About Us

For more than 130 years, our customers and partners have trusted Thales to bring their bold ambitions to life. From airline passenger journeys to identity protection, from cybersecuring critical infrastructure to supporting national defense, our commitment to innovation keeps people safe, moving, protected and connected in the air, on the ground and around the world.

With significant research and development, manufacturing, engineering and service capabilities, we meet our customers' most complex requirements in all operating environments.

We are proud to say that across our aerospace, defense, cyber and digital markets, Thales solutions are making a difference in the lives of U.S. citizens and our allies, every day.

- **99%** of U.S. commercial airports equipped with navigation aids
- **127 million** U.S. passport eCovers delivered
- **260 million** U.S. records for world's largest biometric system supported with biometrics
- **300** helicopter borne sonar systems supplied to the U.S. Navy
- **375,000** tactical radios supplied to U.S. and allied defense forces
- **9 of the 10** largest banks in the U.S. safeguarded with cybersecurity solutions
- **13,000+** aircraft worldwide supplied with flight control electronics
- **2 million+** people per day enjoy Thales in-flight entertainment systems

Our Footprint

Our 5,200+ employees across 40 locations and 20 states deliver innovative products and services to help build a future we can all trust.

KEY FIGURES

5,200+

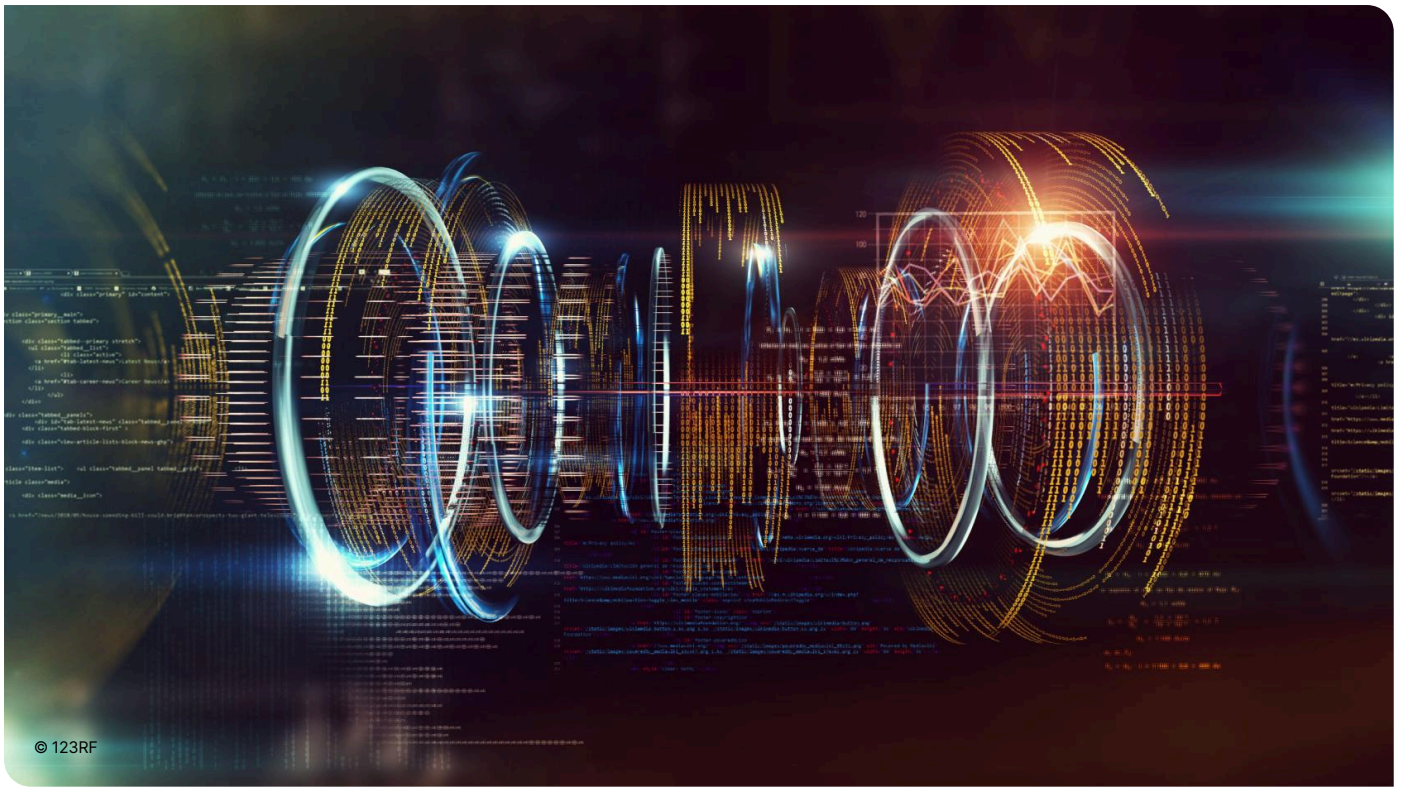

employees

\$1.4B

invested annually in the U.S. supply chain

\$188M

Our Innovation Story

Thales is fueling innovation, job creation and economic value in the U.S. through partnerships with start-ups, industry leaders and the academic research community, and through sustained domestic investment.

Since 2016, Thales has invested \$6B in strategic U.S. acquisitions across the aerospace, defense, cyber and digital markets.

2023: Aerospace communications

Cobham, a global leader in safety cockpit communications and connectivity systems, with a significant U.S. footprint.

[Read more \(/en/news-centre/press-releases/thales-completes-acquisition-cobham-aerospace-communications-adding\)](/en/news-centre/press-releases/thales-completes-acquisition-cobham-aerospace-communications-adding)

2023: Cybersecurity

Imperva, a global cybersecurity leader protecting critical applications, APIs and data, with a significant U.S. footprint.

[Read more \(/en/news-centre/press-releases/thales-completes-acquisition-imperva-creating-global-leader\)](/en/news-centre/press-releases/thales-completes-acquisition-imperva-creating-global-leader)

2022: Undersea warfare

Advanced Acoustic Concepts, a U.S. company for undersea warfare solutions.

[Read more \(/en/news-centre/press-releases/thales-acquires-full-ownership-advanced-acoustic-concepts-aac\)](/en/news-centre/press-releases/thales-acquires-full-ownership-advanced-acoustic-concepts-aac)

2021: Ground-based navigation and guidance

Moog, a U.S. company for ground-based navigation aids

[Read more \(/en/news-centre/press-releases/thales-completes-acquisition-moog-navigation-aids-business\)](/en/news-centre/press-releases/thales-completes-acquisition-moog-navigation-aids-business)

2019: Digital identity, Mobility, IoT & Security

Gemalto, a global leader of digital identification and data protection, with a significant U.S. footprint.

[Read more \(/en/news-centre/press-releases/thales-completes-acquisition-gemalto-become-global-leader-digital\)](/en/news-centre/press-releases/thales-completes-acquisition-gemalto-become-global-leader-digital)

2019: Artificial Intelligence

Psibernetix, a U.S. AI start-up for critical safety and security applications.

[Read more \(/en/news-centre/press-releases/thales-acquires-psibernetix-decisive-technologies-artificial\)](/en/news-centre/press-releases/thales-acquires-psibernetix-decisive-technologies-artificial)

2017: Big Data

Guavas, a U.S. pioneer in real-time Big Data analytics.

[Read more \(/en/news-centre/press-releases/thales-completes-acquisition-guavus-one-pioneers-real-time-big-data\)](/en/news-centre/press-releases/thales-completes-acquisition-guavus-one-pioneers-real-time-big-data)

2016: Cybersecurity

Vormetric, a U.S.-based global leader in encryption and data protection.

[Read more \(/en/news-centre/press-releases/thales-completes-acquisition-vormetric\)](#)

2014: Connectivity Thales

LiveTV, a U.S.-based global leader in inflight connectivity.

[Read more \(/en/news-centre/press-releases/thales-announces-jetblue-launch-customer-its-next-generation-tv-solution\)](#)
