

**UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF MINNESOTA**

MOSKOWITZ FAMILY LLC,

Plaintiff,
vs.

MEDTRONIC, INC., MEDTRONIC
SOFAMOR DANEK, INC.,
MEDTRONIC SOFAMOR DANEK USA,
INC., WARSAW ORTHOPEDIC, INC.,
and TITAN SPINE, INC.,

Defendants.

Case No. 25-cv-00769 PJS/DLM

**DEFENDANTS MEDTRONIC, INC.,
MEDTRONIC SOFAMOR DANEK,
INC., MEDTRONIC SOFAMOR
DANEK USA, INC., WARSAW
ORTHOPEDIC, INC., AND TITAN
SPINE, INC.’S ANSWER TO
SECOND AMENDED COMPLAINT
AND COUNTERCLAIMS AGAINST
PLAINTIFF MOSKOWITZ FAMILY
LLC**

Defendants Medtronic, Inc.; Medtronic Sofamor Danek, Inc.; Medtronic Sofamor Danek USA, Inc.; Warsaw Orthopedic, Inc.; and Titan Spine, Inc. (collectively, “Medtronic” or “Defendants”), through their attorneys and upon personal knowledge and/or upon information and belief, respectfully submit this Answer (“Answer”) to Plaintiff Moskowitz Family LLC’s (“Plaintiff” or “Moskowitz”) Second Amended Complaint (“SAC”) and Counterclaims against Plaintiff. The numbered paragraphs of this Answer correspond to the numbered paragraphs of Plaintiff’s Complaint. Medtronic incorporates the headings of the SAC solely for organizational and reference purposes. Medtronic denies any allegations contained in the headings, tables, and unnumbered paragraphs of the SAC, as well as any characterizations of the documents referred to in the SAC. Every allegation that is not specifically admitted is hereby denied.

THE PARTIES

1. Medtronic denies the allegations of this paragraph. Medtronic denies that it knew of allegations of infringement at issue in this lawsuit. Medtronic denies that it uses any technology that is covered by the asserted patents. Medtronic admits that it is one of the largest medical device companies. Medtronic denies all allegations of infringement and admits that it has not paid money to the Moskowitz Family LLC. Medtronic denies the remaining allegations of this paragraph.

2. Medtronic is without knowledge or information sufficient to form a belief as to the allegations of this paragraph and therefore denies them.

3. Medtronic is without knowledge or information sufficient to form a belief as to the allegations of this paragraph and therefore denies them.

4. Medtronic is without knowledge or information sufficient to form a belief as to the allegations of this paragraph and therefore denies them.

5. Medtronic is without knowledge or information sufficient to form a belief as to the allegations of this paragraph and therefore denies them.

6. Medtronic is without knowledge or information sufficient to form a belief as to the allegations of this paragraph and therefore denies them.

7. Medtronic is without knowledge or information sufficient to form a belief as to the allegations of this paragraph and therefore denies them.

8. Medtronic is without knowledge or information sufficient to form a belief as to the allegations of this paragraph and therefore denies them.

9. Medtronic acknowledges that spinal fusion patients may experience potential complications after surgery including those listed in the SAC. Medtronic denies that any of the patents-in-suit reflect Moskowitz Family LLC inventions that led to reduction in complications or improvement in patient outcomes. Medtronic denies the remaining allegations of this paragraph.

10. Medtronic denies that any of the patents-in-suit reflect Moskowitz Family LLC inventions that led to reduction in complications or improvement in patient outcomes. Medtronic denies the remaining allegations of this paragraph.

11. Medtronic admits that Medtronic, Inc. is a Minnesota corporation with its principal place of business at 710 Medtronic Parkway, Minneapolis, MN 55432. Medtronic admits that Medtronic is one of the world's largest medical technology, services, and solutions companies with the focus of alleviating pain, restoring health, and extending life for millions of people around the world. Medtronic admits that it has subsidiaries including those listed in Paragraph 11. Medtronic admits that Medtronic—either itself or through its subsidiaries, affiliates, and/or agents—imports, markets, distributes, and/or sells medical devices and instruments for use in connection with spine surgery, including those listed in Paragraph 11. Medtronic denies the remaining allegations of this paragraph.

12. Medtronic admits that Medtronic Sofamor Danek USA, Inc. is a Tennessee corporation. Medtronic admits that it has subsidiaries including Medtronic Sofamor Danek USA, Inc., and that Medtronic—either itself or through its subsidiaries, affiliates, and/or agents—imports, markets, distributes, and/or sells medical devices and

instruments for use in connection with spine surgery. Medtronic denies the remaining allegations of this paragraph.

13. Medtronic admits that Medtronic Sofamor Danek, Inc. is an Indiana corporation. Medtronic admits that it has subsidiaries including Medtronic Sofamor Danek, Inc., and that Medtronic—either itself or through its subsidiaries, affiliates, and/or agents—imports, markets, distributes, and/or sells medical devices and instruments for use in connection with spine surgery. Medtronic denies the remaining allegations of this paragraph.

14. Medtronic admits that Warsaw Orthopedic, Inc. is an Indiana corporation. Medtronic admits that Warsaw Orthopedic, Inc. is the successor by merger to Medtronic Sofamor Danek Holdings, Inc. Medtronic admits that it has subsidiaries including Warsaw Orthopedic, Inc., and that Medtronic—either itself or through its subsidiaries, affiliates, and/or agents—imports, markets, distributes, and/or sells medical devices and instruments for use in connection with spine surgery. Medtronic denies the remaining allegations of this paragraph.

15. Medtronic admits that Titan Spine, Inc. is a Delaware corporation. Medtronic admits that Titan Spine marketed titanium interbodies, including Endoskeleton TAS and Endoskeleton TCS. Medtronic denies the remaining allegations of this paragraph.

16. Medtronic admits that Medtronic completed its acquisition of Titan Spine, Inc. in 2019. Medtronic admits that it sells products formerly marketed by Titan Spine, including Endoskeleton TAS and Endoskeleton TCS. Medtronic states that other

products incorporate nanoLOCK surface technology. Medtronic denies the remaining allegations of this paragraph.

17. Medtronic denies that it has “control over the U.S. or global spinal surgery markets.” Medtronic admits that it has a Cranial & Spinal Technologies division that develops, manufactures, and markets an integrated portfolio of devices and therapies for surgical technologies designed to improve the precision and workflow of neurological procedures, and a comprehensive line of medical devices and implants used in the treatment of the spine and musculoskeletal system.

18. Medtronic admits that, individually speaking, they are each in the business of selling medical devices. Medtronic admits that its mission is to contribute to human welfare by the application of biomedical engineering in the research, design, manufacture, and sale of products to alleviate pain, restore health, and extend life. This mission includes making a fair profit on current operations to meet Medtronic’s obligations, sustain Medtronic’s growth, and reach Medtronic’s goals. Medtronic denies any remaining allegations in this paragraph, in particular any allegations regarding a joint enterprise or any express and/or implied agreements regarding how any profits associated with the Accused Instrumentalities are divided among the group.

19. This paragraph includes legal conclusions to which no response is required. To the extent a response is required, Medtronic denies the allegations. Medtronic denies the remaining allegations of this paragraph.

20. This paragraph includes legal conclusions to which no response is required. To the extent a response is required, Medtronic denies the allegations. Medtronic denies the remaining allegations of this paragraph.

21. This paragraph includes legal conclusions to which no response is required. To the extent a response is required, Medtronic denies the allegations. Medtronic denies the remaining allegations of this paragraph.

THE ASSERTED PATENTS

22. Medtronic admits that this case is a civil action for patent infringement and that the listed patents are asserted in this case. Medtronic denies the remaining allegations of this paragraph.

23. Medtronic admits that the '293 patent appears to have the title "Bi-directional fixating transvertebral body screws and posterior cervical and lumbar interarticulating joint calibrated stapling devices for spinal fusion," and appears on its face to have been issued on April 14, 2015, from Application No. 13/108,982, filed on May 16, 2011. Medtronic admits that what purports to be a copy of the '293 patent is attached to the SAC as Exhibit A1. Medtronic denies that the '293 patent was duly or legally issued. Medtronic lacks knowledge of whether Moskowitz Family LLC owns all rights in the patent and on that basis denies it. Medtronic denies the remaining allegations of this paragraph.

24. Medtronic admits that the '674 patent appears to have the title "Bi-directional fixating transvertebral body screws and posterior cervical and lumbar interarticulating joint calibrated stapling devices for spinal fusion," and appears on its

face to have been issued on March 6, 2018, from Application No. 13/210,168, filed on August 15, 2011. Medtronic admits that what purports to be a copy of the '674 patent is attached to the SAC as Exhibit B1. Medtronic denies that the '674 patent was duly or legally issued. Medtronic lacks knowledge of whether Moskowitz Family LLC owns all rights in the patent and on that basis denies it. Medtronic denies the remaining allegations of this paragraph.

25. Medtronic admits that the '284 patent appears to have the title “Zero-profile expandable intervertebral spacer devices for distraction and spinal fusion and a universal tool for their placement and expansion,” and appears on its face to have been issued on July 10, 2018, from Application No. 15/820,232, filed on November 21, 2017. Medtronic admits that what purports to be a copy of the '284 patent is attached to the SAC as Exhibit C1. Medtronic denies that the '284 patent was duly or legally issued. Medtronic lacks knowledge of whether Moskowitz Family LLC owns all rights in the patent and on that basis denies it. Medtronic denies the remaining allegations of this paragraph.

26. Medtronic admits that the '738 patent appears to have the title “Bi-directional fixating/locking transvertebral body screw/intervertebral cage stand-alone constructs having a central screw locking lever, and pliers and devices for spinal fusion,” and appears on its face to have been issued on September 4, 2018, from Application No. 15/490,107, filed on November 21, 2017. Medtronic admits that what purports to be a copy of the '738 patent is attached to the SAC as Exhibit D1. Medtronic denies that the '738 patent was duly or legally issued. Medtronic lacks knowledge of whether

Moskowitz Family LLC owns all rights in the patent and on that basis denies it.

Medtronic denies the remaining allegations of this paragraph.

27. Medtronic admits that the '505 patent appears to have the title "Bi-directional fixating/locking transvertebral body screw/intervertebral cage stand-alone constructs," and appears on its face to have been issued on March 26, 2019, from Application No. 15/678,401, filed on August 16, 2017. Medtronic admits that what purports to be a copy of the '505 patent is attached to the SAC as Exhibit E1. Medtronic denies that the '505 patent was duly or legally issued. Medtronic lacks knowledge of whether Moskowitz Family LLC owns all rights in the patent and on that basis denies it. Medtronic denies the remaining allegations of this paragraph.

28. Medtronic admits that the '633 patent appears to have the title "Zero-profile expandable intervertebral spacer devices for distraction and spinal fusion and a universal tool for their placement and expansion," and appears on its face to have been issued on October 1, 2019, from Application No. 16/025,667, filed on July 2, 2018. Medtronic admits that what purports to be a copy of the '633 patent is attached to the SAC as Exhibit F1. Medtronic denies that the '633 patent was duly or legally issued. Medtronic lacks knowledge of whether Moskowitz Family LLC owns all rights in the patent and on that basis denies it. Medtronic denies the remaining allegations of this paragraph.

29. Medtronic admits that the '183 patent appears to have the title "Bi-directional fixating/locking transvertebral body screw/intervertebral cage stand-alone constructs having a central screw locking lever, and pliers and devices for spinal fusion," and appears on its face to have been issued on March 31, 2020, from Application No.

16/100,410, filed on August 10, 2018. Medtronic admits that what purports to be a copy of the '183 patent is attached to the SAC as Exhibit G1. Medtronic denies that the '183 patent was duly or legally issued. Medtronic lacks knowledge of whether Moskowitz Family LLC owns all rights in the patent and on that basis denies it. Medtronic denies the remaining allegations of this paragraph.

30. Medtronic admits that the '797 patent appears to have the title “Zero-profile expandable intervertebral spacer devices for distraction and spinal fusion and a universal tool for their placement and expansion,” and appears on its face to have been issued on August 24, 2021, from Application No. 16/587,993, filed on September 30, 2019. Medtronic admits that what purports to be a copy of the '797 patent is attached to the SAC as Exhibit H1. Medtronic denies that the '797 patent was duly or legally issued. Medtronic lacks knowledge of whether Moskowitz Family LLC owns all rights in the patent and on that basis denies it. Medtronic denies the remaining allegations of this paragraph.

31. Medtronic admits that the '136 patent appears to have the title “Expandable spinal implant and tool system,” and appears on its face to have been issued on July 5, 2022, from Application No. 16/744,755, filed on January 16, 2020. Medtronic admits that what purports to be a copy of the '136 patent is attached to the SAC as Exhibit I1. Medtronic denies that the '136 patent was duly or legally issued. Medtronic lacks knowledge of whether Moskowitz Family LLC owns all rights in the patent and on that basis denies it. Medtronic denies the remaining allegations of this paragraph.

32. Medtronic admits that the '755 patent appears to have the title "Artificial expandable implant systems," and appears on its face to have been issued on January 9, 2024, from Application No. 17/208,640, filed on March 22, 2021. Medtronic admits that what purports to be a copy of the '755 patent is attached to the SAC as Exhibit J1. Medtronic denies that the '755 patent was duly or legally issued. Medtronic lacks knowledge of whether Moskowitz Family LLC owns all rights in the patent and on that basis denies it. Medtronic denies the remaining allegations of this paragraph.

33. Medtronic admits that the '367 patent appears to have the title "Expandable intervertebral device," and appears on its face to have been issued on June 18, 2024, from Application No. 17/408,068, filed on August 20, 2021. Medtronic admits that what purports to be a copy of the '367 patent is attached to the SAC as Exhibit K1. Medtronic denies that the '367 patent was duly or legally issued. Medtronic lacks knowledge of whether Moskowitz Family LLC owns all rights in the patent and on that basis denies it. Medtronic denies any remaining allegations of this paragraph.

34. Medtronic admits that the '088 patent appears to have the title "Expandable spinal spacer device," and appears on its face to have been issued on December 9, 2025, from Application No. 18/663,585, filed on May 14, 2024. Medtronic admits that what purports to be a copy of the '088 patent is attached to the SAC as Exhibit L1. Medtronic denies that the '088 patent was duly or legally issued. Medtronic lacks knowledge of whether Moskowitz Family LLC owns all rights in the patent and on that basis denies it. Medtronic denies any remaining allegations of this paragraph.

35. This paragraph includes legal conclusions to which no response is required. To the extent a response is required, Medtronic denies the allegations. Medtronic is otherwise without knowledge or information sufficient to form a belief as to the allegations of this paragraph and therefore denies them.

36. This paragraph states a legal conclusion to which no response is required. To the extent a response is required, Medtronic denies the allegations of this paragraph.

JURISDICTION AND VENUE

37. For the purposes of this action, Medtronic admits that this Court has jurisdiction over the subject matter of this action under 28 U.S.C. §§ 1331 and 1338(a), to the extent Plaintiff is able to demonstrate a proper claim for patent infringement. Medtronic denies the remaining allegations of this paragraph.

38. This paragraph contains characterizations and legal conclusions to which no response is necessary. However, to the extent the allegations in this paragraph are deemed factual, Medtronic does not contest personal jurisdiction in this case. Medtronic otherwise denies the allegations of this paragraph.

39. This paragraph contains characterizations and legal conclusions to which no response is necessary. However, to the extent the allegations in this paragraph are deemed factual, Medtronic does not contest personal jurisdiction in this case. Medtronic otherwise denies the allegations of this paragraph.

40. This paragraph contains characterizations and legal conclusions to which no response is necessary. However, to the extent the allegations in this paragraph are

deemed factual, Medtronic does not contest venue in this case. Medtronic otherwise denies the allegations of this paragraph.

PRE-SUIT DISCUSSIONS

41. Medtronic admits that Dr. Moskowitz contacted employees of Medtronic at various times, including in 2005 and 2016. Medtronic admits Dr. Moskowitz and employees of Medtronic exchanged emails and correspondence. Medtronic admits that it did not choose to license or acquire rights to Dr. Moskowitz's technology. Medtronic otherwise denies the allegations of this paragraph.

42. Medtronic admits that Dr. Moskowitz reached out to Frank Bono around 2005. Medtronic otherwise denies the allegations of this paragraph.

43. Medtronic admits that there are many patents related to spinal fusion and spinal implants. Medtronic is the assignee of many such patents, due to its innovative work in this field. Medtronic has also licensed other such patents. Medtronic otherwise denies the allegations of this paragraph.

44. Medtronic admits that Dr. Moskowitz contacted and exchanged emails with Newton Metcalf in the 2010–2011 time frame. Medtronic otherwise denies the allegations of this paragraph.

45. Medtronic admits that Dr. Moskowitz was in contact with Newton Metcalf in 2013. Medtronic otherwise denies the allegations of this paragraph.

46. Medtronic admits that Dr. Moskowitz's attorneys sent a letter addressed to Newton Metcalf in 2015, listing certain patents and indicating they "may be of interest to Medtronic." Medtronic otherwise denies the allegations of this paragraph.

47. Medtronic admits that Jason Piche acknowledged receipt of Dr. Moskowitz's 2015 letter. Medtronic otherwise denies the allegations of this paragraph.
48. Medtronic admits that there was correspondence with Dr. Moskowitz in 2015. Medtronic otherwise denies the allegations of this paragraph.
49. Medtronic admits that Mr. Piche sent an email in January 2016, noting that "Medtronic does not wish to pursue acquisition or license of the noted portfolio at this time." Medtronic otherwise denies the allegations of this paragraph.
50. Medtronic denies the allegations of this paragraph.
51. Medtronic admits that it employs intellectual property counsel. Medtronic otherwise denies the allegations of this paragraph.
52. Responding to Paragraph 51, Medtronic admits that it receives a variety of industry publications. Medtronic further admits that it has, at times, received SpineMarket's publications. This paragraph also includes legal conclusions to which no response is required. To the extent a response to those allegations is required, Medtronic denies them. Medtronic otherwise denies the allegations of this paragraph.
53. This paragraph includes legal conclusions to which no response is required. To the extent a response to those allegations is required, Medtronic denies them. Medtronic denies the remaining allegations of this paragraph.
54. Medtronic admits that Mr. Piche sent an email in January 2016, noting that "Medtronic does not wish to pursue acquisition or license of the noted portfolio at this time." Medtronic otherwise denies the allegations of this paragraph.

55. Medtronic admits that Medtronic has applied for and been granted tens of thousands of patents and that among the references cited in Information Disclosure Statements and/or Notices of References Cited during prosecution are certain publications related to the Asserted Patents. This paragraph also includes legal conclusions to which no response is required. To the extent a response to those allegations is required, Medtronic denies them. Medtronic otherwise denies the allegations of this paragraph.

56. Medtronic denies the allegations of this paragraph.

57. Medtronic admits that it has not signed a license agreement with Dr. Moskowitz or Moskowitz Family LLC. This paragraph also includes legal conclusions to which no response is required. To the extent a response to those allegations is required, Medtronic denies them. Medtronic otherwise denies the allegations of this paragraph.

58. This paragraph includes legal conclusions to which no response is required. To the extent a response to those allegations is required, Medtronic denies them. Medtronic otherwise denies the allegations of this paragraph.

MEDTRONIC'S KNOWLEDGE AND WILLFULNESS

59. Medtronic repeats and incorporates by reference its answers to the foregoing paragraphs as if fully stated herein. This paragraph also includes legal conclusions to which no response is required. To the extent a response to those allegations is required, Medtronic denies them. Medtronic otherwise denies the allegations of this paragraph, including the accusations of actual knowledge, willful blindness, deliberate indifference, inaction, and willful infringement.

60. Medtronic admits that Medtronic has applied for and been granted tens of thousands of patents and that among the references cited in Information Disclosure Statements and/or Notices of References Cited during prosecution are certain publications related to the Asserted Patents. This paragraph also includes legal conclusions to which no response is required. To the extent a response to those allegations is required, Medtronic denies them. Medtronic otherwise denies the allegations of this paragraph.

61. This paragraph includes legal conclusions to which no response is required. To the extent a response to the allegations in this paragraph is required, Medtronic denies them.

COUNT I

62. Medtronic repeats and incorporates by reference its answers to the foregoing paragraphs as if fully stated herein.

63. Medtronic denies the allegations of this paragraph.

64. Medtronic denies the allegations of this paragraph.

65. Medtronic denies the allegations of this paragraph.

66. Medtronic denies the allegations of this paragraph.

67. Medtronic admits that it provides information and technical support to third parties. Medtronic otherwise denies the allegations of this paragraph.

68. Medtronic denies the allegations of this paragraph.

69. Medtronic denies the allegations of this paragraph.

70. Medtronic denies the allegations of this paragraph.

71. Medtronic admits that Dr. Moskowitz sent Mr. Metcalf PowerPoint presentations and email correspondence. Medtronic admits that Dr. Moskowitz's legal counsel sent a letter to Mr. Metcalf in 2015. Medtronic otherwise denies the allegations of this paragraph.

72. Medtronic admits that the publication of the '293 patent application (U.S. Pat. Pub. No. 2011/0295371) was cited by the Examiner in September 2015 during the prosecution of a Warsaw Orthopedic, Inc. patent that issued as U.S. Patent No. 9,918,848 and relates to spinal implant systems. Medtronic otherwise denies the allegations of this paragraph.

73. Medtronic denies the allegations of this paragraph.

74. Medtronic admits that Dr. Moskowitz's legal counsel sent a letter to Mr. Metcalf in 2015. Medtronic admits that Dr. Moskowitz was in contact with employees of Defendants at various times. Medtronic otherwise denies the allegations of this paragraph.

75. Medtronic admits that the publication of the '293 patent application (U.S. Pat. Pub. No. 2011/0295371) was cited by the Examiner in September 2015 during the prosecution of a Warsaw Orthopedic, Inc. patent that issued as U.S. Patent No. 9,918,848 and is titled Spinal Implant System and Method. Medtronic otherwise denies the allegations of this paragraph.

76. Medtronic denies the allegations of this paragraph.

77. Medtronic denies the allegations of this paragraph.

78. Medtronic denies the allegations of this paragraph.

79. Medtronic denies the allegations of this paragraph.

80. Medtronic denies the allegations of this paragraph.

81. Medtronic denies the allegations of this paragraph.

82. Medtronic denies the allegations of this paragraph.

COUNT II

83. Medtronic repeats and incorporates by reference its answers to the foregoing paragraphs as if fully stated herein.

84. Medtronic denies the allegations of this paragraph.

85. Medtronic denies the allegations of this paragraph.

86. Medtronic denies the allegations of this paragraph.

87. Medtronic denies the allegations of this paragraph.

88. Medtronic admits that it provides information and technical support to third parties. Medtronic otherwise denies the allegations of this paragraph.

89. Medtronic denies the allegations of this paragraph.

90. Medtronic admits that Dr. Moskowitz's legal counsel sent a letter to Mr. Metcalf in 2015. Medtronic otherwise denies the allegations of this paragraph.

91. Medtronic admits that U.S. Pat. Pub. No. 2011/0295371 was cited by the Examiner in September 2015 during the prosecution of a Warsaw Orthopedic, Inc. patent that issued as U.S. Patent No. 9,918,848. Medtronic otherwise denies the allegations of this paragraph.

92. Medtronic denies the allegations of this paragraph.

93. Medtronic denies the allegations of this paragraph.

94. Medtronic admits that Dr. Moskowitz's legal counsel sent a letter to Mr. Metcalf in 2015. Medtronic otherwise denies the allegations of this paragraph.

95. Medtronic admits that U.S. Pat. Pub. No. 2011/0295371 was cited by the Examiner in September 2015 during the prosecution of a Warsaw Orthopedic, Inc. patent that issued as U.S. Patent No. 9,918,848. Medtronic admits that the Patent Examiner identified U.S. Pat. Pub. No. 2008/0033440 as one of six references in a Notice of References Cited attached to the Examiner's Notice of Allowance during prosecution of a Warsaw Orthopedic, Inc. patent that issued as U.S. Patent No. 9,283,089. Medtronic otherwise denies the allegations of this paragraph.

96. Medtronic denies the allegations of this paragraph.

97. Medtronic admits that Dr. Moskowitz's legal counsel sent a letter to Mr. Metcalf in 2015. Medtronic admits that Dr. Moskowitz was in contact with employees of Medtronic at various times. Medtronic otherwise denies the allegations of this paragraph.

98. Medtronic admits that U.S. Pat. Pub. No. 2011/0295371 was cited by the Examiner in September 2015 during the prosecution of a Warsaw Orthopedic, Inc. patent that issued as U.S. Patent No. 9,918,848. Medtronic also admits that the Patent Examiner identified U.S. Pat. Pub. No. 2008/0033440 as one of six references in a Notice of References Cited attached to the Examiner's Notice of Allowance during prosecution of a Warsaw Orthopedic, Inc. patent that issued as U.S. Patent No. 9,283,089. Medtronic otherwise denies the allegations of this paragraph.

99. Medtronic denies the allegations of this paragraph.

100. Medtronic denies the allegations of this paragraph.

- 101. Medtronic denies the allegations of this paragraph.
- 102. Medtronic denies the allegations of this paragraph.
- 103. Medtronic denies the allegations of this paragraph.
- 104. Medtronic denies the allegations of this paragraph.
- 105. Medtronic denies the allegations of this paragraph.
- 106. Medtronic denies the allegations of this paragraph.
- 107. Medtronic denies the allegations of this paragraph.
- 108. Medtronic denies the allegations of this paragraph.
- 109. Medtronic denies the allegations of this paragraph.

COUNT III

110. Medtronic repeats and incorporates by reference its answers to the foregoing paragraphs as if fully stated herein.

- 111. Medtronic denies the allegations of this paragraph.
- 112. Medtronic denies the allegations of this paragraph.
- 113. Medtronic denies the allegations of this paragraph.
- 114. Medtronic denies the allegations of this paragraph.
- 115. Medtronic admits that it provides information and technical support to third parties. Medtronic otherwise denies the allegations of this paragraph.
- 116. Medtronic denies the allegations of this paragraph.
- 117. Medtronic denies the allegations of this paragraph.
- 118. Medtronic admits that the Examiner cited U.S. Patent Pub. Nos.

2014/0249629, 2013/0018470, 2008/0117307, 2012/0330419, and 2013/002992 during

the prosecution of a Warsaw Orthopedic, Inc. patent that issued as U.S. Patent No.

9,364,341. Medtronic otherwise denies the allegations of this paragraph.

119. Medtronic denies the allegations of this paragraph.

120. Medtronic denies the allegations of this paragraph.

121. Medtronic admits that Dr. Moskowitz's legal counsel sent a letter to Mr. Metcalf in 2015. Medtronic admits that Dr. Moskowitz was in contact with employees of Medtronic at various times. Medtronic otherwise denies the allegations of this paragraph.

122. Medtronic admits that the Examiner cited U.S. Patent Pub. Nos. 2014/0249629, 2013/0018470, 2008/0117307, 2012/0330419, and 2013/002992 during the prosecution of a Warsaw Orthopedic, Inc. patent that issued as U.S. Patent No.

9,364,341. Medtronic otherwise denies the allegations of this paragraph.

123. Medtronic denies the allegations of this paragraph.

124. Medtronic denies the allegations of this paragraph.

125. Medtronic denies the allegations of this paragraph.

126. Medtronic denies the allegations of this paragraph.

127. Medtronic denies the allegations of this paragraph.

128. Medtronic denies the allegations of this paragraph.

129. Medtronic denies the allegations of this paragraph.

COUNT IV

130. Medtronic repeats and incorporates by reference its answers to the foregoing paragraphs as if fully stated herein.

131. Medtronic denies the allegations of this paragraph.

132. Medtronic denies the allegations of this paragraph.
133. Medtronic denies the allegations of this paragraph.
134. Medtronic denies the allegations of this paragraph.
135. Medtronic admits that it provides information and technical support to third parties. Medtronic otherwise denies the allegations of this paragraph.
136. Medtronic denies the allegations of this paragraph.
137. Medtronic denies the allegations of this paragraph.
138. Medtronic admits that the Examiner cited U.S. Patent Pub. Nos. 2014/0249629, 2013/0018470, 2008/0117307, 2012/0330419, and 2013/002992 during the prosecution of a Warsaw Orthopedic, Inc. patent that issued as U.S. Patent No. 9,364,341. Medtronic otherwise denies the allegations of this paragraph.
139. Medtronic denies the allegations of this paragraph.
140. Medtronic denies the allegations of this paragraph.
141. Medtronic admits that Dr. Moskowitz's legal counsel sent a letter to Mr. Metcalf in 2015. Medtronic admits that Dr. Moskowitz was in contact with employees of Medtronic at various times. Medtronic otherwise denies the allegations of this paragraph.
142. Medtronic admits that the Examiner cited U.S. Patent Pub. Nos. 2014/0249629, 2013/0018470, 2008/0117307, 2012/0330419, and 2013/002992 during the prosecution of a Warsaw Orthopedic, Inc. patent that issued as U.S. Patent No. 9,364,341. Medtronic otherwise denies the allegations of this paragraph.
143. Medtronic denies the allegations of this paragraph.
144. Medtronic denies the allegations of this paragraph.

145. Medtronic denies the allegations of this paragraph.

146. Medtronic denies the allegations of this paragraph.

147. Medtronic denies the allegations of this paragraph.

148. Medtronic denies the allegations of this paragraph.

149. Medtronic denies the allegations of this paragraph.

150. Medtronic denies the allegations of this paragraph.

151. Medtronic denies the allegations of this paragraph.

152. Medtronic denies the allegations of this paragraph.

COUNT V

153. Medtronic repeats and incorporates by reference its answers to the foregoing paragraphs as if fully stated herein.

154. Medtronic denies the allegations of this paragraph.

155. Medtronic denies the allegations of this paragraph.

156. Medtronic denies the allegations of this paragraph.

157. Medtronic denies the allegations of this paragraph.

158. Medtronic admits that it provides information and technical support to third parties. Medtronic otherwise denies the allegations of this paragraph.

159. Medtronic denies the allegations of this paragraph.

160. Medtronic denies the allegations of this paragraph.

161. Medtronic admits that the Examiner cited U.S. Patent Pub. Nos. 2014/0249629, 2013/0018470, 2008/0117307, 2012/0330419, and 2013/002992 during

the prosecution of a Warsaw Orthopedic, Inc. patent that issued as U.S. Patent No.

9,364,341. Medtronic otherwise denies the allegations of this paragraph.

162. Medtronic denies the allegations of this paragraph.

163. Medtronic denies the allegations of this paragraph.

164. Medtronic admits that Dr. Moskowitz's legal counsel sent a letter to Mr. Metcalf in 2015. Medtronic admits that Dr. Moskowitz was in contact with employees of Medtronic at various times. Medtronic otherwise denies the allegations of this paragraph.

165. Medtronic admits that the Examiner cited U.S. Patent Pub. Nos. 2014/0249629, 2013/0018470, 2008/0117307, 2012/0330419, and 2013/002992 during the prosecution of a Warsaw Orthopedic, Inc. patent that issued as U.S. Patent No.

9,364,341. Medtronic otherwise denies the allegations of this paragraph.

166. Medtronic denies the allegations of this paragraph.

167. Medtronic denies the allegations of this paragraph.

168. Medtronic denies the allegations of this paragraph.

287. Medtronic denies the allegations of this paragraph.

288. Medtronic denies the allegations of this paragraph.

289. Medtronic admits that it provides information and technical support to third parties. Medtronic otherwise denies the allegations of this paragraph.

290. Medtronic denies the allegations of this paragraph.

291. Medtronic admits that U.S. Pat. Pub. No. 2006/0241621 was cited by Patent Examiners in the prosecution of Warsaw Orthopedic Inc.'s patents that issued as U.S. Patent Nos. 7,981,157, 8,795,368, and 7,708,779. Medtronic otherwise denies the allegations of this paragraph.

292. Medtronic denies the allegations of this paragraph.

293. Medtronic denies the allegations of this paragraph.

294. Medtronic admits that Dr. Moskowitz's legal counsel sent a letter to Mr. Metcalf in 2015. Medtronic admits that Dr. Moskowitz was in contact with employees of Medtronic at various times. Medtronic otherwise denies the allegations of this paragraph.

295. Medtronic denies the allegations of this paragraph.

296. Medtronic denies the allegations of this paragraph.

297. Medtronic denies the allegations of this paragraph.

298. Medtronic denies the allegations of this paragraph.

299. Medtronic denies the allegations of this paragraph.

300. Medtronic denies the allegations of this paragraph.

301. Medtronic denies the allegations of this paragraph.

302. Medtronic denies the allegations of this paragraph.

COUNT XII

303. Medtronic repeats and incorporates by reference its answers to the foregoing paragraphs as if fully stated herein.

304. Medtronic denies the allegations of this paragraph.

305. Medtronic denies the allegations of this paragraph.

306. Medtronic denies the allegations of this paragraph.

307. Medtronic denies the allegations of this paragraph.

308. Medtronic admits that it provides information and technical support to third parties. Medtronic otherwise denies the allegations of this paragraph.

309. Medtronic denies the allegations of this paragraph.

310. Medtronic admits that Plaintiff's counsel sent an email to Medtronic's counsel on January 5, 2026 alleging "Medtronic's Catalyft and Elevate products infringe[]" the '088 patent. Medtronic otherwise denies the allegations of this paragraph.

311. Medtronic admits that U.S. Patent No. 9,364,341 indicates that, during prosecution of that patent, the Examiner cited U.S. Pat. Pub. No. 2014/0249629 A1, along with four other published Moskowitz applications. Medtronic otherwise denies the allegations of this paragraph.

312. Medtronic denies the allegations of this paragraph.

313. Medtronic denies the allegations of this paragraph.

314. Medtronic admits that Dr. Moskowitz's legal counsel sent a letter to Mr. Metcalf in 2015. Medtronic admits that Dr. Moskowitz was in contact with employees of Medtronic at various times. Medtronic otherwise denies the allegations of this paragraph.

315. Medtronic denies the allegations of this paragraph.

316. Medtronic denies the allegations of this paragraph.

317. Medtronic denies the allegations of this paragraph.

318. Medtronic denies the allegations of this paragraph.

319. Medtronic denies the allegations of this paragraph.

320. Medtronic denies the allegations of this paragraph.

321. Medtronic denies the allegations of this paragraph.

322. Medtronic denies the allegations of this paragraph.

MEDTRONIC'S CONTINUED INFRINGEMENT AND POST-SUIT CONDUCT

323. Medtronic denies the allegations of this paragraph.

JURY DEMAND

324. This paragraph sets forth Plaintiff's Request for a jury trial to which no response is required.

PRAYER FOR RELIEF

325. These paragraphs set forth the statement of relief requested by Plaintiff, to which no response is required. Defendants deny that Plaintiff is entitled to any relief and specifically deny all of the allegations and prayers for relief in paragraphs A through H of Plaintiff's prayer for relief.

DENIAL OF ANY REMAINING ALLEGATIONS

326. Except as specifically admitted herein, Medtronic denies all remaining allegations in the SAC, including any assertions made in Exhibits attached to the SAC.

AFFIRMATIVE DEFENSES

327. In addition to the affirmative defenses described below, subject to its responses above, Medtronic specifically reserves all rights to allege additional affirmative defenses that become known through the course of discovery. Medtronic undertakes the burden of proof only as to those defenses deemed affirmative defenses by law, regardless

of how such defenses are denominated herein. Medtronic further incorporates by reference the statements, admissions, and denials contained in its Answer.

FIRST AFFIRMATIVE DEFENSE

(Failure to State a Claim)

328. Plaintiff's Second Amended Complaint and the allegations therein fail to state a claim upon which relief may be granted.

SECOND AFFIRMATIVE DEFENSE

(No Infringement)

329. Medtronic did not infringe any valid and enforceable claim of the Asserted Patents, literally or under the doctrine of equivalents.

THIRD AFFIRMATIVE DEFENSE

(Invalidity)

330. One or more claims of the Asserted Patents are invalid for failure to comply with one or more of the conditions of patentability set forth in Title 35 of the United States Code including, but not limited to, Sections 101, 102, 103, and/or 112, and/or additionally for violation of the rule against obviousness-type double patenting.

FOURTH AFFIRMATIVE DEFENSE

(28 U.S.C. § 1498)

331. On information and belief, Plaintiff's claims are barred, in whole or in part, by 28 U.S.C. § 1498.

FIFTH AFFIRMATIVE DEFENSE

(Prosecution History Estoppel)

332. One or more claims of the Asserted Patents are and were limited by amendment, by the prior art, and/or by the statements made during their prosecution before the United States Patent and Trademark Office such that Plaintiff is now estopped and/or otherwise precluded from maintaining that such claims of the Asserted Patents are of sufficient scope to cover the products accused of infringement in this case either literally or under the doctrine of equivalents.

SIXTH AFFIRMATIVE DEFENSE

(Prosecution Laches)

333. Plaintiff's claims are barred in whole or in part because Plaintiff unreasonably delayed the prosecution of one or more of the Asserted Patents, that delay was unreasonable and inexcusable under the totality of the circumstances, and it caused prejudice to Medtronic.

334. To obtain the asserted patents, Plaintiff filed dozens of patent applications directed to narrow alleged advancements in the field, and then maintained open applications while Medtronic continued to develop, design, and launch innovative products that are markedly different from the asserted patents. Now, after more than a decade of significant investment, work, and use of the technology at issue by Medtronic, Moskowitz asserts its patent rights.

335. The applications leading to the asserted patents were filed in 2011 for the '293 and '674 patents, 2017 for the '284, '738, and '505 patents, 2018 for the '633 and

'183 patents, 2019 for the '797 patent, 2020 for the '136 patent, 2021 for the '755 and '367 patents, and 2024 for the '088 patent. However, each asserted patent ostensibly claims priority to applications filed many years earlier. For example, on its face, the '293 patent appears to claim priority to applications filed in 2007, 2006, and 2005. As such, applications leading to the '293 patent were filed approximately two decades before Moskowitz brought this suit. Similarly, the '674, '284, '738, '505, '633, '183, '797, '136, '755, and '367 patents ostensibly claim priority to applications going back to 2005. The '088 patent ostensibly claims priority to an application filed in 2012.

336. Further, Moskowitz strung along prosecution of the asserted patents by repeatedly filing continuation and divisional applications. A brief review of the face of the asserted patents reveals how the patentee dragged out prosecution. The sheer number of intervening applications reflects intentional and unreasonable delay on the part of the patentees, and amply supports application of prosecution laches.

337. On information and belief, Moskowitz knew about Medtronic's use of and investment in the technology at issue during the prosecution delay, and intentionally added claims in its patent applications intended to cover (but that do not cover) Medtronic's products.

SEVENTH AFFIRMATIVE DEFENSE

(Notice, Damages, and Costs)

338. Plaintiff's claims for damages are statutorily limited under 35 U.S.C. §§ 286. Plaintiff is barred from recovering costs in connection with this action under 35 U.S.C. § 288.

EIGHTH AFFIRMATIVE DEFENSE

(Equitable Estoppel, Waiver, Inequitable Conduct and Unclean Hands)

339. Plaintiff's claims for relief are barred in whole or in part by the equitable doctrines of estoppel, waiver, inequitable conduct, and/or unclean hands.

340. The '293 patent is unenforceable, in whole or in part, by virtue of inequitable conduct and the unclean hands of the named inventors, the patent prosecutors, and/or others involved in the prosecution of the '293 patent. One or more persons involved in the prosecution of the application that issued as the '293 patent (U.S. Patent Application No. 13/108,982, "'293 patent application") including, upon information and belief, Moskowitz's patent prosecution counsel for the '293 patent John Jeremy Dresch, first named inventor Dr. Nathan Moskowitz, and/or others involved in the prosecution of the '293 patent, committed inequitable conduct by deliberately withholding known material information including U.S. Patent No. 7,077,864 to Byrd ("Byrd"), U.S. Patent Application Publication No. 2010/0305704 to Messerli ("Messerli"), and U.S. Patent Application Publication No. 2008/0249569 to Waugh ("Waugh") from the United States Patent and Trademark Office ("USPTO") during prosecution of the '293 patent. As the inventors and the attorney prosecuting the '293 patent, the named inventors and Mr. Dresch had a duty to disclose information material to patentability under 37 CFR 1.56(c).

341. On information and belief, Mr. Dresch has known about Messerli since at least April 2012, when he cited it in an Information Disclosure Statement ("IDS") in related U.S. Patent Application No. 13/084,543. Mr. Dresch also cited Messerli in related applications U.S. Patent Application Nos. 13/741,361 and 13/418,335 in 2014.

On information and belief, Dr. Moskowitz and/or others involved in prosecution of the '293 patent application have also known about Messerli since at least 2012.

342. Between April 2012 and August 2024, Moskowitz's prosecution counsel selectively disclosed Messerli to the USPTO in at least twelve (12) different IDSs in select Moskowitz patent applications, including in the following U.S. patent applications:

- 13/084,543 (IDS dated 4/18/2012);
- 13/741,361 (IDS dated 8/28/2014);
- 13/418,335 (IDS dated 8/29/2014);
- 13/418,323 (IDS dated 2/12/2015);
- 14/063,197 (IDS dated 10/07/2015);
- 15/896,130 (IDS dated 3/14/2018);
- 15/944,117 (IDS dated 5/31/2018);
- 16/362,294 (IDS dated 3/22/2019);
- 16/587,993 (IDS dated 9/30/2019);
- 17/706,873 (IDS dated 4/4/2022);
- 18/444,119 (IDS dated 5/1/2024);
- 18/663,585 (IDS dated 8/5/2024).

343. On information and belief, Mr. Dresch has known about Byrd since at least May 2012 when he submitted it in an Information Disclosure Statement in related U.S. Patent Application No. 13/084,543. Mr. Dresch also submitted Byrd in Information Disclosure Statements in related U.S. Patent Application Nos. 13/418,335 and

14/063,197 in August 2014. On information and belief, Dr. Moskowitz and/or others involved in prosecution of the '293 patent application have also known about Byrd since at least 2012.

344. Between May 2012 and August 5, 2024, Moskowitz's prosecution counsel selectively disclosed Byrd to the USPTO in at least eighteen (18) different IDSs in select Moskowitz patent applications, including in the following U.S. patent applications:

- 13/084,543 (IDS dated May 4, 2012);
- 13/418,335 (IDSs dated August 29, 2014, and May 26, 2015);
- 14/063,197 (IDSs dated August 28, 2014, and September 8, 2015);
- 13/108,982 (IDS dated March 9, 2015);
- 13/210,162 (IDSs dated August 28, 2014, and August 10, 2015);
- 13/210,157 (IDSs dated August 28, 2014, and August 10, 2015);
- 13/210,150 (IDSs dated August 28, 2014, and July 21, 2015);
- 13/741,361 (IDSs dated August 28, 2014, and April 1, 2015);
- 17/408,068 (IDS dated February 15, 2022);
- 17/706,873 (IDS dated April 4, 2022);
- 17/181,706 (IDS dated April 1, 2021);
- 18/663,585 (IDS dated August 5, 2024).

345. On information and belief, Mr. Dresch has known about Waugh since at least September 2013, when the USPTO rejected various pending claims of related U.S. Patent Application No. 13/418,335 as anticipated by Waugh. Waugh was also cited by

Mr. Dresch in an Information Disclosure Statement in related U.S. Patent Application No. 13/401,829 in June 2014. On information and belief, Dr. Moskowitz and/or others involved in the prosecution of the '293 patent have also known about Waugh since at least September 2013.

346. Between June 2014 and August 2024, Moskowitz's prosecution counsel selectively disclosed Waugh in at least nineteen (19) other IDSs in select Moskowitz patent applications, including in the following U.S. patent applications:

- 13/210,157 (IDS dated Aug. 10, 2015);
- 13/210,162 (IDS dated Aug. 10, 2015);
- 13/210,168 (IDS dated Nov. 20, 2017);
- 13/401,829 (IDSs dated June 13, 2014, and April 1, 2015);
- 13/418,323 (IDS dated April 1, 2015);
- 13/741,361 (IDS dated April 1, 2015);
- 14/063,197 (IDS dated September 8, 2015);
- 15/678,401 (IDS dated September 20, 2017);
- 15/894,471 (IDS dated May 9, 2018);
- 15/944,117 (IDS dated May 31, 2018);
- 15/976,340 (IDS dated May 31, 2018);
- 16/025,667 (IDS dated July 20, 2018);
- 16/532,033 (IDS dated August 5, 2019);
- 16/587,993 (IDS dated Sep. 30, 2019);

- 17/408,068 (IDS dated Feb. 15, 2022);
- 17/492,996 (IDS dated Jan. 5, 2022);
- 18/444,119 (IDS dated May 1, 2024);
- 18/663,585 (IDS dated Aug. 5, 2024).

347. Mr. Dresch filed the '293 patent application on Plaintiff's behalf on May 16, 2011. On August 19, 2014, Mr. Dresch submitted an Information Disclosure Statement in the '293 patent application ("August 2014 IDS").

348. Even though (as discussed above) Mr. Dresch had cited Messerli and Waugh on Information Disclosure Statements in related Moskowitz applications in 2012 and 2013, Mr. Dresch did not include Messerli and Waugh in the August 2014 IDS. Even though (as discussed above) Mr. Dresch cited Byrd in related applications on Information Disclosure Statements filed the same month as the August 2014 IDS, he did not include Byrd in the August 2014 IDS.

349. On information and belief, Mr. Dresch, Dr. Moskowitz, and/or others associated with the '293 patent application prosecution elected not to disclose Byrd, Messerli, and/or Waugh to the USPTO in the August 2014 IDS.

350. On information and belief, Mr. Dresch, Dr. Moskowitz, and/or others associated with the '293 patent application prosecution were aware that disclosing Byrd, Messerli, and/or Waugh to the USPTO in the August 2014 IDS would lead the examiner to ultimately not allow the '293 patent claims to issue.

351. On information and belief, to prevent non-issuance of the '293 patent, Mr. Dresch, Dr. Moskowitz, and/or others associated with the '293 patent application prosecution did not disclose Byrd, Messerli, and/or Waugh in the August 2014 IDS.

352. On information and belief, Mr. Dresch, Dr. Moskowitz, and/or others associated with the '293 patent application prosecution intended to deceive the USPTO by not disclosing Byrd, Waugh, and Messerli in the August 2014 IDS.

353. On October 16, 2014, the USPTO issued a final rejection of the '293 patent application. Plaintiff then sought an interview with the USPTO Examiner, which occurred on December 11, 2014, according to USPTO records. On information and belief, Mr. Dresch and named inventor Ahmnon Moskowitz attended the interview with the USPTO. According to the USPTO's interview summary, the attendees discussed amending the claims of the '293 patent application to overcome the prior art of record by requiring, among other features, "the guide is only or completely formed in the top surface of the top wall[.]"

354. On January 16, 2015, Moskowitz filed an Amendment ("January 2015 Amendment") which amended independent claim 133 (which ultimately issued as claim 43) as follows:

an internal screw trajectory guide for guiding a trajectory of a screw through the intervertebral cage, the internal screw trajectory guide having an internal bore with an entry opening and an exit opening, the internal bore of the entry opening formed only at least partially in the top surface of the top wall, and the internal bore of the exit opening formed at least partially in a bottom surface of the top wall and at least partially in a side surface of the top wall.

355. Similar amendments requiring an internal screw trajectory guide having an internal bore with an entry opening formed *only* in the top surface of the top wall were made to the other independent claims.

356. In the “Remarks” section of the January 2015 Amendment, Plaintiff argued that the prior art references of record do not disclose or suggest the as-amended claims “particularly” because “the entry opening of the internal bore of the screw hole is formed partially in the top surface and *partially* in the side surface of the top wall of the cage” (emphasis added). In other words, the entry opening of the internal bore is not formed *only* in the top surface of the top wall.

357. On February 20, 2015, in response to the January 2015 Amendment, the USPTO allowed the ’293 patent application. Each allowed independent claim recited “the entry opening of the internal bore formed only in a top surface of the top wall” (claims 1, 42, 44) or “the internal bore of the entry opening formed only in the top surface of the top wall” (claim 43).

358. After the claims were allowed, on March 9, 2015, Moskowitz submitted an Information Disclosure Statement with eighty (80) previously undisclosed references on it (“March 2015 IDS”). Buried amongst them were Byrd, Messerli, and Waugh. In a transmittal letter accompanying the March 2015 Information Disclosure Statement, Mr. Dresch said the March 2015 IDS “list[ed] references of record in” certain “co-pending related or child application serial numbers, which are not believed to add to the art of record” in the ’293 patent application.

359. The representation that the references in the March 2015 IDS did not add to the art of record was not true for Messerli, Byrd, or Waugh. Notably, the USPTO considered Messerli during prosecution of the '674 patent and stated that Messerli discloses “the use of a vertebral implant wherein ... the entry opening of the internal bore is formed only in the top surface of the top wall[.]” And, during prosecution of related U.S. Patent No. 11,903,849, the USPTO stated that Waugh has an “entry opening” of the “internal bore” that is formed “only in the top surface of the top wall”.

360. On March 16, 2015, the USPTO issued a Notice of Non-Compliant Information Disclosure Statement, informing Plaintiff that the March 2015 IDS had not been considered because it lacked a statement as specified in 37 CFR 1.97(e). According to the Manual for Patent Examining procedure, such a statement and the associated fee set forth in 37 CFR 1.17(p):

are appropriate in view of the late stage of prosecution when the information is being submitted, i.e., after the examiner has reached a final determination on the patentability of the claims presented for examination. Payment of the fee (37 CFR 1.17(p)) and submission of the appropriate statement (37 CFR 1.97(e)) are the essential elements for having information considered at this advanced stage of prosecution, assuming the content requirements of 37 CFR 1.98 are satisfied.

MPEP 609.04(b). If an applicant cannot comply with these requirements, “the applicant may file a [Request for Continued Examination] under 37 CFR 1.114, or a continuing application under 37 CFR 1.53(b) ... to have the information considered by the examiner.” *Id.*

361. A statement under 37 CFR 1.97(e) must state either:

(1) That each item of information contained in the information disclosure statement was first cited in any communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of the information disclosure statement; or

(2) That no item of information contained in the information disclosure statement was cited in a communication from a foreign patent office in a counterpart foreign application, and, to the knowledge of the person signing the certification after making reasonable inquiry, no item of information contained in the information disclosure statement was known to any individual designated in § 1.56(c) more than three months prior to the filing of the information disclosure statement.

362. On information and belief, Mr. Dresch did not make a statement under 37 CFR 1.97(e) in the '293 patent application because he could not—he, Dr. Moskowitz, and/or others involved in prosecution of the '293 patent had known about Byrd, Messerli, and Waugh for years when the March 2015 IDS was filed.

363. Plaintiff did not correct the non-compliance of the March 2015 IDS. Nor did Plaintiff file an Request for Continued Examination to have the information in the March 2015 IDS considered. As a result, the '293 patent issued on March 25, 2016, without the USPTO considering Byrd, Messerli, or Waugh.

364. On information and belief, Mr. Dresch, Dr. Moskowitz, and/or others associated with the '293 patent application prosecution elected to file the March 2015 IDS in a non-compliant way.

365. On information and belief, Mr. Dresch, Dr. Moskowitz, and/or others associated with the '293 patent application prosecution elected not to amend or resubmit the March 2015 IDS.

366. On information and belief, Mr. Dresch, Dr. Moskowitz, and/or others associated with the '293 patent application knew that failing to address the non-compliance would lead to the USPTO not considering Byrd, Messerli, and/or Waugh, as well as other material references cited therein.

367. On information and belief, Mr. Dresch, Dr. Moskowitz, and/or others associated with the '293 patent application prosecution were aware that the USPTO's consideration of Byrd, Messerli, and/or Waugh would lead the examiner to not allow the '293 patent claims to issue.

368. On information and belief, to prevent non-issuance of the '293 patent, Mr. Dresch, Dr. Moskowitz, and/or others associated with the '293 patent application prosecution filed the March 2015 IDS in a non-compliant way and/or failed to remedy the non-compliance.

369. On information and belief, Mr. Dresch, Dr. Moskowitz, and/or others associated with the '293 patent application prosecution intended to deceive the USPTO by not disclosing Byrd, Waugh, and Messerli by filing the March 2015 IDS in a non-compliant way and/or failing to remedy the non-compliance.

370. On information and belief, Mr. Dresch and/or others associated with prosecution of the '293 patent knew that the statement in the March 2015 IDS transmittal letter that the references contained therein "are not believed to add to the art of record" (the "Statement") was false.

371. On information and belief, Mr. Dresch and/or others associated with prosecution of the '293 patent knew that making the Statement would prevent the

USPTO from considering Byrd, Messerli, and/or Waugh, as well as other material references cited therein and made the Statement with intent to deceive the USPTO.

372. Each of Byrd, Messerli, and Waugh were but-for material to the patentability of the '293 patent. The USPTO allowed the '293 patent only after Moskowitz amended the independent claims to recite *inter alia* an “entry opening of the internal bore formed only in a top surface of the top wall feature” and argued that the prior art of record did not teach this claim limitation. But this feature was disclosed in Byrd, Messerli, and Waugh, and the USPTO itself concluded this for Messerli and Waugh in related patent applications. *See also, e.g., Medtronic, Inc. v. Moskowitz Family LLC*, IPR2025-01598, Paper 1 (P.T.A.B. Sept. 29, 2025).

373. On information and belief, the failure of Moskowitz’s patent prosecution counsel and/or other individuals associated with prosecution to disclose information material to patentability with intent to deceive the USPTO—including but not limited to Byrd, Messerli, and/or Waugh—was not limited to the '293 patent, but part of a pattern of misconduct relevant to the remaining Asserted Patents, all of which are related to the '293 patent. For example, Waugh and Byrd were likewise not disclosed to the USPTO during prosecution of the '738 and '183 patents.

374. Moreover, Plaintiff and its patent prosecution counsel have filed dozens of similar patent applications with the USPTO. Plaintiff has filed at least eighty (80) patent applications claiming priority, at least in part, to the same priority applications as the '293 patent. On information and belief, within this web of related applications is a troubling pattern of selectively withholding key prior art or disclosing that key prior art in a non-

compliant way that would shield it from consideration, while simultaneously telling the USPTO such prior art does not exist, such that any inequitable conduct with respect to one or more of the Asserted Patents infectiously renders the claims of all Asserted Patents unenforceable because all of the Asserted Patents are directly or indirectly related to each other through one or more continuations or continuations-in-part, the claims of the Asserted Patents are directed to the same type of systems, namely spinal implant systems, and any inequitable conduct as to any one of the Asserted Patents was immediately and necessarily related to the claims of the other Asserted Patents.

RESERVATION OF AFFIRMATIVE DEFENSES

375. Medtronic hereby reserves the right to supplement its affirmative defenses as discovery proceeds in this case.

COUNTERCLAIMS

Pursuant to Rule 13 of the Federal Rule of Civil Procedure, Defendants Medtronic, Inc.; Medtronic Sofamor Danek, Inc.; Medtronic Sofamor Danek USA, Inc.; Warsaw Orthopedic, Inc.; and Titan Spine, Inc. (collectively, “Medtronic” or “Defendants”), allege as follows:

PARTIES

1. Medtronic Inc. is a Minnesota corporation with its principal place of business in Fridley, Minnesota.
2. Medtronic Sofamor Danek, Inc. is an Indiana corporation with a regular established place of business in Minneapolis, Minnesota.

3. Medtronic Sofamor Danek USA, Inc. is a Tennessee corporation with a regular established place of business in Minneapolis, Minnesota.

4. Warsaw Orthopedic, Inc. is an Indiana corporation with a regular established place of business in Minneapolis, Minnesota.

5. Titan Spine, Inc. is a Delaware corporation with a regular established place of business in Minneapolis, Minnesota.

6. On information and belief, Plaintiff and Counterclaim-Defendant Moskowitz Family LLC (“Moskowitz”) is a Maryland entity with its principal place of business in Rockville, Maryland.

JURISDICTION AND VENUE

7. This is an action for declaratory judgment of invalidity of U.S. Patent No. 9,005,293 (“the ’293 patent”), U.S. Patent No. 9,907,674 (“the ’674 patent”), U.S. Patent No. 10,016,284 (“the ’284 patent”), U.S. Patent No. 10,064,738 (“the ’738 patent”), U.S. Patent No. 10,238,505 (“the ’505 patent”), U.S. Patent No. 10,426,633 (“the ’633 patent”), U.S. Patent No. 10,603,183 (“the ’183 patent”), U.S. Patent No. 11,096,797 (“the ’797 patent”), U.S. Patent No. 11,376,136 (“the ’136 patent”), U.S. Patent No. 11,864,755 (“the ’755 patent”), U.S. Patent No. 12,011,367 (“the ’367 patent”), and U.S. Patent No. 12,491,088 (“the ’088 patent”) (collectively, the “Asserted Patents”) arising under the patent laws of the United States, 35 U.S.C. § 1 et seq., and the Declaratory Judgment Act, 28 U.S.C. §§ 2201-2202.

8. This Court has subject matter jurisdiction over Medtronic’s Counterclaims under 28 U.S.C. §§ 1331, 1338(a), 2201, and 2202.

9. Moskowitz has consented to personal jurisdiction and venue in this district by filing suit against Medtronic in this Court.

10. Based on Moskowitz's filing of its Second Amended Complaint, an actual, substantial, and continuing justiciable controversy exists between Medtronic and Moskowitz regarding the validity of the Asserted Patents.

COUNTERCLAIM I

DECLARATORY JUDGMENT OF INVALIDITY OF THE '293 PATENT

11. The allegations of Paragraphs 1-10 are re-alleged as if fully set forth herein.

12. Moskowitz has asserted the '293 patent against Medtronic.

13. One or more claims of the '293 patent is invalid for failure to satisfy one or more of the conditions of patentability set forth in Title 35 of the United States Code, including but not limited to being anticipated by one or more items of prior art, being obvious in view of the prior art, and failing to comply with written description, enablement, or definiteness requirements.

14. Medtronic is entitled to a declaratory judgment of invalidity of the '293 patent.

COUNTERCLAIM II

DECLARATORY JUDGMENT OF INVALIDITY OF THE '674 PATENT

15. The allegations of Paragraphs 1-10 are re-alleged as if fully set forth herein.

16. Moskowitz has asserted the '674 patent against Medtronic.

17. One or more claims of the '674 patent is invalid for failure to satisfy one or more of the conditions of patentability set forth in Title 35 of the United States Code, including but not limited to being anticipated by one or more items of prior art, being obvious in view of the prior art, and failing to comply with written description, enablement, or definiteness requirements.

18. Medtronic is entitled to a declaratory judgment of invalidity of the '674 patent.

COUNTERCLAIM III

DECLARATORY JUDGMENT OF INVALIDITY OF THE '284 PATENT

19. The allegations of Paragraphs 1-10 are re-alleged as if fully set forth herein.

20. Moskowitz has asserted the '284 patent against Medtronic.

21. One or more claims of the '284 patent is invalid for failure to satisfy one or more of the conditions of patentability set forth in Title 35 of the United States Code, including but not limited to being anticipated by one or more items of prior art, being obvious in view of the prior art, and failing to comply with written description, enablement, or definiteness requirements.

22. Medtronic is entitled to a declaratory judgment of invalidity of the '284 patent.

COUNTERCLAIM IV

DECLARATORY JUDGMENT OF INVALIDITY OF THE '738 PATENT

23. The allegations of Paragraphs 1-10 are re-alleged as if fully set forth herein.

24. Moskowitz has asserted the '738 patent against Medtronic.

25. One or more claims of the '738 patent is invalid for failure to satisfy one or more of the conditions of patentability set forth in Title 35 of the United States Code, including but not limited to being anticipated by one or more items of prior art, being obvious in view of the prior art, and failing to comply with written description, enablement, or definiteness requirements.

26. Medtronic is entitled to a declaratory judgment of invalidity of the '738 patent.

COUNTERCLAIM V

DECLARATORY JUDGMENT OF INVALIDITY OF THE '505 PATENT

27. The allegations of Paragraphs 1-10 are re-alleged as if fully set forth herein.

28. Moskowitz has asserted the '505 patent against Medtronic.

29. One or more claims of the '505 patent is invalid for failure to satisfy one or more of the conditions of patentability set forth in Title 35 of the United States Code, including but not limited to being anticipated by one or more items of prior art, being obvious in view of the prior art, and failing to comply with written description, enablement, or definiteness requirements.

30. Medtronic is entitled to a declaratory judgment of invalidity of the '505 patent.

COUNTERCLAIM VI

DECLARATORY JUDGMENT OF INVALIDITY OF THE '633 PATENT

31. The allegations of Paragraphs 1-10 are re-alleged as if fully set forth herein.

32. Moskowitz has asserted the '633 patent against Medtronic.

33. One or more claims of the '633 patent is invalid for failure to satisfy one or more of the conditions of patentability set forth in Title 35 of the United States Code, including but not limited to being anticipated by one or more items of prior art, being obvious in view of the prior art, and failing to comply with written description, enablement, or definiteness requirements.

34. Medtronic is entitled to a declaratory judgment of invalidity of the '633 patent.

COUNTERCLAIM VII

DECLARATORY JUDGMENT OF INVALIDITY OF THE '183 PATENT

35. The allegations of Paragraphs 1-10 are re-alleged as if fully set forth herein.

36. Moskowitz has asserted the '183 patent against Medtronic.

37. One or more claims of the '183 patent is invalid for failure to satisfy one or more of the conditions of patentability set forth in Title 35 of the United States Code, including but not limited to being anticipated by one or more items of prior art, being obvious in view of the prior art, and failing to comply with written description, enablement, or definiteness requirements.

38. Medtronic is entitled to a declaratory judgment of invalidity of the '183 patent.

COUNTERCLAIM VIII

DECLARATORY JUDGMENT OF INVALIDITY OF THE '797 PATENT

39. The allegations of Paragraphs 1-10 are re-alleged as if fully set forth herein.

40. Moskowitz has asserted the '797 patent against Medtronic.

41. One or more claims of the '797 patent is invalid for failure to satisfy one or more of the conditions of patentability set forth in Title 35 of the United States Code, including but not limited to being anticipated by one or more items of prior art, being obvious in view of the prior art, and failing to comply with written description, enablement, or definiteness requirements.

42. Medtronic is entitled to a declaratory judgment of invalidity of the '797 patent.

COUNTERCLAIM IX

DECLARATORY JUDGMENT OF INVALIDITY OF THE '136 PATENT

43. The allegations of Paragraphs 1-10 are re-alleged as if fully set forth herein.

44. Moskowitz has asserted the '136 patent against Medtronic.

45. One or more claims of the '136 patent is invalid for failure to satisfy one or more of the conditions of patentability set forth in Title 35 of the United States Code, including but not limited to being anticipated by one or more items of prior art, being obvious in view of the prior art, and failing to comply with written description, enablement, or definiteness requirements.

46. Medtronic is entitled to a declaratory judgment of invalidity of the '136 patent.

COUNTERCLAIM X

DECLARATORY JUDGMENT OF INVALIDITY OF THE '755 PATENT

47. The allegations of Paragraphs 1-10 are re-alleged as if fully set forth herein.

48. Moskowitz has asserted the '755 patent against Medtronic.

49. One or more claims of the '755 patent is invalid for failure to satisfy one or more of the conditions of patentability set forth in Title 35 of the United States Code, including but not limited to being anticipated by one or more items of prior art, being obvious in view of the prior art, and failing to comply with written description, enablement, or definiteness requirements.

50. Medtronic is entitled to a declaratory judgment of invalidity of the '755 patent.

COUNTERCLAIM XI

DECLARATORY JUDGMENT OF INVALIDITY OF THE '367 PATENT

51. The allegations of Paragraphs 1-10 are re-alleged as if fully set forth herein.

52. Moskowitz has asserted the '367 patent against Medtronic.

53. One or more claims of the '367 patent is invalid for failure to satisfy one or more of the conditions of patentability set forth in Title 35 of the United States Code, including but not limited to being anticipated by one or more items of prior art, being obvious in view of the prior art, and failing to comply with written description, enablement, or definiteness requirements.

54. Medtronic is entitled to a declaratory judgment of invalidity of the '367 patent.

COUNTERCLAIM XII

DECLARATORY JUDGMENT OF INVALIDITY OF THE '088 PATENT

55. The allegations of Paragraphs 1-10 are re-alleged as if fully set forth herein.

56. Moskowitz has asserted the '088 patent against Medtronic.

57. One or more claims of the '088 patent is invalid for failure to satisfy one or more of the conditions of patentability set forth in Title 35 of the United States Code, including but not limited to being anticipated by one or more items of prior art, being obvious in view of the prior art, and failing to comply with written description, enablement, or definiteness requirements.

58. Medtronic is entitled to a declaratory judgment of invalidity of the '088 patent.

DEMAND FOR JURY TRIAL

In accordance with Rule 38(b) of the Federal Rules of Civil Procedure, Medtronic demands a trial by jury on all issues so triable.

PRAYER FOR RELIEF

WHEREFORE, Medtronic respectfully requests the following relief:

- a. Judgment in favor of Medtronic denying all relief requested by Moskowitz in this action and dismissing Moskowitz's Second Amended Complaint for patent infringement with prejudice;
- b. Judgment declaring that each of the Asserted Patents is invalid;
- c. Judgment declaring this to be an exceptional case under 35 U.S.C. § 285 and awarding Medtronic its costs, expenses, and reasonable attorneys' fees; and
- d. Such other and further relief as the Court deems just and proper.

Dated: February 19, 2026

Respectfully submitted,

/s/ X. Kevin Zhao
