Product Features

This fabric uses two weaving techniques, jacquard, and strip weaving. It means the use of a single multifilament for weaving and jacquard weaving. The shap this nylon fabric is a composite fabric composed of squares woven by multifilament and small four corners woven by monofilament jacquard technology.

The advantages are breathability, sufficient toughness, wear resistance, and corrosion resistance. The fabric has a long service life. It is very suitable for sport shoes, casual shoes, hats, beach bags, and other products。

Product Advantage

Skechers EX1058
