This is the 4th year in the row that we secured 1st place on the American-Made Index, with Model Y claiming 1st place for the prior 2 consecutive years and Model 3 placing 1st in 2021.

Cars.com analyzes more than 400 model-year 2025 vehicles to arrive at the 99 vehicles that are included on the 2025 American-Made Index. The 99 ranked vehicles are judged through five factors:

- Location of final assembly

- Percentage of US and Canadian parts
- Country of origin for available engines
- Country of origin for available transmissions
- US manufacturing employees relative to the automaker's footprint
