System and method for voice actuated configuration of a controlling device

      · [US11264018B2](#) · Jonathan Lim · Universal Electronics Inc.

Priority 2011-11-17 · Filed 2017-10-17 · Granted 2022-03-01 · Published 2022-03-01

wherein the instructions cause the **speech recognition** engine to use voice data indicative of a command to be transmitted from the controlling device to directly identify within the at least one codeset command data that is cross-referenced to a phonetic representation of the command **and** to cause ...

Intelligent key system

 · [US10984625B2](#) · William D. Denison · Mobile Tech, Inc.

Priority 2001-12-27 · Filed 2019-10-21 · Granted 2021-04-20 · Published 2021-04-20

wherein the programmable electronic key **and** the device are further configured to be operatively cooperative in response to the user selection of the button with the programmable electronic key **and** the device being within wireless range of each other such that the programmable electronic key **and** the ...

Fluid delivery systems

          · [EP2338548B1](#) · Dean Kamen · DEKA Products Limited Partnership

Priority 2006-02-09 · Filed 2007-02-09 · Granted 2013-05-29 · Published 2013-05-29

A device according to claim 5, wherein the controller (501) is arranged to determine a compensatory action based on the estimate. A device according to claim 1, wherein the sensor (550) is one of an optical sensor **and** a capacitive sensor. A device according to claim 1, wherein the sensor (550) is ...

Mobile terminal

         · [RU2562810C2](#) · Кван Хо ЮМ · ЭлДжи ЭЛЕКТРОНИКС ИНК.

Priority 2009-05-11 · Filed 2010-05-07 · Granted 2015-09-10 · Published 2015-09-10

4. The mobile terminal according to claim 1, wherein the external information is collected by user input **or** previously stored in the mobile terminal. 5. The mobile terminal according to claim 1, in which the wireless communication unit receives status information of the household **appliance** from the ...

Electronic equipment and operate the method for this electronic equipment

   · [CN102769724B](#) · 金钟哲 · Lg电子株式会社

Priority 2011-05-03 · Filed 2012-05-03 · Granted 2016-06-08 · Published 2016-06-08

The invention discloses a kind of electronic equipment **and** operate the method for this electronic equipment. The electronic equipment of a kind of NFC of support is discussed **and** for operating this electronic equipment method. Comprise according to the method for embodiment: carry out the first ...

Interactive communications appliance

  · [US20110009050A1](#) · Michael C. Wood · Leapfrog Enterprises, Inc.

Priority 1999-11-30 · Filed 2010-07-12 · Published 2011-01-13

a transceiver for transmitting the personalized information via a wireless link to an interactive communications **appliance**, the transceiver being operatively coupled to the processor, wherein the interactive communications **appliance** is configured to broadcast the personalized information to the ...

Interface apparatus, interface processing method, and interface processing ...

  · [US20080059178A1](#) · Daisuke Yamamoto · Kabushiki Kaisha Toshiba

Priority 2006-08-30 · Filed 2007-06-28 · Published 2008-03-06

claim 4, further comprising: an analysis section configured to analyze the recognition result for the teaching speech by connected **speech recognition**, **and** obtain a morpheme from one **or** more recognized words which are the recognition result for the teaching speech by connected **speech recognition**,

Electronic Security System for Monitoring Mechanical Keys and Other Items

 · [US20130027177A1](#) · William D. Denison · Micro Enhanced Technology, Inc

Priority 2001-12-27 · Filed 2012-09-14 · Published 2013-01-31

wherein one of the first key **and** the second key transmits two **or** more non-identical encrypted messages to the electronic lock. 7. The access control system of claim 1, wherein one of the first key **and** the second key transmits two **or** more non-identical encrypted messages to the electronic lock prior ...

System on speech recognition piece and voice recognition method using the same

 · [CN101315770B](#) · 廖茂宇 · 北京承芯卓越科技有限公司

Priority 2008-05-27 · Filed 2008-05-27 · Granted 2012-01-25 · Published 2012-01-25

1. a system on **speech recognition** piece is characterized in that, comprising: The amplification filtering module is used for the analog voice signal that analog voice signal carries out filtering **and** amplification **and** will pass through filtering **and** amplification is sent to analog-to-digital ...

Wireless Relay Module For Remote Monitoring Systems

 · [US20150070187A1](#) · Joel D. Wiesner · Covidien Lp

Priority 2011-01-14 • Filed 2014-08-18 • Published 2015-03-12

further comprising receiving the patient identification information from the medical device **or** the patient identification device by the wireless relay module, **and** wherein transmitting the medical device identification information **and** the patient identification information by the wireless relay ...
