
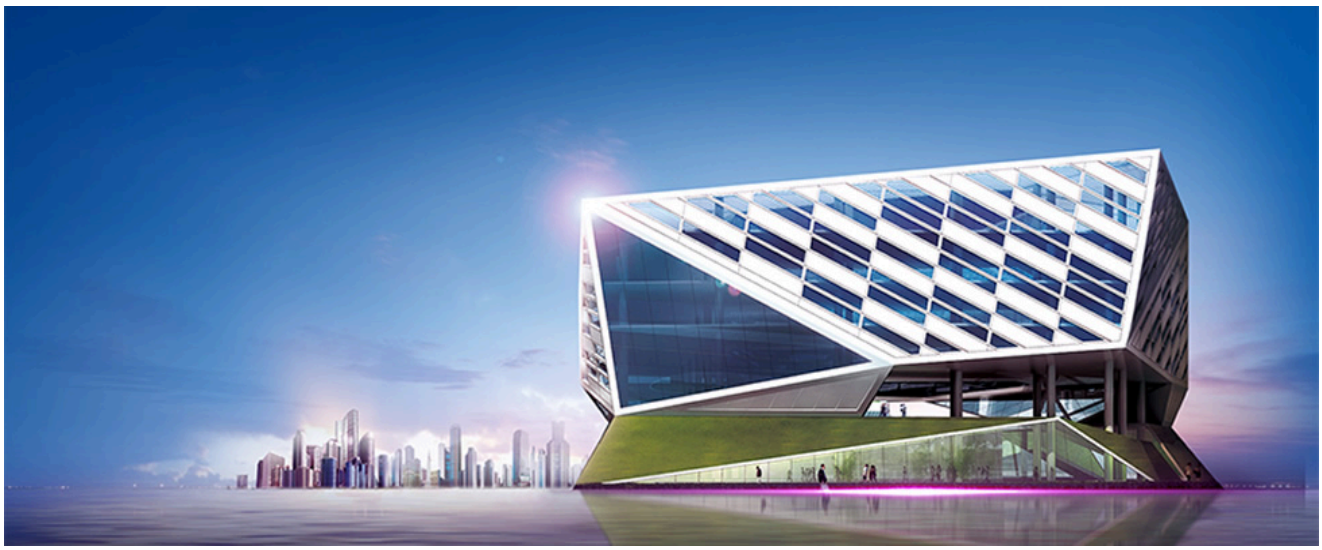
Industrial Investment Sector



Investments bringing out the future star

Since the establishment of its industrial investment sector in 2015, Huafa Group has set up three business sectors including venture capital, financial investment and strategic investment. With five platforms of Huajin Investment, Infiniti Equity Management, Zhuhai Science & Technology Venture Capital Co., Ltd., the joint Fund Management Company with IDG and the overseas investment platform, Huafa has basically established an industrial investment system that covers the whole life cycle of enterprise development and the entire industrial chain of investment business. It has set up many subsidiaries and branches in Shenzhen, Beijing, Shanghai, Tianjin, Hong Kong, Israel and Silicon Valley, expanding its business to China and the entire world. Through such effort, Huafa has become an important force to introduce high-end industries into Zhuhai, and a strong push to the transformation and upgrading of the local real economy.

At present, while increasing its investment into Zhuhai's real economy, industrial incubators and accelerators, Huafa Group has helped IDG set up one of its centers in South China by establishing Zhuhai Venture Capital Association. It has enhanced its cooperation with top venture capital organizations and institutions at home and abroad to promote the atmosphere of innovation and entrepreneurship in Zhuhai, making Zhuhaian innovation hub in the Guangdong-Hong Kong-Macao Greater Bay Area.
