

DECLARATION OF JUNE ANN MUNFORD

1. My name is June Ann Munford. I am over the age of 18, have personal knowledge of the facts set forth herein, and am competent to testify to the same.

2. I earned a Master of Library and Information Science (MLIS) from the University of Wisconsin-Milwaukee in 2009. I have over ten years of experience in the library/information science field. Beginning in 2004, I have served in various positions in the public library sector including Assistant Librarian, Youth Services Librarian and Library Director. I have attached my Curriculum Vitae as Appendix CV.

3. During my career in the library profession, I have been responsible for materials acquisition for multiple libraries. In that position, I have cataloged, purchased and processed incoming library works. That includes purchasing materials directly from vendors, recording publishing data from the material in question, creating detailed material records for library catalogs and physically preparing that material for circulation. In addition to my experience in acquisitions, I was also responsible for analyzing large collections of library materials, tailoring library records for optimal catalog search performance and creating lending agreements between libraries during my time as a Library Director.

4. I am familiar with the Internet Archive, a digital library accessible to the general public. Among other services that the Internet Archive makes available to the general public is the Wayback Machine, an online archive of the web. The Internet Archive's Wayback Machine service archives webpages as of a certain capture date to track changes in the web over time. The Internet Archive has been in operation as a nonprofit library since 1996 and has hosted the Wayback Machine service since its inception in 2001. During my time as a librarian, I frequently used the Internet Archive's Wayback Machine for research and instruction purposes. This includes teaching instructional classes on using the Wayback Machine to library patrons and using the Wayback Machine to research reference inquiries that require hard-to-find online resources. I consider the Internet Archive's recordskeeping to be as rigorous and detailed as other formal library recordskeeping practices such as MARC records, OCLC records and Dublin Core.

5. During my education in the field of library science, I was instructed in metadata analysis and indexing of digital multimedia such as websites, e-books, audiobooks, music, games and video. Unlike standardized metadata found in printed publications such as books or academic journals, digital multimedia is often assigned metadata that is proprietary to the media's access point. A librarian cataloging a book may source metadata from centralized resources such as the

Library of Congress cataloging service or an ISBN agency, but librarians indexing web content must consider how the material is being distributed and interpret proprietary metadata from unique access points.

6. As an example, videos are commonly uploaded to digital media platforms such as YouTube. Upon upload, YouTube assigns metadata such as date of creation, length, video format and bitrate programmatically at the time of upload. This metadata is proprietary to YouTube and one could expect the same video uploaded to two different platforms to contain different metadata. As such, metadata assigned to an individual video by the content platforms discussed herein should be considered the primary source of metadata about the video in question. This metadata not only describes the bibliographic characteristics of the work such as title, author and creation date, but also the content platform, method of access and proprietary licensing info.

7. YouTube makes video metadata available to the public via the YouTube API (application programming interface), a service commonly used in software development. By querying the YouTube API with the details of a given video, YouTube will provide data relevant to a given work's availability such as date of upload, number of views and video length. To access the YouTube API in the course of my research, I have frequently used the MW Metadata

(<https://mattw.io/youtube-metadata/>) website to present metadata from the YouTube API in an organized and consistent fashion. MW Metadata is also able to access select metadata from YouTube videos that have been deleted or delisted, providing a historical record of the video's existence.

8. I have reviewed Exhibit 1006, a YouTube video entitled "Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases".

9. Attached hereto as Appendix YOUTUBE01 is a screen capture of a webpage entitled "Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases" as hosted on the YouTube website. I secured these screen captures myself from <https://www.youtube.com/watch?v=fzymdpDZ1kc>.

10. Appendix YOUTUBE01 is the current version of the "Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases" website and video presented as Exhibit 1006 located at <https://www.youtube.com/watch?v=fzymdpDZ1kc>. I reviewed the video hosted at this page and in comparing the video hosted at Appendix YOUTUBE01 to Exhibit 1006 it is my determination Exhibit 1006 is a true and correct copy of "Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases". The description of this video present on Appendix YOUTUBE01 indicates the video

was first uploaded to YouTube as of February 28, 2016, and has been viewed by 31,056 users since that date.

11. Attached hereto as Appendix YOUTUBE02 are screen captures of a web app entitled “MW Metadata” as found on the <https://mattw.io> website. I secured these screen captures myself from <https://mattw.io/youtube-metadata/>.

12. The MW Metadata webapp shown in Appendix YOUTUBE02 is a web app that allows users to view a detailed metadata record of a given YouTube video, with the data presented acquired from YouTube’s API service. The web app captured in Appendix YOUTUBE02 represents the MW Metadata results for the link entitled “Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases” (<https://www.youtube.com/watch?v=DYVS21zqH0c>), the website and video introduced as Appendix YOUTUBE01. The metadata presented within Appendix YOUTUBE02 confirms the accuracy of Youtube’s internal recordskeeping, with fields such as author (‘channelId’), title (‘title’) and description (‘description’) accurately describing the video and web page present at <https://www.youtube.com/watch?v=fzymdpDZ1kc>. According to this record, “Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases” was first uploaded to YouTube as of February 28, 2016, at 4:07 PM and made available to the public soon after.

13. Attached hereto as Appendix YOUTUBE03 is a screen capture of the Internet Archive Wayback Machine entry for <https://www.youtube.com/watch?v=fzymdpDZ1kc&gl=US&hl=en>. I secured these screen captures myself from <https://web.archive.org/web/20160303000430/https://www.youtube.com/watch?v=fzymdpDZ1kc&gl=US&hl=en>. This record was captured as of March 3, 2016.

14. Appendix YOUTUBE03 is an Internet Archive capture of the web page entitled “Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases” as hosted on the YouTube website. As the Internet Archive first captured this page as of March 3, 2016, it is my determination that “Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases” was first made available to the public via the original YouTube website certainly no later than March 3, 2016.

The record contained in Appendix YOUTUBE03 also contains a version of “Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases” able to be played in complete from start to finish. After reviewing this version of “Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases”, I did not notice any differences in video resolution, bitrate, audio

fidelity, video length or content when compared to the current version of “Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases” hosted on the YouTube website. Based on this comparison, it is my determination “Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases” has not been changed or modified in any significant way since March 3, 2016. The description of this video present on page 2 of Appendix YOUTUBE03 contains a view counter indicating “Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases” was viewed 5,280 times between the video’s upload as of February 28, 2016 and the date of Internet Archive capture as of March 3, 2016. This view count indicates that “Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases” was not only available to the public as of March 3, 2016, but was viewed at least 1,000 times on average per day upon being captured by the Internet Archive. I note that YouTube include keyword search functionality tied to the content of the video and associated text captions. As a result, users would have readily located and accessed “Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases” via keyword searching using the YouTube search functionality. For example, a keyword search of terms such as phone case, magnet recess, and magnet mount aligns with terms in the description of the YouTube video text caption such that the video was readily accessed via such keyword searching.

15. Attached hereto as Appendix YOUTUBE04 is a transcript of “Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases” as secured from <https://www.youtube.com/watch?v=fzymdpDZ1kc>. The transcript presented as Appendix YOUTUBE04 has been captured with small edits for clarity. In reviewing the modern edition of “Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases” captured as Appendix YOUTUBE01 and the historical edition of “Spigen Thin Fit Hybrid Review - An Office Dwellers Dream? - iPhone 6(s+) cases” captured as Appendix YOUTUBE03, it is my determination Appendix YOUTUBE04 is an accurate transcription for both videos.

16. I have been retained on behalf of the Petitioner to provide assistance in the above-illustrated matter in establishing the authenticity and public availability of the documents discussed in this declaration. I am being compensated for my services in this matter at the rate of \$200.00 per hour plus reasonable expenses. My statements are objective, and my compensation does not depend on the outcome of this matter.

17. I declare under penalty of perjury that the foregoing is true and correct. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true;

and further that these statements were made the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code.

Dated: 8/20/2026

A handwritten signature in black ink, appearing to read 'June Ann Munford', with a stylized, cursive script.

June Ann Munford

APPENDIX CV

June A. Munford
Curriculum Vitae

Education

University of Wisconsin-Milwaukee - MS, Library & Information Science, 2009
Milwaukee, WI

- Coursework included cataloging, metadata, data analysis, library systems, management strategies and collection development.
- Specialized in library advocacy, cataloging and public administration.

Grand Valley State University - BA, English Language & Literature, 2008
Allendale, MI

- Coursework included linguistics, documentation and literary analysis.
- Minor in political science with a focus in local-level economics and government.

Professional Experience

Researcher / Expert Witness, October 2017 – present
Freelance ● Pittsburgh, Pennsylvania & Grand Rapids, Michigan

- Material authentication and public accessibility determination. Declarations of authenticity and/or public accessibility provided upon research completion. Experienced with appeals and deposition process.
- Research provided on topics of public library operations, material publication history, digital database services and legacy web resources.
- Past clients include Alston & Bird, Arnold & Porter, Baker Botts, Fish & Richardson, Erise IP, Irell & Manella, O'Melveny & Myers, Perkins-Coie, Pillsbury Winthrop Shaw Pittman and Slayden Grubert Beard.

Library Director, February 2013 - March 2015
Dowagiac District Library ● Dowagiac, Michigan

- Executive administrator of the Dowagiac District Library. Located in Southwest Michigan, this library has a service area of 13,000, an annual operating budget of over \$400,000 and total assets of approximately \$1,300,000.

- Developed careful budgeting guidelines to produce a 15% surplus during the 2013-2014 & 2014-2015 fiscal years while being audited.
- Using this budget surplus, oversaw significant library investments including the purchase of property for a future building site, demolition of existing buildings and building renovation projects on the current facility.
- Led the organization and digitization of the library's archival records.
- Served as the public representative for the library, developing business relationships with local school, museum and tribal government entities.
- Developed an objective-based analysis system for measuring library services - including a full collection analysis of the library's 50,000+ circulating items and their records.

November 2010 - January 2013

Librarian & Branch Manager, Anchorage Public Library ● Anchorage, Alaska

- Headed the 2013 Anchorage Reads community reading campaign including event planning, staging public performances and creating marketing materials for mass distribution.
- Co-led the social media department of the library's marketing team, drafting social media guidelines, creating original content and instituting long-term planning via content calendars.
- Developed business relationships with The Boys & Girls Club, Anchorage School District and the US Army to establish summer reading programs for children.

June 2004 - September 2005, September 2006 - October 2013

Library Assistant, Hart Area Public Library
Hart, MI

- Responsible for verifying imported MARC records and original MARC cataloging for the local-level collection as well as the Michigan Electronic Library.
- Handled OCLC Worldcat interlibrary loan requests & fulfillment via ongoing communication with lending libraries.

Professional Involvement

Alaska Library Association - Anchorage Chapter

- Treasurer, 2012

Library Of Michigan

- Level VII Certification, 2008
- Level II Certification, 2013

Michigan Library Association Annual Conference 2014

- New Directors Conference Panel Member

Southwest Michigan Library Cooperative

- Represented the Dowagiac District Library, 2013-2015

Professional Development

Library Of Michigan Beginning Workshop, May 2008

Petoskey, MI

- Received training in cataloging, local history, collection management, children's literacy and reference service.

Public Library Association Intensive Library Management Training, October 2011

Nashville, TN

- Attended a five-day workshop focused on strategic planning, staff management, statistical analysis, collections and cataloging theory.

Alaska Library Association Annual Conference 2012 - Fairbanks, February 2012

Fairbanks, AK

- Attended seminars on EBSCO advanced search methods, budgeting, cataloging, database usage and marketing.

Depositions

2019 ● Fish & Richardson

Apple v. Qualcomm (Case No. IPR2018-001281, 39521-00421IP, IPR2018-01282 and 39521-00421IP2)

2019 ● Erise IP

Implicit, LLC v. Netscout Systems, Inc (Case No. 2:18-cv-53-JRG)

2019 ● Perkins-Coie

Slim and Grippy. What more can you ask in a sleek case? Well, it could be drop rated...

Get it now on Amazon: <http://mreh.ca/1n4W3t8>Web review: <http://mreh.ca/1TJWXt8>

Similar cases:

Spigen Neo Hybrid Carbon - <http://mreh.ca/1Y4znqC>Incipio Octane - <http://mreh.ca/1whGyzw>Griffin Survivor Journey - <http://mreh.ca/1Lz2AWQ>K11 Bumper - <http://mreh.ca/1KaR2U9>Moshi iGlaze - <http://mreh.ca/1igt9V7>

Today I'm going to do a review on the Spigen Thin Fit Hybrid. This is one of the best multi-part iPhone cases that I've come across in the last while and I would have to say that if you're an office dweller, you should seriously take a look at the Thin Fit Hybrid. The back of the case is covered in soft-touch rubber which really helps with the handling of the iPhone and like the Spigen Tough Armor Tech, the sound is projected forward.

Based on my time with the Spigen Thin Fit Hybrid, I've given it a score of 4.3 Eh's out of 5. On a case basis, this is a slightly better than average iPhone case that does as well as Spigen's own Neo Hybrid Carbon, The Incipio Octane and Griffin Survivor Journey. There's a neat feature on the Thin Fit Hybrid that sets it apart from other cases and it has to deal with magnets. I'll elaborate in a bit.

If you need more information, check out my website, Lots of different cases to compare and if you're looking to get a Spigen case specifically, check out my Spigen case comparison tool. Links are in the i or the description section below.

In terms of design, this is one of Spigen's sleeker cases. Its generally the same size as the Neo Hybrid Tech and a notch smaller than any of the cases that have the name Armor in it. The case fits quite well together, feels great but be warned, the back will show scratches quicker than other cases and grease marks will show up.

Now, you're wondering where the magnet goes for mag mount, the back plate has an area that's been recessed that allows you to fit the Quad Neo Dynamim magnet easily. Installation of the case isn't terribly hard but you need to pay a bit more attention to the edges after install to ensure that they are properly installed.

In terms of protection this case isn't drop-rated though the marketing fluff says the dual layers add extra protection which I do believe. I wouldn't be liberal in my dropping of an iPhone in this case. The edges of the case are high enough to keep it off a flat surface but the front edges doesn't have as much grip as the back so it will slide a little easier.

In terms of accessing the iPhone, the cutouts at the bottom are large enough for 3rd party cables and the buttons are covered with metalized buttons which surprisingly, aren't as nice to use as the buttons on the Neo Hybrid carbon though they look exactly the same. The speaker cutouts face the front of the iPhone which is nice as it reduces the chance that you cover the speakers.

So that's all I got for the Spigen Thin Fit Hybrid, a case that get's a score of 4.3 Eh's out of 5. If you are planning on getting this case, consider going through my site as that's the only way I get paid to do all this. If you know somebody who might want it, share this video with them. You can find me on all sorts of social media platforms but the one I've been enjoying lately is Instagram. Questions, comments, leave them below.

hey bro! can you check on the 4 way privacy tech armor screen protector? though u did a review on the ballistic glass review, do u think u can try it?
-   Reply
-  @TwoCablesOCN 7 years ago
Alright, I bought this case for my iPhone 6s and I think it sucks because the buttons suck. The volume buttons are especially bad because they are difficult to press, they don't always work, and sometimes I get the opposite of what I pressed (Volume Up and Volume Down reversing). In addition, there's almost no tactile feedback, no clickiness, etc. They feel very mushy. The Sleep/Wake button is weak too...

Do they have the exact case you have on in the review for the iPhone 6 plus? I can't find it on amazon with the link you provided above. The only spigen case that pops up is the metal bumper and not the full backed slim case? thanks!

@efcruzado 10 years ago

Just got this case and I am very impressed. Nice and slim with just enough grip. No scratches on the back after 3 days of use. Speck shows scratches after a minute. Not a big fan of 2 piece cases but this one is well executed. I was an Otterbox and Incipio fan for my earlier iPhones. Now it's Spigen. I have the Rugged Capsule, the Ultra Hybrid and Thin Fit Hybrid. Tough Armor Tech is next.

@posted9907 10 years ago

I have this case. I liked the soft-touch material on the back and the front facing speaker. I didn't like the 2 piece construction and silver buttons. am now using an otterbox symmetry.

Can you review the moshi ivisor glass? Seems a really good glass screen protector!

  Reply

 • 3 replies

@jhnwoo 10 years ago

I enjoy the black case but not the white case.

The white case (as well as rose gold) is a shinning piece of back cover, the shinning piece makes the phone more slippery than without putting a case. I use few days then sell it off as second hand case. xD
I'm using iPhone 6 Plus.

hey guys it's Aaron the ~~home Ho~~ for Mobile reviews A.C and today I want to do a review of ~~span's Spigen's~~ thin fit hybrid this is one of the best two-piece cases that

0:08

I've used and if you're an office dweller this is a case that you should seriously consider the back of this case is covered in a soft touch rubber that really helps with the handling of the

0:16

iPhone and like the ~~span Spigen~~ Tough Armor Tech the sound is projected forward now based on my time with the ~~span Spigen~~ thin fit hybrid I've given it a score of 4.3 a's

0:24

out of 5 on a Case basis this is a slightly better than average iPhone case and it does as well as ~~span Spigen~~ own Neo Hybrid carbon the Incipio Octane and the

0:32

Griffin survivor Journey there is a neat feature on the thin fit hybrid that sets it apart from other cases and ~~has to~~ deal with magnets I'll elaborate in a

0:40

~~bit~~ if you need more information check out my website there's lots of different cases for you to compare if you're looking to get a ~~speaking Spigen~~ case specifically check out my ~~speaking Spigen~~ case

0:48

comparison ~~to tool~~ links are in the ~~ey~~ or in the description section below real usage Real reviews Mobile reviews

0:57

a.ca Mobile reviews a.ca we ~~BAS base~~ everything we do on actual usage you won't find much marketing fluff here so

1:04

when ~~span>Spigen~~ sends sends us a case and a magnetic air Mount well we think and we say to ourselves I think I need to play

1:11

some ~~span>Spigen skeeballski ball~~ which basically involves trying to stick the thin fit hybrid on the mag Mount by throwing it

1:19

now before we get to the guts of this review I'd like to thank everybody who took the time to vote on the products on my ranker page as it gives me a good idea of what you guys want to see now in

1:27

terms of the design this is one of ~~span>Spiger's steer sleeker~~ cases it's generally the same size as the Neo Hybrid Tech and a notch smaller than any of the other cases that

1:34

have the name armor in it and is made by ~~span>Spigen~~ this case fits quite well together feels great but be warned the back will show scratches quicker than other cases

1:42

because of the soft touch Rubber and grease marks will be very apparent now when you're wondering where the magnet goes for the magma the back plate area

1:50

has an area that's recessed that allows you to fit the quad Neo dynamin ~~dynamin~~ magnet easily installation of the case isn't terribly hard but you do have to

1:58

pay a bit more attention to the edges after installed to ensure that they are properly installed in terms of protection this case isn't drop rated though the marketing fluff says the Dual

2:06

layers add extra protection which I do believe though I wouldn't be very liberal in dropping my iPhone um you know for fun the edges of the case are high enough to keep it off a flat

2:15

surface but the front edge doesn't have as much grip as the back so it will slide around easier if you put your iPhone face first on a flat surface in

2:23

terms of accessing the iPhone the cutouts at the bottom of the case are large enough for third party cables and the buttons are covered with metallized buttons which surprisingly though they

2:31

look the same as the ones on the Neo Hybrid carbon don't work as well though they are still pretty good the speaker cut it actually forces sound through the

2:38

front of the iPhone which is nice if you ever if you're ever like me who plays iPhone games on their back and I end up holding the iPhone like this um I tend

2:46

to cover the speaker grid on the cases and you're not going to I well I didn't have that issue with this case because well it's kind of pushing the sound

2:54

forward so the quick review this is a good case I'm a big fan again of how it feels I give it a score 4.3 A's out of

3:03

five if you're planning on getting this case do consider getting it through my website because well I don't get paid to do these reviews by any of these case manufacturers so any of the affiliate

3:12

links that you click actually helps support me so I can keep doing what I'm doing if you think somebody might like this case do share this video and all in

3:20

all if you're generally enjoying what I'm doing give it a thumbs up if you want to follow me on other social media platforms I'm on Instagram Snapchat kind

3:27

of kind of Tumblr Facebook on Twitter um that's kind of all I got thank you for

3:33

watching bye

3:38

3:51

Monty this is one of the best two-piece or two-layered cases that I've us stupid emails hey guys this ~~in the H~~Aaron the Ho

4:00

for Mobile reviews a.ca it's been like 2 weeks since I filmed a video I've been working on my website for a really long time now apparently there's a bunch of

4:08

things wrong with it so now it it's all fixed and so I'm back to making videos and it's is not like riding a bike there's so many things that you kind of

4:16

forget to just get out of your head and just talk hey guys this is ~~Dar the home~~Aaron the Ho for Mobile reviews A.C
