Excellent Results!!

I have been using this brand of Berberine for several months. It really does bring my blood sugars down. Obviously if I eat really bad, it can only do so much. But when I'm really working on keeping them down it definitely helps. I take them with my meds. Sometimes, in between the two doses of meds. The first time I tried this, it brought me from 176 to 143 (blood sugars on glucometer)

blood sugar maintenance pills

I take this for 4 months then break 4 months. 2 every day, 1 before lunch and 1 before dinner. Im pre-diabete, it helps me to maintain my blood sugar combined with my diet. During my break period, I just need to watch my diet and exercise 30 minutes after meals.

Great weight loss tool for those who can tolerate

I had great results. The weight started to drop almost immediately. I was taking 3 capsules a day with food because I am sensitive to medications and supplements. Unfortunately, I wound up losing my taste and smell while I was on it and eventually developed a low grade but constant nausea. I only put this is to warn those others who have problems like mine to be careful. I began taking just one capsule and will eventually add a second. Hopefully, I can tolerate a smaller dose. One capsule a day does not seem to bother me, and I do still have the result of not being hungry. I am able to eat reasonable portions and continue to lose weight even if much slower. I recommend it as a great weight loss tool to those who can tolerate it without side effects.

Fixing gut health

Started taking this from pharmacists recommendation to incorporate berberine to help with pcos, gut health and normalize blood sugar levels. I finished my first bottle and purchased second. I do feel there is benefits with no side effects which is great. Most will throw a prescription medication at issues but as a woman in 40s trying to learn new hormones in perimenopause is difficult and pcos is no joke so trying combat new medications is tricky, so far this is helping for overall health.

Dihydroberberine tablets

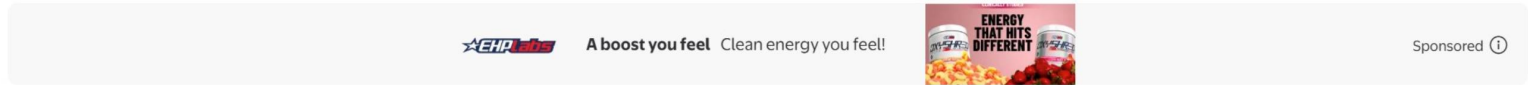

I was skeptical at first, but this product - for me, does not have any ill effects. No stomach upset, gas, bloating, or intestinal issues. It is easy to take with a meal, and I take it three times a day. I also take bitter Mellon for blood sugar control.

Good replacement for berberine

No longer worry about a supplement interaction with my metformin or stomach upset I had with berberine. Better cholesterol levels

I was diagnosed with prediabetes and wanted to try this to lower blood sugar.

It actually works while also taking more omega 3's with it.

(3.0)

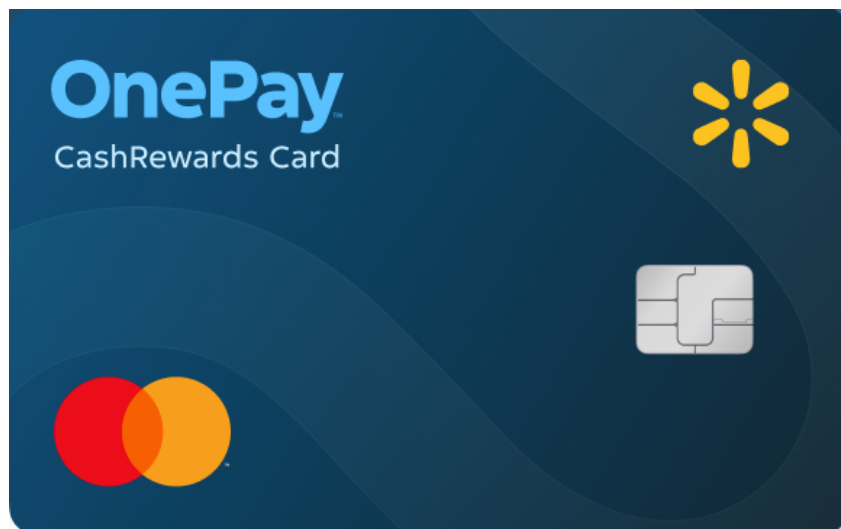

[2 ratings](#)

Key item features

- Why not 5X your berberine absorption? Peak Performance GlucoVantage Super Berberine contains Dihydroberberine (DHB), an active metabolite of berberine. Compared to regular berberine, DHB has shown to be up to 5x more bioavailable/absorbable, and 2x longer-lasting (8 hours vs. 4 hours)
- Super Berberine may help increase plasma BHB ketones.*
- Natural vs Synthetic: Synthetic vitamins and supplements are not as bioavailable, not absorbable / usable and not recognizable to the body as naturally derived supplements. Mounting studies on this natural herb, show increasing adaptogenic benefits. All of our ingredients are carefully chosen and 3rd party tested for purity.
- Vegan & Allergy Free - Free of Soy, Milk, Egg, Shellfish, Corn, Wheat & Peanuts. Contains NO Gluten or Preservatives. Manufactured Under The Highest Quality GMP Regulations and USA Standards from trusted suppliers. Easy to swallow pills.
- Over 1 Million Customers + 1-for-1 Donation To Vitamin Angels. Peak Performance is celebrating over 1 Million customers and we are also very proud of our 1-for-1 donation match program. For every unit you purchase, through our partnership with the nonprofit Vitamin Angels, we will supply a child at risk of malnutrition with vitamins for 1 year! To date, we've supplied over 3 Million children with life changing Vitamins- So thank you for helping us continue this great cause!
