

Our Global Offices

OUR GLOBAL FOOTPRINT

International facilities and representation

Our office locations are strategically placed around the world to offer the best customer support, lead times, and regional engineering teams with design and manufacturing centers spread across North America, EMEA and APAC facilities.

North America

San Diego

San Diego

Our CEO, who resides in coastal San Diego, is heavily involved in the day-to-day operations of our Southern California facility. Located in a technology hub, our San Diego facility houses several members of our executive team, Cable and Connector Division (CCD), engineering team, customer service team and sales team.

The office services North America with full RF test labs providing custom and OTS antenna products, performance verification, and new product R&D.

Address: 4851 Paramount Drive, San Diego, CA 92123
Contact: +1 858-450-0888

Ireland

Dublin

Dublin

Our Dublin office is in the historic Glasnevin area, an Irish innovation hub, and is home to several of our executives, engineering, and sales team.

With our full test lab and anechoic chamber, our facility enables custom and off-the-shelf product availability for short lead times to EMEA customers as well as new antenna product delivery and custom R&D.

Address: DCU Alpha Innovation Campus, Old Finglas Road, Glasnevin Dublin 11, D11 KXN4
Contact: +353 53 9169500

Taiwan

Taoyuan

Taoyuan

Our facility in Taoyuan, the largest industrial science and technology city in Taiwan, is equipped with a full RF and environmental test lab, anechoic chamber, and experienced engineering team.

With a team made up of production planning and control, material control, supply chain management, and RMA and technical support, this facility supports custom and off-the-shelf product availability for short lead times and excellent customer service to our APAC and global customers.

Address: No.2-2 Ln. 66, ZhongShan 1st Rd, Bade Dist., Taoyuan City, 33454, Taiwan (R.O.C.)
Contact: +886 3 3681223

India

Ahmedabad

Our facilities in Ahmedabad, a growing economic and industrial hub in India, include a state-of-the-art lab and an Advanced Components center.

The lab is equipped with a state-of-the-art anechoic chamber along with passive antenna testing and active cellular OTA testing capabilities, supporting advanced validation and performance optimization. The Advanced Components location expands our local engineering and production capacity, enabling product development, integration, and manufacturing support.

With access to top-rated antenna simulation and design tools across both sites, our engineering team offers technical expertise in product engineering, testing, and antenna and RF design to our global customers as we continue to grow our APAC footprint.

Address: 502-B, Block - E, 5th Floor, Ratna, 3rd Eye Voice, Calica IT/ITES SEZ, Ognaj, Daskroi, Ahmedabad, 380060

Address: B901, Westgate, SG Highway, Near YMCA Club, Makarba, Ahmedabad, 380054

Vietnam

Hai Phong City

Our facility in Hai Phong City, is equipped with a full RF and environmental test lab, anechoic chamber, and experienced engineering team.

With a team made up of production planning and control, material control, supply chain management, and RMA and technical support, this facility supports custom and off-the-shelf product availability for short lead times and excellent customer service to our APAC and global customers.

Address: K4 Warehouse, Zone D of VDH Logistics Park, Dong Hai Ward, Hai An District, Hai Phong City, Vietnam, 187590

Our Global Offices

OUR GLOBAL FOOTPRINT

International facilities and representation

Our office locations are strategically placed around the world to offer the best customer support, lead times, and regional engineering teams with design and manufacturing centers spread across North America, EMEA and APAC facilities.

North America

San Diego

Minneapolis

Located in what is known as the Bob Dylan Building, the Minneapolis team centers on engineering and solving connectivity problems. Our northern location allows regional problem solving for customers in Canada and the U.S.

Focused on new product development, our engineers are experts in antenna and RF design and utilize our on-site state-of-the-art R&D test lab and two anechoic chambers.

Address: 15 S. 5th St. Suite 150, Minneapolis, MN 55402

Contact: +1 858-450-0888

Ireland

Dublin

Enniscorthy

The place where it all began and our CEO's hometown, our Enniscorthy site is home to our largest cross-functional development team with representation in Engineering, Customer Service, Distribution, IT, and Cable and Connector Division (CCD).

The facility focuses on new product R&D, custom and OTS solutions, and performance verification with a full test lab and two state-of-the-art anechoic chambers.
