AirPods 4 with Active Noise Cancellation

Tech specs › Learn more ›

1. Up to 4x more Active Noise Cancellation compared with original AirPods Pro and AirPods 4 with Active Noise Cancellation when tested in accordance with IEC 60268-24.
2. Up to 2x more Active Noise Cancellation compared with original AirPods Pro and AirPods 4 with Active Noise Cancellation.
3. Up to 1.5x more Active Noise Cancellation than the previous generation when tested in accordance with IEC 60268-24.
4. Available on AirPods 4 with Active Noise Cancellation or AirPods Pro 2 and later with the latest firmware when paired with compatible devices running iOS 18, iPadOS 18, or macOS Sequoia and later. Available on AirPods Max 2 with the latest firmware when paired with compatible devices running iOS 26.4, iPadOS 26.4, or macOS 26.4 and later.
5. Device performance and noise control features like Active Noise Cancellation, Adaptive Audio, and Transparency can be affected by debris or earwax buildup. Clean the device regularly to maintain performance and full feature functionality. Refer to support.apple.com/102672 for AirPods 4 cleaning instructions. Refer to support.apple.com/120409 for AirPods Pro cleaning instructions.
6. Compatible hardware and software required. Works with compatible content in supported apps. Not all content available in Dolby Atmos. iPhone with TrueDepth camera required to create a personal profile for Spatial Audio, which will sync across Apple devices running the latest operating system software, including iOS, iPadOS, macOS, and tvOS.
7. Ultra-low latency audio and Lossless Audio listening requires a wired USB-C connection and compatible content from supported apps and services.
8. Built-in heart rate monitor is intended for use during workouts with the Fitness app and compatible third-party apps on iPhone running iOS 26 and later. Refer to support.apple.com/123184 for more information.
9. The Hearing Aid feature has received FDA authorization. The Hearing Test and Hearing Aid features are supported on AirPods Pro 2 and later with the latest firmware paired with a compatible iPhone or iPad with iOS 18 or iPadOS 18 and later and are intended for people 18 years old or older. The Hearing Aid feature is also supported on a compatible Mac with macOS Sequoia and later. It is intended for people with perceived mild to moderate hearing loss.
10. The Hearing Protection feature works with AirPods Pro 2 and later with the latest firmware when paired with a compatible iPhone, iPad, or Mac with iOS 18, iPadOS 18, or macOS Sequoia and later. The feature is not available in all regions or all languages. View complete list. See support.apple.com/120850 for total attenuation and more

Apple EX1040 Page 10
Apple v. IngenioSpec IPR2026-00339

information. The Hearing Protection feature is not suitable for protection against extremely loud impulse sounds, such as gunfire, fireworks, or jackhammers, or against sustained sounds louder than 110 dBA.

11. Live Translation with AirPods works on AirPods 4 with Active Noise Cancellation and AirPods Pro 2 and later with the latest firmware when paired with an Apple Intelligence–enabled iPhone running iOS 26 and later. Live Translation with AirPods works on AirPods Max 2 with the latest firmware when paired with an Apple Intelligence–enabled iPhone running iOS 26.4 and later. Available in beta. Some features may not be available in all regions or languages; for more information, see Feature Availability.
12. Battery life depends on device settings, environment, usage, and many other factors. AirPods 4 with Active Noise Cancellation were tested with Active Noise Cancellation turned off.
13. Charging requires a compatible USB-C charger.
14. USB-C charging requires a compatible USB-C charger. Wireless charging requires a Qi-certified wireless charger. MagSafe charging requires a compatible MagSafe charger. AirPods 4 with Active Noise Cancellation, AirPods Pro 2, and AirPods Pro 3 charging cases also work with the Apple Watch charger.
15. Find My functionality requires iOS 26 or later.
16. AirPods 4 and AirPods 4 with Active Noise Cancellation are dust, sweat, and water resistant for non-water sports and exercise. Products including charging case were tested under controlled laboratory conditions, and have a rating of IP54 under IEC standard 60529. Dust, sweat, and water resistance are not permanent conditions and resistance might decrease as a result of normal wear. Do not attempt to charge when wet; refer to support.apple.com/kb/HT210711 for cleaning and drying instructions.
17. Products are dust, sweat, and water resistant for non-water sports and exercise. Products including charging case were tested under controlled laboratory conditions. AirPods Pro 3 have a rating of IP57 and AirPods Pro 2 have a rating of IP54 under IEC standard 60529. Dust, sweat, and water resistance are not permanent conditions and resistance might decrease as a result of normal wear. Do not attempt to charge when wet; refer to support.apple.com/kb/HT210711 for cleaning and drying instructions.
18. AirPods (3rd generation) are sweat and water resistant for non-water sports and exercise, and they are IPX4 rated. Sweat and water resistance are not permanent conditions.
19. Siri and activating with just “Siri” may not be available in all languages or in all areas, and features may vary by area. Compatible device and internet access required. Cellular data charges may apply. Activating with just “Siri” is not available on AirPods with the H1 headphone chip and Intel-based Mac computers. Devices must support and have the latest operating system software.
20. Requires an Apple Account and a compatible Apple device running the latest operating system software.
21. Available on AirPods 4, AirPods 4 with Active Noise Cancellation, or AirPods Pro 3 with the latest firmware when paired with compatible devices running iOS 18, iPadOS 18, or macOS Sequoia and later. Available on AirPods Max 2 with the latest firmware when paired with compatible devices running iOS 26.4, iPadOS 26.4, or macOS 26.4 and later. For the best performance, update to the latest software.
22. Available on AirPods 4, AirPods 4 with Active Noise Cancellation, AirPods Pro 2 and later, or AirPods Max 2 with the latest firmware when paired with compatible devices running the latest operating system software, including iOS, iPadOS, and macOS.
23. Available in compatible applications with the latest firmware.
24. Available on AirPods 4, AirPods 4 with Active Noise Cancellation, or AirPods Pro 2 and later with the latest firmware when paired with compatible devices running iOS 18 or iPadOS 18 and later. Available on AirPods Max 2 with the latest firmware when paired with compatible devices running iOS 26.4 or iPadOS 26.4 and later.
25. Supported on AirPods Pro 2 and later with the latest firmware when paired with a compatible iPhone running iOS 26 and later. This feature may not be available in all regions or all languages. View complete list.
26. Size and weight vary by configuration and manufacturing process.
27. Requires the latest version of iOS or iPadOS.
28. AirPods can be used as wireless Bluetooth headphones with Apple devices using earlier software and with non-Apple devices, but functionality may be limited.
29. Testing conducted by Apple in January and February 2026 using preproduction AirPods Max 2 paired with production iPhone 17 Pro Max units, all with prerelease software. The playlist consisted of 358 unique audio tracks purchased from the iTunes Store (256-Kbps AAC encoding). Volume was set to 50%, Active Noise Cancellation was enabled, and Spatial Audio was set to fixed. Testing consisted of full AirPods Max battery discharge while playing audio until the AirPods Max stopped playback. Battery life depends on device settings, environment, usage, and many other factors.
30. Testing conducted by Apple in July and August 2024 using preproduction AirPods Max paired with preproduction iPhone 16 Pro Max units, all with prerelease software. The playlist consisted of 358 unique audio tracks purchased from the iTunes Store (256-Kbps AAC encoding). Volume was set to 50%, Active Noise Cancellation on, and Spatial Audio set to fixed. 5-Minute charge testing conducted with drained AirPods Max that were charged for 5 minutes, then audio playback was started until the AirPods Max stopped playback. Battery life depends on device settings, environment, usage, and many other factors.
31. Testing conducted by Apple in March 2026 using preproduction AirPods Max 2 paired with production iPhone 15 Pro Max units, all with prerelease software. The playlist consisted of 358 unique audio tracks purchased from the iTunes Store (256-Kbps AAC encoding). Volume was set to 50%, Active Noise Cancellation was enabled, and Spatial Audio was set to fixed. 5-Minute charge testing conducted with drained AirPods Max that were charged for 5 minutes, then audio playback was started until the AirPods Max stopped playback. Battery life depends on device settings, environment, usage, and many other factors.
