Three Ways to Charge at Home

[Compare Products](#)

Mobile Connector

Portable and convenient, charge your Tesla vehicle wherever you are. Mobile Connector adds up to 3 miles of range per hour (or 1.3 kW) on standard household outlets or up to 30 miles (or 7.6 kW) on a 240 V outlet.

[Order Mobile Connector](#)

Wall Connector

A faster and Wi-Fi enabled option for your Tesla vehicle, Wall Connector receives over-the-air updates so the charger becomes better over time. Wall Connector adds up to 44 miles of range per hour (or 11.5 kW). Installation is required.

Universal Wall Connector

With the same speed, power and functionality as Wall Connector, Universal Wall Connector is compatible with Tesla vehicles and non-Tesla EVs. Universal Wall Connector adds up to 44 miles of range per hour (or 11.5 kW). Installation is required.

Convenience

Charge Anytime

Wall Connector is our fastest way to charge your electric vehicle, whether a Tesla or non-Tesla, at home. For homes with more than one electric vehicle, multiple Wall Connectors can manage power output to meet charging needs. And with Wi-Fi connectivity, you'll always have access to the latest charging features and over-the-air updates.

Installation

Fast and Flexible

Wall Connector is designed for houses, apartments, condos and workplaces. The lightweight design allows for versatile, indoor or outdoor mounting that adapts to a range of electrical systems. Work with your own electrician or connect with a Tesla Certified Installer to install a Wall Connector in your home.
