Design

Looks small. Lives large.

Introducing the far mightier, way tinier, all-new Mac mini. Five by five inches of pure power and purpose. Redesigned around Apple silicon to unleash the full speed and capabilities of M4 and M4 Pro chips. With a wide array of ports, now on the front and back. Mac mini is the definition of efficiency. It truly is the little Mac that could.

1/20 the size yet up to 6x faster

compared with the top-selling PC desktop in its price range.[2]

Built to chill.

Putting this much power in such a small space took a whole new thermal architecture. Within Mac mini, air is guided to different levels of the system, and all of it flows through the foot. Combined with Apple silicon's unmatched power efficiency, this allows Mac mini to breeze through intensive workloads at outrageous speeds. It's calm, cool, and perfected.

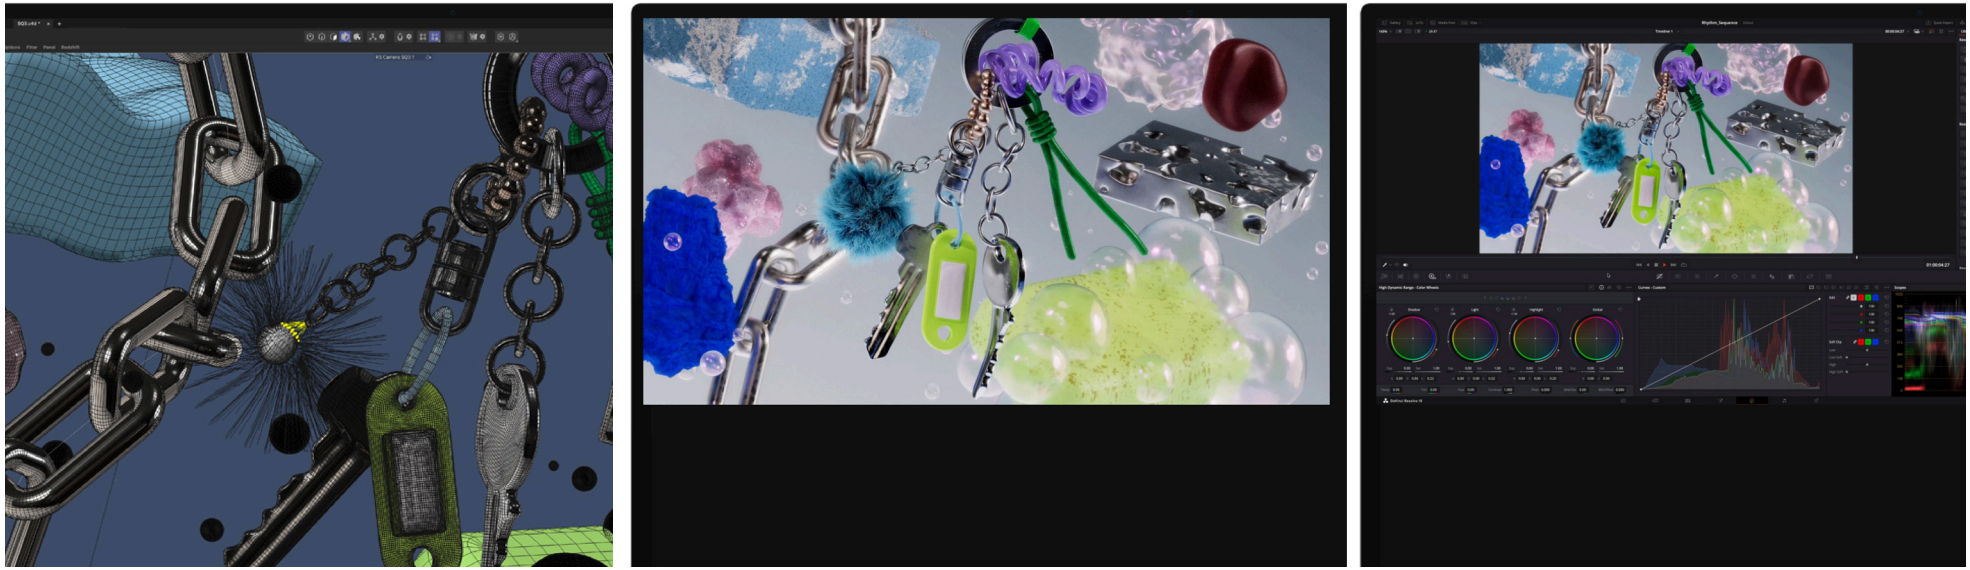
Performance

M4 and M4 Pro.
Champion chips.



Cinema 4D with Redshift, DaVinci Resolve Studio

Now with M4 and M4 Pro, Mac mini delivers tremendous performance and next-level AI capabilities. Both chips feature the world's fastest CPU core, so everything feels

snappy and fluid. Thanks to a powerful GPU with hardware-accelerated ray tracing, yo[illegible]dibly realistic game graphics and smooth 3D rendering. And an advanced Neural Engine runs on-device Apple Intelligence at blazing speed.

Hardware-accelerated ray tracing for game-changing graphics.

Drives up to three displays.

World's fastest CPU core for incredible responsiveness.[8]

Make short work of everyday tasks, open and switch between apps seamlessly, and collaborate across apps like Adobe Acrobat, Microsoft Excel, Slack, and Zoom. And with Apple Intelligence, you have all kinds of features to supercharge productivity.

Apple Intelligence
Brains. Supreme.

Apple Intelligence is the personal intelligence system that helps you write, express yourself, and get things done effortlessly. With groundbreaking privacy protections, it gives you peace of mind that no one else can access your data — not even Apple.[1]

Writing Tools. Apple Intelligence can proofread your text and rewrite different versions until the tone and wording are just right,

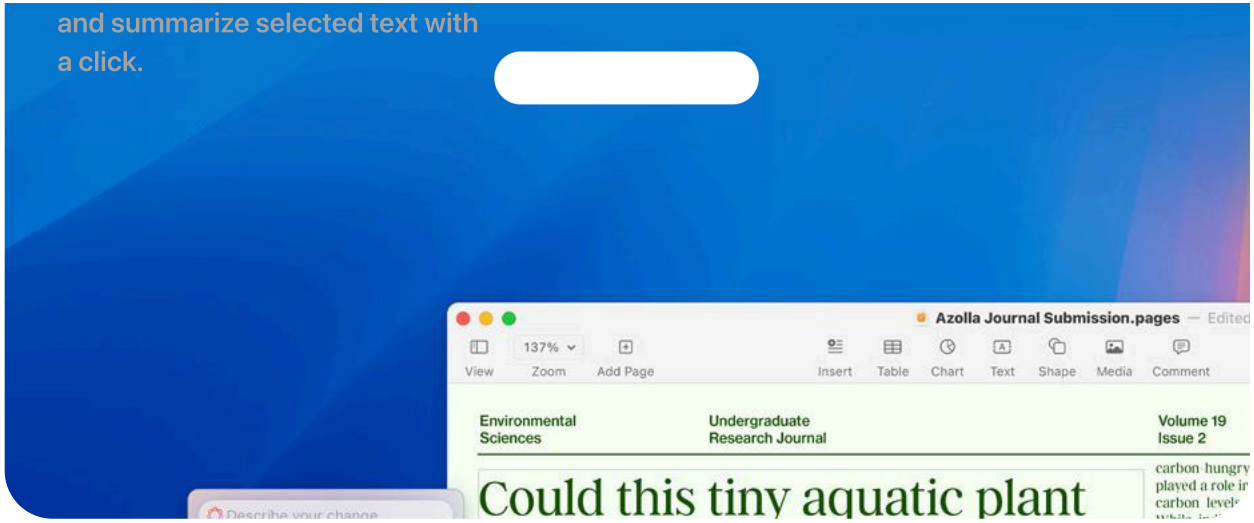

Image Playground. Create fun, original images based on a description, a concept, or even a person from your Photos library.

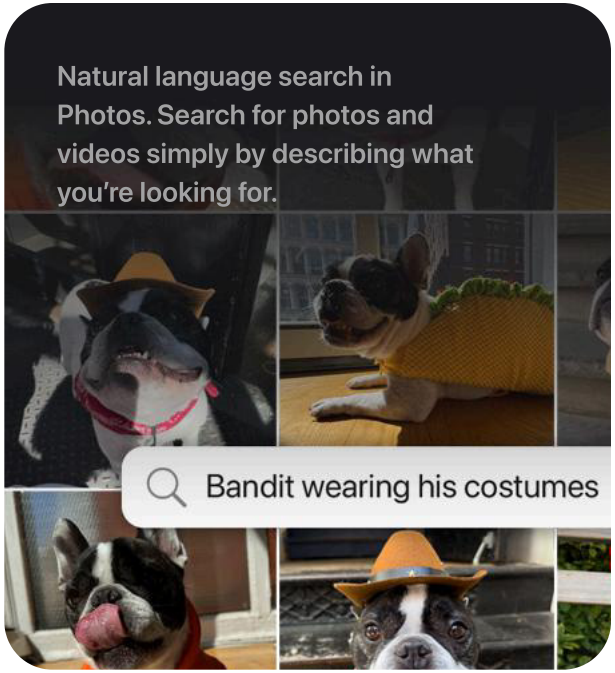
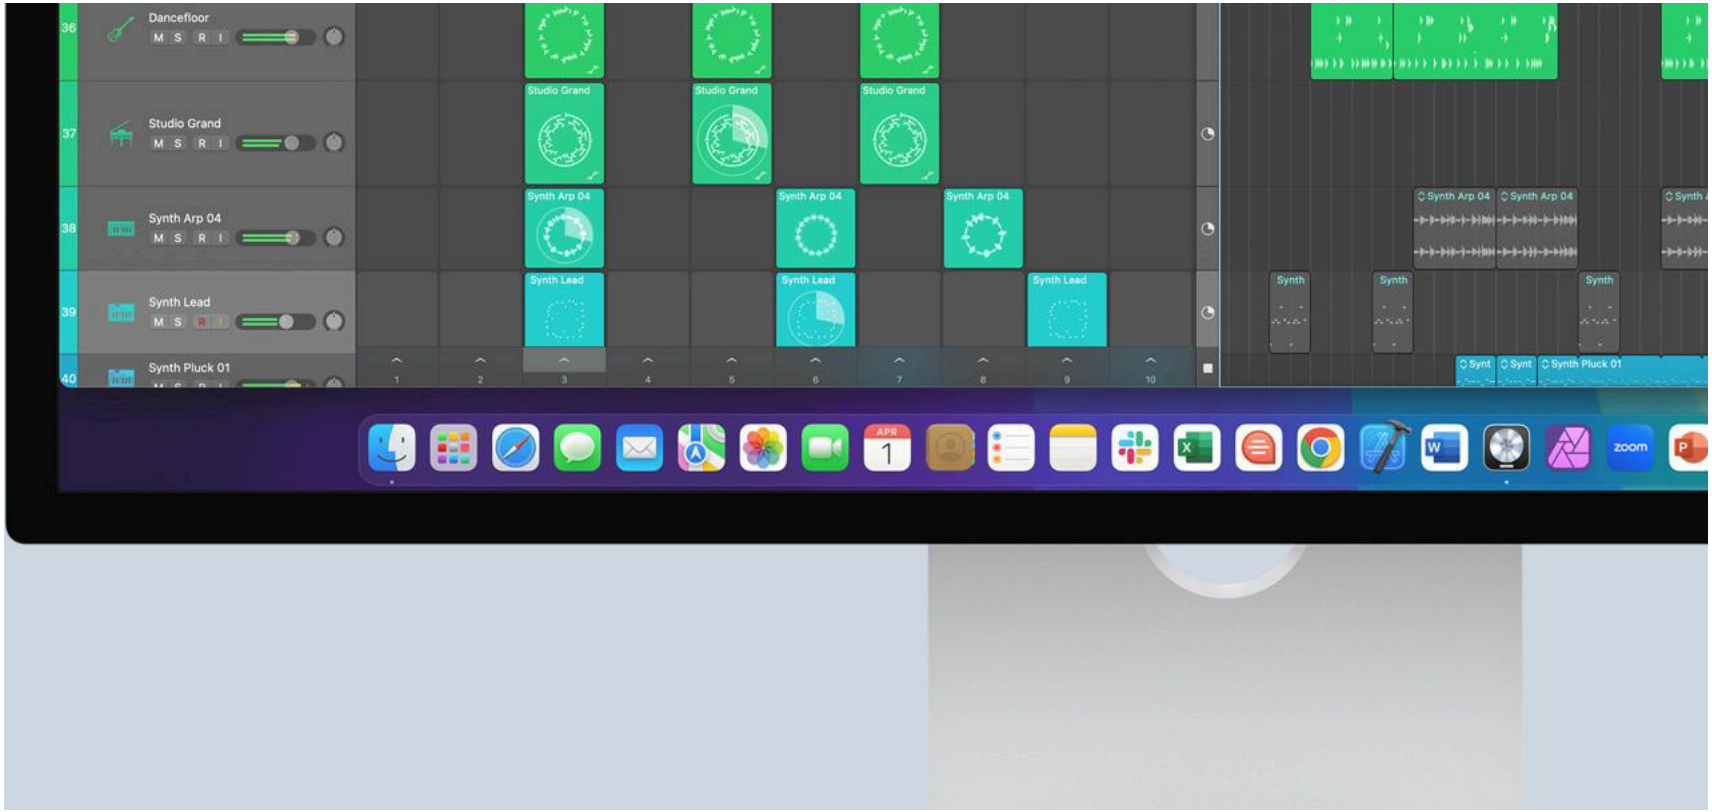


Great powers come with great

Apple Intelligence is designed to protect your privacy at every step. It's integrated into the core of your Mac through on-device processing. So it's aware of your personal information without collecting your personal information.

And with groundbreaking Private Cloud Compute, Apple Intelligence can draw on larger server-based models, running on Apple silicon, to handle more complex requests for you while protecting your privacy.



Mac mini comes loaded with incredible built-in apps, industry-leading privacy and security, and amazing features for work and play. And macOS brings more speed and responsiveness to all your go-to apps — from Microsoft Word, Excel, and Outlook to Slack and Adobe Photoshop.

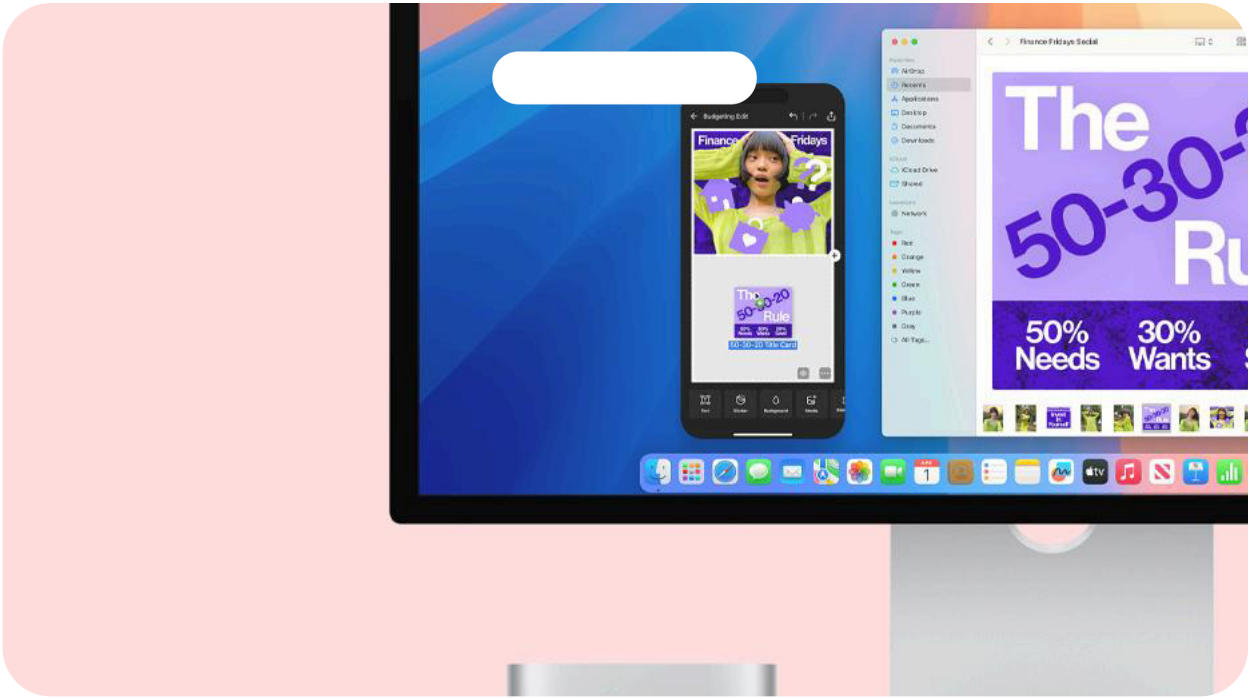
Mac + iPhone

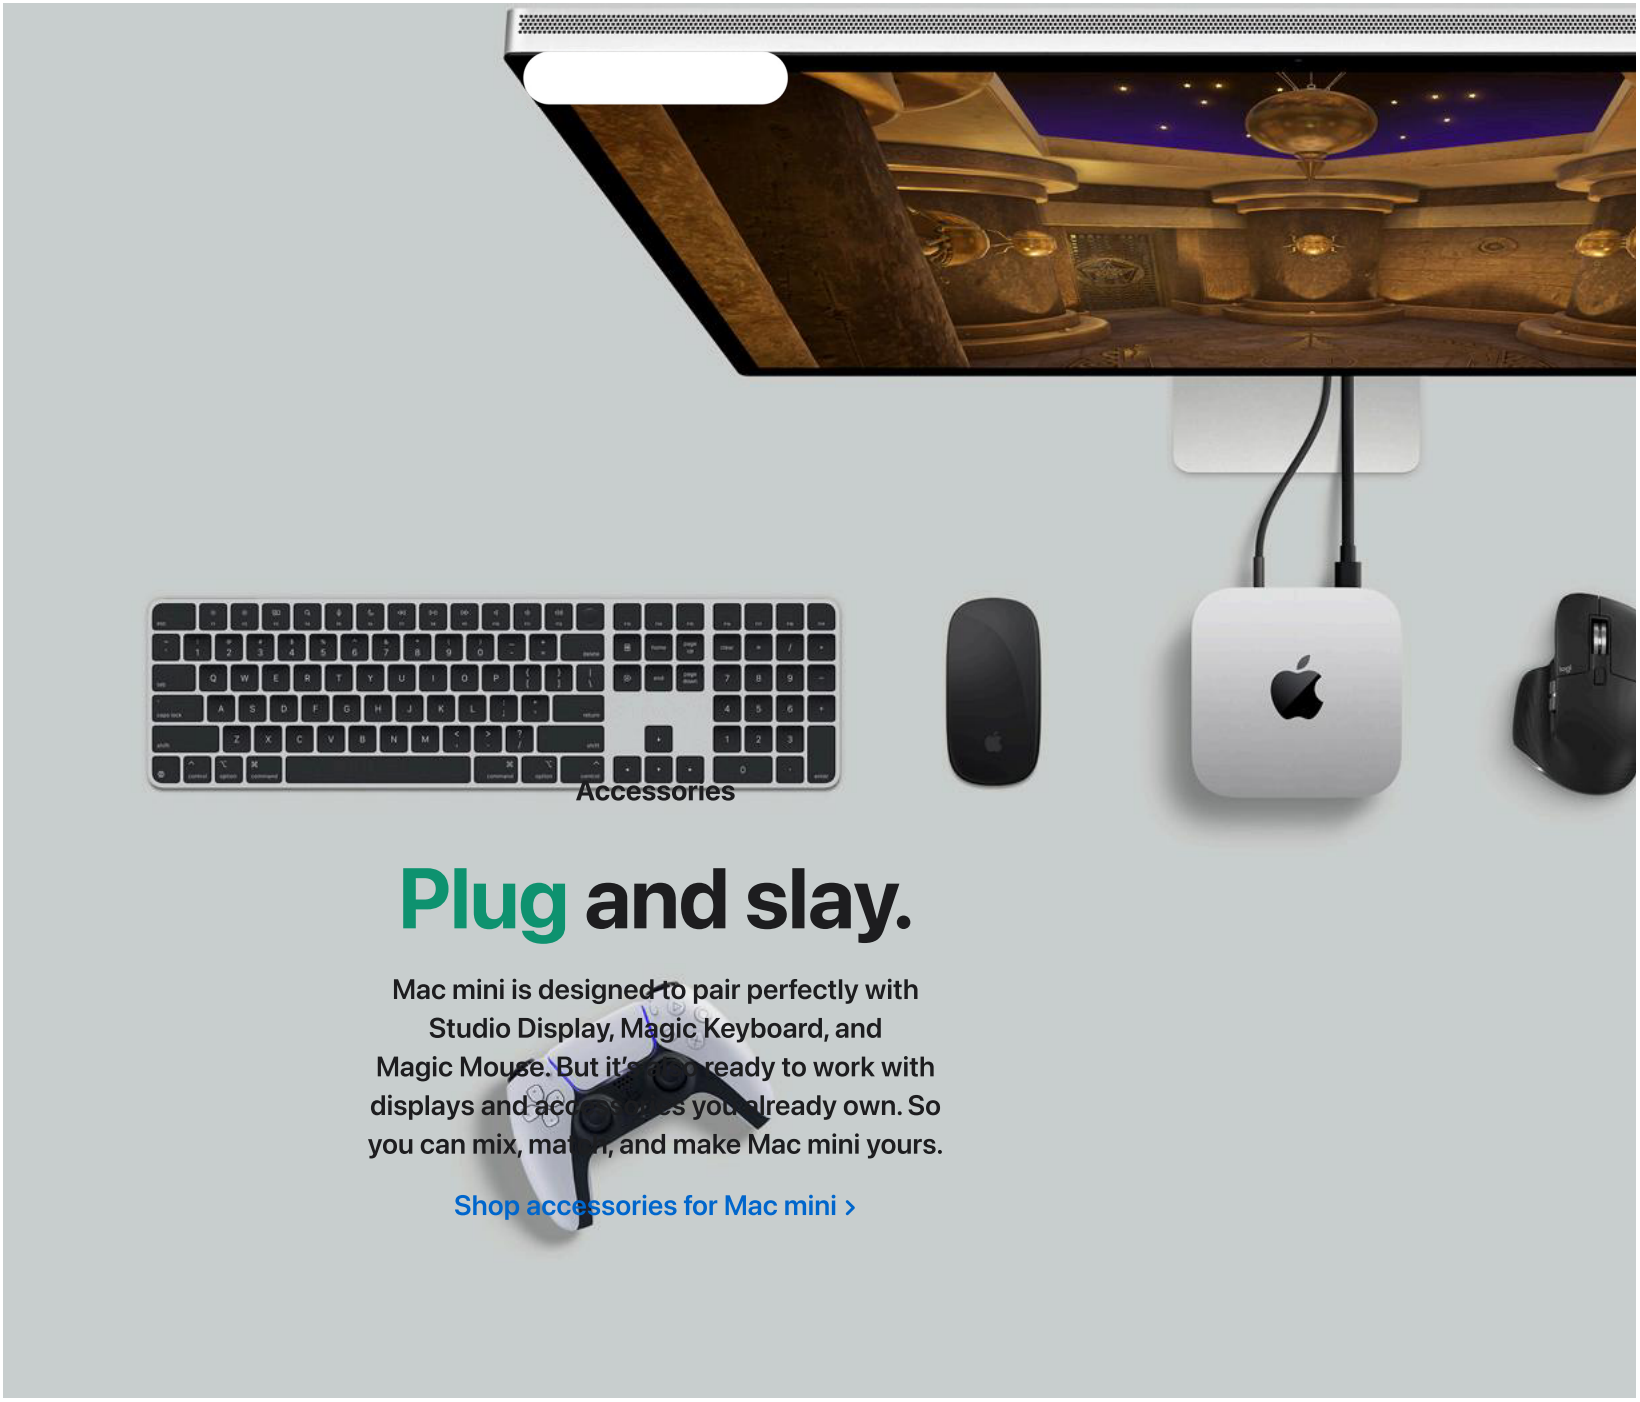
One-two punch.

When you use iPhone and Mac mini together, they work like magic. You can make and answer phone calls and text messages from your iPhone directly on your Mac, use your iPhone as a webcam or document scanner, and access your iPhone wirelessly with the iPhone Mirroring app in the Dock.[10]



iPhone Mirroring Universal Clipboard AirDrop

See and use what's on your iPhone from your Mac, without having to reach for it.



Plug and slay.

Mac mini is designed to pair perfectly with Studio Display, Magic Keyboard, and Magic Mouse. But it's also ready to work with displays and accessories you already own. So you can mix, match, and make Mac mini yours.

Apple Trade In

* Available to current and newly accepted college students and their parents, as well as faculty, staff, and homeschool teachers of all grade levels. See Terms for more information.

** Financing available to qualified customers, subject to credit approval and credit limit, and requires you to select Apple Card Monthly Installments (ACMI) as your payment type at checkout at Apple. Financing terms vary by product. Taxes and shipping on items purchased using ACMI are subject to your card's variable APR, not the ACMI 0% APR. ACMI is not available for purchases made at special storefronts or when using such special discounts in-store at Apple, except ACMI is available at the Education storefront and with the Education discount. The last month's payment for each product will be the product's purchase price, less all other payments at the monthly payment amount. ACMI is subject to change at any time for any reason, including but not limited to installment term lengths and eligible products. See the Apple Card Customer Agreement for more information about ACMI.

◊ Apple Card Monthly Installments (ACMI) is a 0% APR payment option that is only available if you select it at checkout in the U.S. for eligible products purchased at Apple Store locations, apple.com, the Apple Store app, or by calling 1-800-MY-APPLE, and is subject to credit approval and credit limit. See here for more information about eligible products. Existing customers: See your Customer Agreement for your variable APR. As of January 1, 2026, the variable APR on new Apple Card accounts ranges from 17.49% to 27.74%. You must elect to use ACMI at checkout. If you buy an ACMI-eligible product with a one-time payment on Apple Card at checkout, that purchase is subject to your Apple Card's variable APR, not the ACMI 0% APR. Taxes and shipping on items purchased using ACMI are subject to your Apple Card's variable APR, not the ACMI 0% APR. In order to buy an iPhone with ACMI, you must select one of the following carriers (prepaid carrier plans are not supported): AT&T, Boost Mobile, T-Mobile, or Verizon. An iPhone purchased with ACMI is always unlocked, so you can switch carriers at any time, subject to your carrier's terms. ACMI is not available for purchases made at the following special storefronts or when using these discounts in-store at Apple: Apple Employee Purchase Plan; participating corporate Employee Purchase Programs; Apple at Work for small

businesses; Government and Veterans and Military Purchase Programs; or on refurbished devices. The last month's payment for each product will be the product's purchase price, less all other payments at the monthly payment amount. ACMI is subject to change at any time for any reason, including but not limited to installment term lengths and eligible products. See the Apple Card Customer Agreement for more information.

To access and use all Apple Card features and products available only to [illegible] Apple Card to Wallet on an iPhone or iPad that supports and has the latest version of iOS or iPadOS. Apple Card is subject to credit approval, available only for qualifying applicants in the United States, and issued by Goldman Sachs Bank USA, Salt Lake City Branch.

Apple Payments Services LLC, a subsidiary of Apple Inc., is a service provider of Goldman Sachs Bank USA for Apple Card and Savings accounts. Neither Apple Inc. nor Apple Payments Services LLC is a bank.

All communications from Apple and Goldman Sachs Bank USA about Apple Card (including transactional and marketing communications) and customer service support are available in English. Certain communications about Apple Card can be viewed in another language depending on your device language settings. If you reside in the U.S. Virgin Islands, American Samoa, Guam, Northern Mariana Islands, or U.S. Minor Outlying Islands, please call Goldman Sachs at 877-255-5923 with questions about Apple Card.

1. Apple Intelligence is available in beta. Some features may not be available in all regions or languages. For feature and language availability and system requirements, see support.apple.com/121115.

2. Testing conducted by Apple in September and October 2024 using preproduction Mac mini systems with Apple M4, 10-core CPU, 10-core GPU, and 16GB of RAM, and 256GB SSD, as well as production Intel Core i7-based PC systems with Intel UHD Graphics 770, 16GB of RAM, 512GB SSD, and the latest version of Windows 11 Home available at the time of testing. No Man's Sky Build ID 13269642 FPS performance tested at 2560x1440 resolution in Standard Quality preset with MetalFX set to Performance and FPS limit set to 240. Affinity Photo 2 v2.5.4 tested using the built-in benchmark version 28000. Adobe Lightroom Classic 13.5 tested using an 89.2MB image. Adobe Premiere Pro 2024 v24.6.1 tested with Scene Edit Detection using a 3-minute and 27-second project with H.264 media at 3840x2160 resolution and 30 frames per second. MotionMark 1.3.1 performance benchmark tested with prerelease Safari 18.1 on macOS Sequoia. Best-selling PC desktop in price range is based on publicly available sales data over the prior twelve months. Performance tests are conducted using specific computer systems and reflect the approximate performance of Mac mini.

3. We compared the aluminum required to make the enclosure of Mac mini (2024) to Mac mini (2023).

4. Weight varies by configuration and manufacturing process.

5. Product recycled or renewable content is the mass of certified recycled material relative to the overall mass of the device, not including packaging or in-box accessories.

6. Manufacturing electricity for Mac mini is sourced from renewable electricity, including a mix of supplier and Apple clean energy projects. Renewable electricity refers to fossil fuel–free sources of energy, like wind, solar, and low-impact hydroelectricity projects.

7. 50% of Mac mini by weight is shipped by non-air modes of transportation, like ocean freight, from the factory to their next destination.

8. Testing conducted by Apple in October 2024 using shipping competitive systems and select industry-standard benchmarks.

9. Speeds are based on theoretical throughput and may vary.

10. Available on Mac computers with Apple silicon and Intel-based Mac computers with a T2 Security Chip. Requires that your iPhone and Mac are signed in with the same Apple Account using two-factor authentication, your iPhone and Mac are near each other and have Bluetooth and Wi-Fi turned on, and your Mac is not using AirPlay or Sidecar. Some iPhone features (e.g., camera and microphone) are not compatible with iPhone Mirroring.

11. Trade-in values will vary based on the condition, year, and configuration of your eligible trade-in device. Not all devices are eligible for credit. You must be at least the age of majority to be eligible to trade in for credit or for an Apple Gift Card. Trade-in value may be applied toward qualifying new device purchase, or added to an Apple Gift Card. Actual value awarded is based on receipt of a qualifying device matching the description provided when estimate was made. Sales tax may be assessed on full value of a new device purchase. In-store trade-in requires presentation of a valid photo ID (local law may require saving this information). Offer may not be available in all stores and may vary between in-store and online trade-in. Some stores may have additional requirements. Apple or its trade-in partners reserve the right to refuse, cancel, or limit quantity of any trade-in transaction for any reason. More details are available from Apple's trade-in partner for trade-in and recycling of eligible devices. Restrictions and limitations may apply.

12. Actual diagonal screen size is 23.5 inches.

Some features, applications, and services may not be available in all regions or all languages.
