Dear Honorable Director,

I am lead counsel for Petitioner in the above-captioned matter. Petitioner respectfully requests leave for a 5-page preliminary reply to address the issues raised in Patent Owner's preliminary response.

Petitioner is mindful of both the Board's prohibition against argumentative emails and of the requirement that it set forth good cause for its request. IPR2014-01503, Paper 11 at 2-3; 37 CFR 42.108(c). Good cause exists for a preliminary reply because Patent Owner's arguments are predicated on claim construction positions that Petitioner could not foresee. Specifically, Patent Owner's claim construction arguments are not consistent with their plain meaning in view of the intrinsic evidence. Petitioner will not expound further on the bases for this position, as such argumentative emails are prohibited, but believes the Director would benefit from further briefing on this issue.

Petitioner notes that Microsoft was granted a preliminary reply in IPR2026-00325 to address the same issues. The present petition is substantively identical to the '325 petition, and Petitioner has filed a motion to join that proceeding.

Petitioner proposes that its preliminary reply be filed within 5 business days of the grant of Petitioner's request. Petitioner does not oppose Patent Owner receiving a 5-page preliminary surreply to be due within 5 business days of Petitioner's preliminary reply.

Petitioner has conferred with Patent Owner. Patent Owner opposes this request.

Respectfully submitted,

Jim Glass
