Ridgefield Park, New Jersey 07660

Re: Topwire LLC

Dear Sir/Madam,

I hope this letter finds you well. We represent Topwire LLC (“Topwire”) in the enforcement of its intellectual property rights. Topwire is the assignee of United States Patent Nos. 9,737,215 (“the ’215 patent”)¹. It has come to the attention of Topwire that Samsung Electronics Co., Ltd. (“Samsung”) is selling (directly or indirectly), advertising, offering for sale, or importing into the United States devices (e.g., wearable health tracking devices) that infringe Topwire’s patents either directly or through intermediaries. The ’215 patent relates to a light based sensor module for tracking health information such as those used in wearable health tracking devices. For example, it has been brought to Topwire’s attention that Samsung sells multiple different health tracking devices that use a light based sensor module, such as Samsung’s line of Galaxy Rings and/or Galaxy Watches. I draw your attention to, for example, claim 1 of the ’215 patent. Samsung may wish to have its patent counsel examine the patent to determine whether a non-exclusive license to the patents is needed.

Please let me know whether Samsung is interested in taking a license to the patents. We hope that we will have an opportunity to discuss this matter, and to explain the benefits of an amicable licensing arrangement. I look forward to a productive dialog.

Very truly yours,

A handwritten signature in blue ink, appearing to read 'Robert D. Katz', written over a light blue horizontal line.

Robert D. Katz

cc: Topwire LLC
