BITCOIN MINING

Hash Hut™

All-climate, high performing industrial loadcenters in 90-900 kW modules!

WHY OUR LOADCENTERS OUTPERFORM THE COMPETITION:

TWO LAYERS OF
FILTRATION

SWITCHGEAR MAINS
INCLUDED

PASSIVE HEAT RECIRC
FOR COLD CLIMATES

DIRECT DRIVE BOOSTER
FANS LOCATED IN COLD
AISLE NEVER OVERHEAT

POSITIVE AIR PRESSURE
FOR OPTIMAL COOLING

VARIABLE SPEED DRIVES
OPTIMIZE POWER USAGE

SAFE WORKING SPACE &
EMERGENCY EGRESS

CERTIFIED TO NATIONAL
BUILDINGS AND ELECTRICAL
STANDARDS

Check out our detailed Hash Hut™ module walkthrough

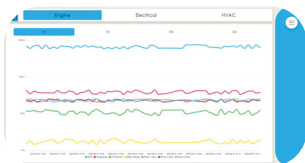

Hash Hut - Feature Overview

Get a QUOTE on a performance Loadcenter!

OPTIONAL UPGRADES

LoadSync™ Controller

Add our patented LoadSync™ Controller to your loadcenter for automatically managed load response.

Smart PDU

Upgrade to smart power distribution with remote / automated circuit control and metering! 480V service available.

480V Service

Connect directly to 480V without costly step-down transformers (custom ASIC PSUs may be required)

Customization

We manufacture steel buildings custom to our customer's needs. We can build your loadcenter in the color to match your brand.

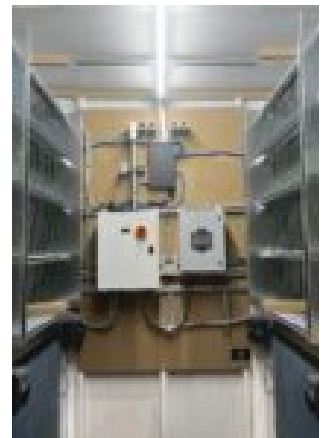

SPECS - Air Cooled Hash Hut™

	Hash Hut 90	Hash Hut 180	Hash Hut 360	Hash Hut 720	Hash Hut 900	Hash Hut 1260
Rated Power (kW)	90	180	360	720	900	1260
Electrical Input	3-phase, 416Y240V, 60 Hz					
Main Breaker Rating (A)	200	300	600	600 (x2)	800 (x2)	800 (x3)
Main Switchgear Included?	YES					
AC Module Quantity	1	2	4	8	10	14
Total Rated CFM	19500	39000	78000	156000	195000	273000
VFD (HP)	10	10	10	10 (x2)	10 (x2)	10 (x3)
Server Slots	24	48	96	192	240	336

HASH HUTS

Hundreds of unique deployments world wide

Whether you are mining bitcoin on-grid or off-grid, we have customers in every climate and industrial application all over North America!
