

REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)

NRLA-001US03

I hereby declare that:

Each inventor's residence and mailing address are stated below next to their name.

I believe I am the original inventor or an original joint inventor of the subject matter which is described and claimed

in patent number 9,189,828, granted November 17, 2015 and for which a reissue patent is sought on the invention titled Graphic Processor Based Accelerator System and Method,

the specification of which

is attached hereto.

was filed on 11/9/2017 as reissue application number 15/808,201.

The above-identified application was made or authorized to be made by me.

I hereby acknowledge that any willful false statement made in this declaration is punishable under 18 U.S.C. 1001 by fine or imprisonment of not more than five (5) years, or both.

I believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

by reason of a defective specification or drawing.

by reason of the patentee claiming more or less than he had the right to claim in the patent.

by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, a claim that the application seeks to broaden must be identified:

Reissue is requested because of antecedent basis errors in issued claim 1 of US 9,189,828. Specifically, claim 1 lacks antecedent basis for "the plurality of computations," which is being amended to recite "the sequence of computations" to correct this error. Reissue is also requested because Applicant erred by claiming less than it had a right to claim in US 9,189,828. Claim 21, for example, corrects this error because it does not recite "a central processing unit" as in claim 1. And claim 79, for example, corrects Applicant's error by claiming the "user interaction stream" that appears in the embodiment of FIG. 3 of US 9,189,828 and has not been claimed to date.

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.
