THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the ENTITY STATUS shown above. If the ENTITY STATUS is shown as SMALL or MICRO, verify whether entitlement to that entity status still applies.

If the ENTITY STATUS is the same as shown above, pay the TOTAL FEE(S) DUE shown above.

If the ENTITY STATUS is changed from that shown above, on PART B - FEE(S) TRANSMITTAL, complete section number 5 titled "Change in Entity Status (from status indicated above)".

If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Maintenance fees are due in utility patents issuing on applications filed on or after Dec. 12, 1980. It is patentee's responsibility to ensure timely payment of maintenance fees when due. More information is available at www.uspto.gov/PatentMaintenanceFees.

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (Applications filed on or after May 29, 2000)

The Office has discontinued providing a Patent Term Adjustment (PTA) calculation with the Notice of Allowance.

Section 1(h)(2) of the AIA Technical Corrections Act amended 35 U.S.C. 154(b)(3)(B)(i) to eliminate the requirement that the Office provide a patent term adjustment determination with the notice of allowance. See Revisions to Patent Term Adjustment, 78 Fed. Reg. 19416, 19417 (Apr. 1, 2013). Therefore, the Office is no longer providing an initial patent term adjustment determination with the notice of allowance. The Office will continue to provide a patent term adjustment determination with the Issue Notification Letter that is mailed to applicant approximately three weeks prior to the issue date of the patent, and will include the patent term adjustment on the patent. Any request for reconsideration of the patent term adjustment determination (or reinstatement of patent term adjustment) should follow the process outlined in 37 CFR 1.705.

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

OMB Clearance and PRA Burden Statement for PTOL-85 Part B

The Paperwork Reduction Act (PRA) of 1995 requires Federal agencies to obtain Office of Management and Budget approval before requesting most types of information from the public. When OMB approves an agency request to collect information from the public, OMB (i) provides a valid OMB Control Number and expiration date for the agency to display on the instrument that will be used to collect the information and (ii) requires the agency to inform the public about the OMB Control Number's legal significance in accordance with 5 CFR 1320.5(b).

The information collected by PTOL-85 Part B is required by 37 CFR 1.311. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 30 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, Virginia 22313-1450. **DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450.** Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

Notice of Pre-AIA or AIA Status

1. The present application is being examined under the pre-AIA first to invent provisions.

Allowable Subject Matter

2. In view of amended claims filed on 09/28/2022, terminal disclaimer and further search, Claims 1-25 are allowed over prior art.

The following is a statement of reasons for the indication of allowable subject matter: It's interpreted, the prior art of record either singularly or in proper combination fails to teach wherein transmitting the first message, by the device via a wireless local area network (WLAN), to the content provider; receiving, by the device, a second message formatted in accordance with a message format of the server, wherein the second message is received based on an address corresponding to the device and the second message comprises message content originated by the content provider; wherein the message format of the server is not a SMS message format, a multimedia message service (MMS) message format or an enhanced message service (EMS) message format (claim 1) and wherein the device instructs transmission of a first message via the server that receives packet-switched messages transmitted via the service PSMS to recipient devices that correspond to subscribers of the service PSMS, based at least in part on one of the responses indicating that a first addressed recipient of the first message corresponds to a subscriber of the service PSMS, wherein the first message reaches the first addressed recipient without being routed via an SMS bearer (claim 11) and receiving, by the wireless device, information indicating that the email address corresponds to a subscriber of the PSMS; sending a group based message to a wireless device associated with the another phone number and a wireless device associated with the email address, via the Internet, wherein the group based message is sent via a wireless local area network (WLAN) connection of the wireless device (claim 17).

Prior art teaches a method for providing access to content using a global textsite platform (GTP), including receiving, from a user device associated with a device identifier, a first user message including a first navigation state identifier of a sequential plurality of navigation state identifiers, identifying a first text page of the textsite associated with the first navigation state identifier and a system and method are disclosed for communicating messages between users that use different messaging services. A message from a user communication device is communicated to a remote user

communication device using a first messaging service. The remote user communication device communicates messages using a second messaging service.

However, prior art fails to teach the claimed limitation wherein transmitting the first message, by the device via a wireless local area network (WLAN), to the content provider; receiving, by the device, a second message formatted in accordance with a message format of the server, wherein the second message is received based on an address corresponding to the device and the second message comprises message content originated by the content provider; wherein the message format of the server is not a SMS message format, a multimedia message service (MMS) message format or an enhanced message service (EMS) message format (claim 1) and wherein the device instructs transmission of a first message via the server that receives packet-switched messages transmitted via the service PSMS to recipient devices that correspond to subscribers of the service PSMS, based at least in part on one of the responses indicating that a first addressed recipient of the first message corresponds to a subscriber of the service PSMS, wherein the first message reaches the first addressed recipient without being routed via an SMS bearer (claim 11) and receiving, by the wireless device, information indicating that the email address corresponds to a subscriber of the PSMS; sending a group based message to a wireless device associated with the another phone number and a wireless device associated with the email address, via the Internet, wherein the group based message is sent via a wireless local area network (WLAN) connection of the wireless device (claim 17). . Therefore, the prior art of record either singularly or in combination fails to teach the above claimed limitations for claim 1, 11 and 17 is therefore the reason for allowance. All dependent claims are therefore allowed under same reasons set forth above.
