Austin

Where it Started

Samsung Austin Semiconductor is celebrating 30 years in Central Texas. Our Austin site, built in 1996, was mirrored after the Hwaseong semiconductor site in Korea.

From a cornfield to one of the world's best foundries, we have invested more than $18 billion in operating two fabs at the Austin campus since 1996—making it one of the largest direct foreign investments in United States history.

Austin Fabs in Numbers

$10.96 BILLION

Economic impact of Austin campus in 2024

2.76 MILLION

Total square footage of floor space

4,500

Number of employees
