v.

MARMON FOODSERVICE TECHNOLOGIES, INC.
Patent Owner

_____

Case: IPR2026-00482
Patent No. 11,771,264

# DECLARATION OF SHELDON COACH

Duke Manufacturing Co. EX1038
U.S. Patent No. 11,771,264

I, Sheldon Coach, hereby declare as follows:

1. I am the Enterprise Architect for Duke Manufacturing Co. ("Duke") and have held this position since approximately 2021. In this role, I am responsible for maintaining, developing, and generating reports from Duke's Epicor enterprise resource planning software. I make this declaration in connection with the above-referenced IPR proceeding on behalf of Duke.

2. Duke uses Epicor as its Enterprise Resource Planning software to record and maintain its sales and production records.

3. I used Epicor to generate the report that is being submitted as Exhibit 1039. The report was generated using Epicor Business Activity Queries and SQL. The report was generated as an Excel spreadsheet and has been excerpted and formatted into the version being submitted as Exhibit 1039.

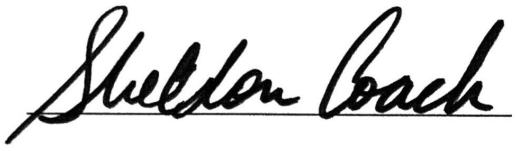

4. While I did specify the parameters and select the fields to include in the report, and the report has been further excerpted and formatted for purposes of presenting it as an exhibit, Exhibit 1039 accurately reflects the data stored in Epicor.

5. The data within Epicor is started and maintained via the Epicor sales order entry process and passed along to the Epicor job process for scheduling, manufacturing, and shipping. The data within Epicor is kept in the ordinary course of business for Duke.

6. As a general practice, the underlying data within Epicor is entered at the time of the transaction or event.

7. I declare under penalty of perjury that the foregoing is true and correct.

Executed this 29th day of June 2026.

Sheldon Coach
