- Separately via Email

Bob:

Last week, on February 15, 2023, Kurin, Inc. announced to the world, via internet press release, the commercial launch of a new product called the "Kurin Jet".

As you undoubtedly understand, Magnolia has serious concerns about the "Kurin Jet" announcement. Kurin's actions, at this particular point in time, are very troublesome given Magnolia's motion for permanent injunction pending before Chief Judge Connolly in the District Court of Delaware.

Kurin's press release compares the new "Kurin Jet" to the Kurin Lock,¹ which, as you know, a jury found in July 2022 infringes Magnolia's U.S. Patent No. 10,039,483.

For your (and your counsel's) convenience, Addendum A attached provides a listing of all currently publicly available and published Magnolia patents and pending patent applications.

I have instructed Magnolia's outside counsel to request from Kurin's outside counsel 10 samples of the "Kurin Jet" for evaluation. As you know, Magnolia intends to enforce its intellectual property rights to the fullest extent necessary to protect its technology and innovations.

We continue to be dismayed by your on-going willful infringement and we will seek appropriate remedies for any and all additional unlawful use of our intellectual property.

Regards,

Gregory J. Bullington
CEO & Co-Founder
Magnolia Medical Technologies, Inc.

Enclosures:

Addendum A: List of Magnolia's Current Publicly Available & Published Patents, Pending Patents and Patent Applications
