Seniors Born 1939-1969 Receive 11 Benefits This Month If They Ask

Match	Document	Document Title	Score
1	7062274	Increasing the level of automation when establishing and managing network connections Increasing the level of automation when establishing and managing network connections. A connection manager operates between system level APIs and application programs, providing a level of...	1000
2	US20060072735	Increasing the level of automation when establishing and managing network connections Increasing the level of automation when establishing and managing network connections. A connection manager operates between system level APIs and application programs, providing a level of...	946
3	US20040224668	Increasing the level of automation when establishing and managing network connections Increasing the level of automation when establishing and managing network connections. A connection manager operates between system level APIs and application programs, providing a level of...	912
4	7136645	Method and apparatus for providing mobile and other intermittent connectivity in a computing environment A seamless solution transparently addresses the characteristics of nomadic systems, and enables existing network applications to run reliably in mobile environments. A Mobility Management Server...	602
5	US20080133518	SYSTEMS AND METHODS FOR PROCESSING DATA FLOWS A flow processing facility, which uses a set of artificial neurons for pattern recognition, such as a self-organizing map, in order to provide security and protection to a computer or computer...	551
6	US20080133517	SYSTEMS AND METHODS FOR PROCESSING DATA FLOWS A flow processing facility, which uses a set of artificial neurons for pattern recognition, such as a self-organizing map, in order to provide security and protection to a computer or computer...	551
7	US20080262990	SYSTEMS AND METHODS FOR PROCESSING DATA FLOWS A flow processing facility, which uses a set of artificial neurons for pattern recognition, such as a self-organizing map, in order to provide security and protection to a computer or computer...	551
8	US20080229415	SYSTEMS AND METHODS FOR PROCESSING DATA FLOWS A flow processing facility, which uses a set of artificial neurons for pattern recognition, such as a	551

		self-organizing map, in order to provide security and protection to a computer or computer...	
9	US20080262991	SYSTEMS AND METHODS FOR PROCESSING DATA FLOWS A flow processing facility, which uses a set of artificial neurons for pattern recognition, such as a self-organizing map, in order to provide security and protection to a computer or computer...	551
10	US20080162390	SYSTEMS AND METHODS FOR PROCESSING DATA FLOWS A flow processing facility, which uses a set of artificial neurons for pattern recognition, such as a self-organizing map, in order to provide security and protection to a computer or computer...	551
11	8402540	Systems and methods for processing data flows A flow processing facility, which uses a set of artificial neurons for pattern recognition, such as a self-organizing map, in order to provide security and protection to a computer or computer...	551
12	US20080134330	SYSTEMS AND METHODS FOR PROCESSING DATA FLOWS A flow processing facility, which uses a set of artificial neurons for pattern recognition, such as a self-organizing map, in order to provide security and protection to a computer or computer...	551
13	US20070192863	SYSTEMS AND METHODS FOR PROCESSING DATA FLOWS A flow processing facility, which uses a set of artificial neurons for pattern recognition, such as a self-organizing map, in order to provide security and protection to a computer or computer...	551
14	7979368	Systems and methods for processing data flows A flow processing facility, which uses a set of artificial neurons for pattern recognition, such as a self-organizing map, in order to provide security and protection to a computer or computer...	551
15	US20070180466	INFORMATION REPRODUCING SYSTEM USING INFORMATION STORAGE MEDIUM According to one embodiment, there is provided an information reproducing method. The method includes, from an information storage medium storing stream data having a plurality of advanced packs...	490
16	US20070143267	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	477
17	US20070172201	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	471
18	US20070230906	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	471
19	US20070206925	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	468
20	US20070172213	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	468
21	US20070143269	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	468
22	US20070198515	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	468
23	US20070206924	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD	468

		According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	
24	US20070150915	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	468
25	US20070150912	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	468
26	US20070150913	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	468
27	US20070140073	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	468
28	US20070150914	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	468
29	US20080010648	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	439
30	US20070196080	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	439
31	US20070154191	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	439
32	US20070127893	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	439
33	US20070127895	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	439
34	US20070171559	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	439
35	US20070127892	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises	439

		referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	
36	US20070127894	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	439
37	US20070136375	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	439
38	US20070174759	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	439
39	US20070174758	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	439
40	US20070154167	INFORMATION STORAGE MEDIUM, INFORMATION REPRODUCING APPARATUS, AND INFORMATION REPRODUCING METHOD According to one embodiment, an information storage medium, and the program comprises referring to a manifest from a playlist that manages playback presentation of a playback presentation object,...	439
41	8244745	Analyzing usage information of an information management system In an information management system, activity data is collected and analyzed for patterns. The information management system may be policy based. Activity data may be organized as entries...	362
42	US20030135638	Dynamic modification of application behavior in response to changing environmental conditions Methods, systems, and computer program products for dynamically modifying an application program's behavior in response to changing environmental conditions (such as network changes, system...	340
43	7574208	Method and apparatus for providing mobile and other intermittent connectivity in a computing environment A seamless solution transparently addresses the characteristics of nomadic systems, and enables existing network applications to run reliably in mobile environments. A Mobility Management Server...	322
44	7778260	Method and apparatus for providing mobile and other intermittent connectivity in a computing environment A seamless solution transparently addresses the characteristics of nomadic systems, and enables existing network applications to run reliably in mobile environments. A Mobility Management Server...	316
45	US20010047393	System and method for efficient remote operation of real-time graphical applications Systems and methods are provided through which an application is executed on a server, and operated from a client operably coupled to the server. State information of the application is maintained...	312
46	8010469	Systems and methods for processing data flows Methods and systems for flow processing and switching, security, and other network applications, including a facility that processes a data flow to address patterns relevant to a variety of...	285
47	US20060248208	Method and apparatus for universal data exchange gateway A universal gateway that allows data to be transferred between one or more network protocols and one or more control protocols is described. The various protocols can coexist on the same physical...	282
48	7949677	Methods and systems for providing authorized remote access to a computing environment provided by a virtual machine A method for providing authorized remote access to a computing environment provided by a virtual machine, includes the step of requesting, by a client machine, access to a resource. A collection...	277
