Dear John,

1) Just a reminder. The first response of this very very important patent Attorney Client

is March 19.

Today is Feb 21.

I'm giving you a head's up, because as I mentioned above. **I would like meet the examiner with you** with prototypes for explanations. i assume it will take some lead time to arrange a face to face interview , and also give us enough time to allow for mutually agreeable scheduling.

I would appreciate it if we could start arranging a date, so I can rearrange my schedule around the examiner's.

(Other deadlines are staple gun March 20, and cervical disc April 5)

Attorney Client

Please confirm receipt of this e-mail.

Thanks,
Nate

Dear John,

Attorney Client

Attorney Client

* I would find it vital to meet with the examiner with you. I have prototypes of the boxes in question, as well as a prototype of the tool that I think will significantly help in the understanding. Thus please let me know after reading this , if you have any questions. Also when you make an appointment with the examiner please advise me of the date , time and location.

Thanks,
Nate.

P.S. please acknowledge receipt of this e-mail.
