Subject: Re: flexispine web spots

Dear Eric,

Thanks for contacting us. Are focus now is working on the patents of our past projects. We have not yet filed a patent application for the lumbar fusion device you worked on yet. So we don't want pictures of it anywhere. You will know when we file a patnet for that device.

Thanks,

Andy

Hi Nathan & Andy -

I hope you guys are doing well. What is the latest with Flexispine? Wondering if it would be ok to put a spot on the lumbar fusion device on our website. We are trying to spruce up our site with more content, and the fusion device would be a good one to highlight. Let me know your thoughts when you get a chance.

Thanks!

Eric
