Certain mobile phone features are dependent on the capabilities and settings of your service provider's network. Additionally, certain features may not be activated by your service provider, and/or the provider's network settings may limit the feature's functionality. Always contact your service provider about feature availability and functionality. All features, functionality, and other product specifications, as well as the information contained in this user's guide are based upon the latest available information and are believed to be accurate at the time of printing. Motorola reserves the right to change or modify any information or specifications without notice or obligation.

MOTOROLA and the Stylized M Logo are registered in the US Patent & Trademark Office. All other product or service names are the property of their respective owners. The Bluetooth trademarks are owned by their proprietor and used by Motorola, Inc. under license. Java and all other Java-based marks are trademarks or registered trademarks of Sun Microsystems, Inc. in the U.S. and other countries. Microsoft, Windows and Windows ME are registered trademarks of Microsoft Corporation; and Windows XP is a trademark of Microsoft Corporation.

Caution: Changes or modifications made in the radio phone, not expressly approved by Motorola, will void the user's authority to operate the equipment.

Software Copyright Notice

The Motorola products described in this manual may include copyrighted Motorola and third-party software stored in semiconductor memories or other media. Laws in the United States and other countries preserve for Motorola and third-party software providers certain exclusive rights for copyrighted software, such as the exclusive rights to distribute or reproduce the copyrighted software. Accordingly, any copyrighted software contained in the Motorola products may not be modified, reverse-engineered, distributed, or reproduced in any manner to the extent allowed by law. Furthermore, the purchase of the Motorola products shall not be deemed to grant either directly or by implication, estoppel, or otherwise, any license under the copyrights, patents, or patent applications of Motorola or any third-party software provider, except for the normal, non-exclusive, royalty-free license to use that arises by operation of law in the sale of a product.

business card reader

The business card reader application lets you use your phone's camera to capture a business card image, then store the card's information as a contact in the phone's electronic address book.

capture business card image

Tap  **BCR (Business Card Reader)** in the application launcher screen to open the business card reader application.

Tip: Tap **Help** to see instructions on how to position and frame the business card that you want to capture.

Slide the camera mode switch **down** to put the camera lens in macro mode.

Tap **Capture Business Card** to activate the camera and open the Optical Character Recognition (OCR) viewfinder.

Use the red border in the OCR viewfinder to vertically frame the business card you want to capture. Position the camera so that the card fills the frame without extending beyond the frame borders. The framing border and center indicator turn green when the business card is properly framed.

Camera Mode Switch
Up = normal picture mode.
Down = macro mode.

MOTOROLA E6 USER MANUAL

PAGE 98

Your phone automatically captures a business card image when the card is properly framed in the OCR viewfinder. (To activate or deactivate the auto-capture feature, see "business card reader settings" on page 97).

If auto-capture is turned off, press the camera key, tap **Capture**, or press the center key  to capture the business card.

edit business card information

Your phone interprets the text on the captured business card image, and sorts the text into logical categories.

The character recognition software may misinterpret a text string or assign it to the wrong category. On the edit business card screen, tap a category name to change the assigned category. Tap the direct line in a category to edit its contents. If more

categories are available, pull down the scroll bar on the right side of the screen to see and edit their contents.

To **add** another category to the list, tap , then tap **Add Items**.

To **delete** one or more categories from the list, tap , then tap **Delete Items**.

To **see the business card** while you edit its details, tap , then tap **Show Card Image**.

To **move** the card image, tap and drag the image in the direction you want to move.

To **zoom in/out** on the card image, tap , then tap **Zoom In** or **Zoom Out**. On the card image, tap the small box to the left of an outlined text string to see its assigned category and content in the upper part of the screen.

When you're finished editing business card details, tap **Save** to save the information as a new contact in your phone's address book.

MOTOROLA E6 USER MANUAL

PAGE 99

business card reader settings

Tap , then tap **Setup** to adjust business card reader settings.

Select **Auto Capture** to have your phone automatically capture a business card image when the card is properly framed in the OCR viewfinder.

You can set your phone to automatically **Delete Image** or **Save Image** for a captured business card after you save its contact information in the address book.

Use the **Always Show** list to select information categories that you always want to show in the edit business card screen.

recognize stored business card

To recognize and edit a business card image that you've already captured and stored on your phone, tap  **BCR (Business Card Reader)** in the application launcher screen to open the business card reader application, tap , tap **Open Business Card**, then tap the card you want to recognize and add to the contact list.
