserted claims in Plaintiff's Infringement Contentions; and

(2) By August 31, 2018, Defendant will elect no more than 6 asserted prior art references per patent (and no more than 20 prior art references across all asserted patents). For purposes of this stipulation, a "prior art reference" refers to a single patent, patent application, printed publication, item of prior public knowledge or public use, instrumentality, or a combination thereof. For the purposes of this stipulation, a combination of prior art references shall be considered one "reference" for the purposes of these limitations, regardless of the number of prior art references included in the combination. For purposes of this stipulation, a prior art instrumentality (such as a device or process) and associated references that describe that instrumentality shall count as one reference, as shall the closely related work of a single prior artist.

IT IS SO ORDERED

Dated: August 20, 2018
