

Powered by Handsfree Labs, the
world leader in hands-free
technology

With over **100,000 five-star reviews**, it's no surprise our
innovative technologies set the standard in comfort,
durability, and performance.

Dynamic

Every Kizik shoe is engineered with dynamic features like our flexible, spring-back heel that snaps into place the moment you step in—just one of Handsfree Labs' more than **20 innovative technologies** built for effortless movement.

Durable

Every Kizik style undergoes **30,000 heel compressions**, to guarantee long-lasting durability and responsiveness, so you get consistent comfort and performance with every step.

Innovative

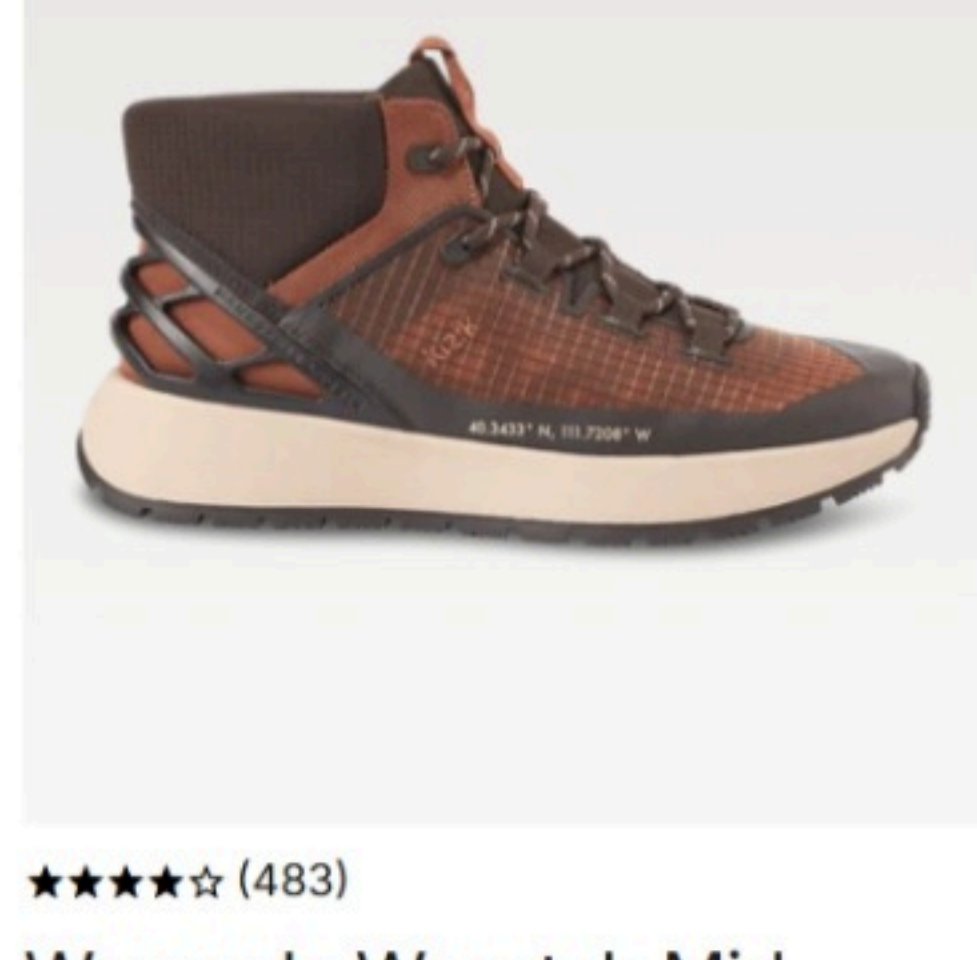

With over 200 patents, Handsfree Labs engineers and designers are at the forefront of footwear technology, seamlessly integrating proprietary hands-free tech into every Kizik style for unmatched convenience & innovation.

Unquestionably Kizik

Cage®

A resilient thermoplastic heel with a honeycomb design compresses down, then springs back up for an instantaneous "on" experience. No stiffness, no rigidity—just a flexible, durable lattice to support your every step.

Shockingly Simple

Flex Arc™

As the heel compresses, a quick-recovery arc flexes against the back of the midsole then pops back up for a highly responsive, highly satisfying fit. It's soft, it's secure, it's our smoothest step-in yet.
