EX 1013

Company

RPX Corporation brings companies together from throughout the world to solve patent risks that they face in common. Our conviction is that solving such problems once for many companies can achieve a faster, better, and less expensive resolution than might otherwise be achieved by each company acting alone. To this end, we offer a platform that includes defensive buying of patent rights, acquisition syndication, patent intelligence, insurance services, and advisory services.

Our pioneering approach combines principal capital, deep patent expertise, and client contributions to generate enhanced patent buying power. By efficiently acquiring rights to problematic patents, we help to mitigate and manage the risk of potential patent assertions for our growing client network.

Our Culture and Team

Our unique approach and success are fueled by our highly skilled and diverse team built upon our principles of diversity, inclusiveness, and equal justice for everybody. Our differences unlock our strengths. We embrace diversity of thought and background to foster opportunities for innovation and collaboration. We are committed to creating an inclusive environment of mutual respect, humility, and empathy where authenticity is welcomed, and all people are supported.

Uplifting each other enhances the well-being of our communities as well as the success of our company. By encouraging everyone to speak, and listening carefully to every voice, we are better equipped to understand our clients' increasingly diverse needs and deliver solutions to their most complex problems.

Our **leadership team**, joined by more than 100 patent-related professionals, includes recognized experts in the industry with broad and deep relationships throughout the global patent ecosystem. We are specialists in identifying and analyzing problematic patents, negotiating and structuring rights to patents, and advising the hundreds of companies in our network on avoiding and resolving patent disputes.

Careers

We bring people together to make things possible for our members. Please review our **current opportunities** to join our team.
