Foreign Priority Information:

This section allows for the applicant to claim priority to a foreign application. Providing this information in the application data sheet constitutes the claim for priority as required by 35 U.S.C. 119(b) and 37 CFR 1.55. When priority is claimed to a foreign application that is eligible for retrieval under the priority document exchange program (PDX)¹ the information will be used by the Office to automatically attempt retrieval pursuant to 37 CFR 1.55(i)(1) and (2). Under the PDX program, applicant bears the ultimate responsibility for ensuring that a copy of the foreign application is received by the Office from the participating foreign intellectual property office, or a certified copy of the foreign priority application is filed, within the time period specified in 37 CFR 1.55(g)(1).

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it contains a valid OMB control number.

Statement under 37 CFR 1.55 or 1.78 for AIA (First Inventor to File) Transition Applications

☐ This application (1) claims priority to or the benefit of an application filed before March 16, 2013 and (2) also contains, or contained at any time, a claim to a claimed invention that has an effective filing date on or after March 16, 2013. NOTE: By providing this statement under 37 CFR 1.55 or 1.78, this application, with a filing date on or after March 16, 2013, will be examined under the first inventor to file provisions of the AIA.

Authorization or Opt-Out of Authorization to Permit Access:

When this Application Data Sheet is properly signed and filed with the application, applicant has provided written authority to permit a participating foreign intellectual property (IP) office access to the instant application-as-filed (see paragraph A in subsection 1 below) and the European Patent Office (EPO) access to any search results from the instant application (see paragraph B in subsection 1 below).

Should applicant choose not to provide an authorization identified in subsection 1 below, applicant **must opt-out** of the authorization by checking the corresponding box A or B or both in subsection 2 below.

NOTE: This section of the Application Data Sheet is **ONLY** reviewed and processed with the **INITIAL** filing of an application. After the initial filing of an application, an Application Data Sheet cannot be used to provide or rescind authorization for access by a foreign IP office(s). Instead, Form PTO/SB/39 or PTO/SB/69 must be used as appropriate.

1. Authorization to Permit Access by a Foreign Intellectual Property Office(s)

A. Priority Document Exchange (PDX) - Unless box A in subsection 2 (opt-out of authorization) is checked, the undersigned hereby **grants the USPTO authority** to provide the European Patent Office (EPO), the Japan Patent Office (JPO), the Korean Intellectual Property Office (KIPO), the State Intellectual Property Office of the People's Republic of China (SIPO), the World Intellectual Property Organization (WIPO), and any other foreign intellectual property office participating with the USPTO in a bilateral or multilateral priority document exchange agreement in which a foreign application claiming priority to the instant patent application is filed, access to: (1) the instant patent application-as-filed and its related bibliographic data, (2) any foreign or domestic application to which priority or benefit is claimed by the instant application and its related bibliographic data, and (3) the date of filing of this Authorization. See 37 CFR 1.14(h)(1).

B. Search Results from U.S. Application to EPO - Unless box B in subsection 2 (opt-out of authorization) is checked, the undersigned hereby **grants the USPTO authority** to provide the EPO access to the bibliographic data and search results from the instant patent application when a European patent application claiming priority to the instant patent application is filed. See 37 CFR 1.14(h)(2).

The applicant is reminded that the EPO's Rule 141(1) EPC (European Patent Convention) requires applicants to submit a copy of search results from the instant application without delay in a European patent application that claims priority to the instant application.

2. Opt-Out of Authorizations to Permit Access by a Foreign Intellectual Property Office(s)

☐ A. Applicant **DOES NOT** authorize the USPTO to permit a participating foreign IP office access to the instant application-as-filed. If this box is checked, the USPTO will not be providing a participating foreign IP office with any documents and information identified in subsection 1A above.

☐ B. Applicant **DOES NOT** authorize the USPTO to transmit to the EPO any search results from the instant patent application. If this box is checked, the USPTO will not be providing the EPO with search results from the instant application.

NOTE: Once the application has published or is otherwise publicly available, the USPTO may provide access to the application in accordance with 37 CFR 1.14.

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether the Freedom of Information Act requires disclosure of these records.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspections or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

**FLEXIBLE MOBILE DEVICE CONNECTIVITY TO
AUTOMOTIVE SYSTEMS WITH USB HUBS**

Related Applications

This application is a continuation application and claims benefit under 35 U.S.C. § 120 of U.S. Patent Application No. 14/487,947, filed September 16, 2014, which claimed benefit under 35 U.S.C. § 119(e) of U.S. Provisional Patent Application No. 61/882,915, filed on September 26, 2013, the entire disclosure of each of which are hereby incorporated herein by reference.

Background

The present invention generally relates to Universal Serial Bus (“USB”) connectivity between, for example, mobile consumer devices and vehicle electronic systems. More specifically, the present invention relates to a system which is configured to provide that consumer devices that act as either USB host or USB device can connect to a vehicle’s embedded USB host that does not have On the Go (“OTG”) capability through an embedded USB hub in the vehicle.

Historically, mobile consumer devices such as media players, smart phones, tablets and the like have relied on connections to other devices, such as laptop or desktop personal computers (“PC’s”) to acquire content, exchange data, and charge the device’s internal battery. For many years now, that has been accomplished through USB ports on each device. The use of USB technology is suitable for such needs since it is commonly available, familiar to the end user, cost effective and ubiquitous. USB protocols require a point-to-point connection in which one end is the USB Host or master, and the other end is a USB Device or slave. In this way, the

flow of messages between the two devices is managed and controlled, whereby the USB Device responds to messages initiated by the USB Host. Historically, PC's have provided USB Host ports for connection to simpler USB Devices such as printers, memory sticks, mobile phones, etc. The USB Host has a greater burden of software and hardware requirements than a USB
5 Device, so it has made sense to designate the PC as the USB Host in such systems.

In vehicle systems that employ USB connections, the same concepts apply. In such systems, the vehicle is typically the USB Host. The USB Host function is often embedded into a component of the vehicle infotainment system, such as into the radio or other control module. Typically, multiple USB ports are strategically designed into the vehicle in locations convenient
10 for the driver and passengers to connect their consumer devices. Once a consumer device is connected to one of the ports, the device begins charging and the vehicle infotainment system can access content on the consumer device. This is useful to enable features such as streaming music, video and other services the device may provide.

Such a system requires that each of the USB ports be physically connected to the
15 vehicle's USB Host in a manner suitable for USB data flow. This is accomplished through electrical cabling which is embedded in the vehicle, and which connects each of the ports to the USB Host. Since there can be many USB ports in a vehicle, and each port requires a cable to connect the port to the USB Host, it is desirable to share cabling when possible to minimize cost and mass of the vehicle. This is accomplished through the use of USB Hubs. USB Hubs allow a
20 single USB Host to connect to multiple USB Devices over a single cable between the USB Host and the USB Hub. As shown in Figures 1 and 2, a single USB Hub can connect one USB Host to several USB Devices. Specifically, Figure 1 illustrates a system wherein a self-powered USB

Hub having a plurality of USB ports connects to a plurality of USB Devices (via a plurality of consumer-facing USB ports), while Figure 2 illustrates a system wherein a self-powered USB Hub provides not only a plurality of USB ports which are in communication with a plurality of consumer-facing USB ports, but also a Secure Digital (“SD”) card reader which is connected to a consumer-facing SD card connector. Other portions of Figures 1 and 2, such as Power Management, are standard in the industry and self-explanatory upon viewing Figures 1 and 2.

Furthermore, as shown in Figure 3, multiple USB Hubs can be tiered, such that USB Hubs connect to other USB Hubs. Specifically, Figure 3 illustrates a vehicle system architecture that includes a central vehicle microcontroller (also referred to as the Head Unit or “HU”). Connected to the Head Unit are components or systems such as displays, the audio system, entertainment system and the driver controls. The Head Unit may be architected as a single module encompassing all functions or distributed such that various functions are managed by individual modules. The Head Unit includes a Root USB Hub which is typically connected to one or more downstream USB Hubs distributed throughout the vehicle. Each USB Hub has a plurality of downstream ports (at least one of which may be an SD reader or USB audio device), thereby effectively providing that each USB port in the vehicle has a connection to the USB Host or Head Unit. In Figure 3, for example, the Root Hub is embedded in the radio, and is connected to four (4) self-powered USB Hubs, wherein one is in the vehicle’s center console, one is in the vehicle’s center stack, and two are in the vehicle’s rear seats.

Recently, mobile devices such as smart phones have gained in popularity. This is, in part, due to their usefulness as standalone computing devices. With advances in consumer electronic technology and increases in the speed of mobile networks, these devices are no longer

reliant on being connected to PCs to access content. These smart mobile devices now have many of the same hardware resources, connectivity and software operating systems that only PCs had in past years. As has been the case with desktop PCs, accessories for these mobile devices have become available to aid in their ease of use. These accessories have included devices such as

5 keyboards, mice, displays, touchscreen, audio systems, and other interface devices. These accessories commonly connect via a USB connection. By way of established convention in the consumer electronics market, these accessories are typically low cost and limited in USB capability to act only as a USB Device. To connect them to a smart phone, the smart phone must be the USB Host. Therefore, leading mobile device manufacturers and system designers have

10 begun designing their mobile device products (i.e. smart phones, tablets, etc.) to support both USB Host and USB Device roles. In other words, the phone may configure itself such that it can function as a USB Device when it needs to be, or as a USB Host when it needs to be. Recently, the system level design thinking has shifted towards viewing smart phones as the USB Host, and any device connecting thereto as the USB Device. Again, this is not surprising since this is

15 exactly how laptops and PCs work today. Extending this trend into the future, it can be predicted that the smart phone will act primarily as the USB Host, and will rarely or never act as a USB device. This presents some problems for automotive systems.

As explained previously, automotive systems have a USB Host and require USB Devices to connect to it. If a phone acts as a USB Host, then the system will not function since by USB

20 convention, two USB Hosts cannot directly connect with each other. Automotive manufacturers desire compatibility with smart phones and are therefore motivated to adapt to this changing technology. A redesign of the USB architecture in the vehicle is thus necessary such that the

vehicle can act either as the USB Host (when necessary to connect to USB Devices such as memory sticks, thumb drives, etc.) or USB Device (when necessary to connect to USB Hosts, such as a smart phone which demands to be USB Host rather than USB Device.

The USB organization has added a standard that addresses the need for devices to act as either USB Host or USB Device and as such can be considered a “dual role” USB controller. It is referred to in USB nomenclature as “On the Go” or “OTG” for short. Any device that meets the OTG standard can act as either USB Host or USB Device and can change roles dynamically. Therefore, one possible approach to modifying the vehicle USB architecture to support all use cases is to upgrade the vehicle’s USB Host to USB OTG. This solution addresses the issue but has some disadvantages. First, USB Hubs do not support OTG and can no longer be used in the system. Each consumer accessible USB port that supports OTG must have a dedicated wire link to a dedicated OTG controller in the Head Unit thus negating the wiring savings associated with use of USB Hubs. As a result several costly cables may need to be added to the vehicle’s electrical system. Second, there may not be enough OTG controllers available in the Head Unit to connect to each of the vehicle’s user accessible USB ports. This then forces the vehicle designer to choose a limited number of the many USB ports in the vehicle to support the OTG function and run dedicated USB cables to them. This can lead to user confusion and dissatisfaction since only certain consumer ports support the required functionality. Also, ports that support OTG may be co-located with other physically identical ports that do not. If the user chooses the wrong one, the applications they desire to run from the consumer device that requires USB Host mode won’t work.

Another possible solution is to implement custom USB hubs wherein the USB Hub is able to dynamically swap its upstream port with one of its downstream ports when commanded to do so. System solutions built with this concept still require OTG controllers in the head unit but benefit from the fact that no additional wires need to be installed in the car. The existing USB cable between the USB OTG Host and the USB Hub can facilitate the necessary USB communications between the USB OTG controller in the Head Unit (HU) and a consumer device in USB Host (such as a smart phone). This solution also has some disadvantages however. For example, when the USB Hub is commanded to swap its upstream port with a downstream port, all other downstream ports of the USB Hubs lose their data connection with the Head Unit. While in this mode the Head Unit access to the other downstream ports of the hub ceases. This may prevent use of certain vehicle system functions such as navigation or audio playback that may need consistent access to the other downstream ports of the hub to function. Furthermore, it requires the HU to have an available USB OTG port and a signaling path to control the hub upstream/downstream port configuration.

Summary

An object of an embodiment of the present invention is to provide a system which is configured to enable a vehicle's embedded USB Host system to connect to mobile devices through a USB Hub, regardless of whether the mobile devices are configured to act as USB Hosts or USB Devices, without the need to provide OTG or dual role controllers in the head unit and without the need to provide additional cabling in the vehicle. Preferably, no hardware changes are required to be made to the USB Host circuits in the HU.

An embodiment of the present invention provides a system which can be employed between a vehicle's embedded USB Host and at least one, but preferably multiple, consumer facing USB ports provided in the vehicle for connection to consumer devices. The system is configured to recognize and control whether the consumer device is required to be connected to each USB port as a USB Host or as a USB Device. Further, the system is able to dynamically switch the device connection between USB Device mode and USB Host mode when desired. In the case where the consumer device is acting as a USB Device, signals are routed normally through a USB Hub to the Head Unit. In the case where the consumer device is acting as a USB Host, signals between the consumer device and the vehicle's embedded USB Host are routed and processed through a USB Host to Host Bridge which is connected to the USB Hub, thereby rendering the consumer device compatible with the vehicle's embedded USB Host.

The present invention is capable of being implemented in several different embodiments. For example, an embodiment of the present invention comprises a USB Hub Module having a USB Hub, USB Bridge, and USB routing switches implemented as discrete devices. The USB Hub upstream port is configured to be connected to a vehicle's embedded USB Host (such as a USB Host in a Head Unit). The USB Hub Module also includes a switching device (such as USB analog multiplexing switches for example) that is configured to route each consumer port to either the Bridge or the Hub. The USB Bridge is configured to effectively control the switching device. The USB Bridge is configured, based on signals from the Head Unit, whether the consumer device which is connected to the USB port is acting as USB Host or USB Device. In the case where the consumer device is acting as USB Host, the USB Bridge controls the switching device to route the USB port to the Bridge. The Bridge processes the signals from the

consumer device and provides them to the USB Hub, thereby rendering the consumer device compatible with the vehicle's embedded USB Host. In the case where the consumer device is acting as USB Device, the USB Bridge controls the switching device such that the switching device provides the signals to the USB Hub, effectively bypassing the Bridge.

- 5 Still another embodiment of the present invention provides that the USB routing logic, USB Bridge, and USB Hub are integrated in a single combination USB Hub/USB Bridge Integrated Circuit (IC).

Still other embodiments are entirely possible, some of which are described and illustrated herein. For example, the concept can be extended to include additional embedded USB Device functions such as USB HID and USB Audio. Further it is also envisioned that all consumer facing USB ports of the Hub Module can emulate or otherwise support dual role USB capability provided that each downstream port has a Bridge to support USB Host mode for the connected device and a direct connection to the USB Hub to support USB Device mode. In all cases, compliance to USB protocols and architectures is preferably maintained.

Brief Description of the Drawings

The organization and manner of the structure and operation of the invention, together with further objects and advantages thereof, may best be understood by reference to the following description taken in connection with the accompanying drawings wherein like
5 reference numerals identify like elements in which:

Figure 1 illustrates a system wherein a multiple port self-powered USB Hub functions to connect a single USB Host to a plurality of USB ports;

Figure 2 illustrates a system wherein a self-powered USB Hub provides not only a plurality of USB ports, but also a Secure Digital (“SD”) card reader;

10 Figure 3 illustrates a vehicle infotainment system structure wherein multiple USB Hubs are connected together or tiered, such that USB Hubs feed other USB Hubs;

Figure 4 illustrates a system which is in accordance with an embodiment of the present invention, wherein a USB Hub, USB Bridge and a switching device are provided as discrete components;

15 Figure 5 illustrates a system which is in accordance with an alternative embodiment of the present invention, wherein USB routing/switching logic and a USB Bridge are integrated with a USB Hub in a combination USB Hub/USB Bridge Integrated Circuit (IC);

Figure 6 illustrates the different components of the combination USB Hub/Bridge IC shown in Figure 5;

20 Figure 7 illustrates one possible endpoint configuration of the USB Bridge shown in Figures 5 and 6; and

Figure 8 illustrates an example implementation of a Head Unit Software Architecture.

Description of Illustrated Embodiments

While this invention may be susceptible to embodiment in different forms, there are specific embodiments shown in the drawings and will be described herein in detail, with the understanding that the present disclosure is to be considered an exemplification of the principles
5 of the invention, and is not intended to limit the invention to that as illustrated.

Figure 4 illustrates a system which is in accordance with an embodiment of the present invention. The system is configured to effectively render a vehicle's embedded USB Host compatible with consumer devices which are configured to also act as USB Host or USB Device. The system is in the form of a self-powered USB Hub Module having a USB, a USB Bridge, and
10 a switching device implemented as discrete devices. The USB Hub is preferably provided in the form of an integrated circuit (IC), and is configured (via an upstream USB port) connected to a vehicle's embedded USB Host (such as a USB Host in a Head Unit) via vehicle internal wiring, such as, in one embodiment, via a single USB data cable between the Head Unit and USB Hub. The USB Hub also includes a plurality of downstream USB ports, at least one of which is
15 connected to a USB Bridge (which also is preferably provided in the form of an integrated circuit (IC)). At least one downstream USB port of the USB Hub is connected to a switching device (such as USB analog multiplexing switches, for example). The switching device is configured to be connected to at least one USB port in the vehicle for connection to a consumer device. The USB Bridge is configured to effectively control the switching device although other control
20 mechanisms are envisioned. The USB Hub Module is configured such that signals received from at least one USB port are received by the switching device, and the switching device routes the signals to the USB Bridge or the USB Hub. In the case where the consumer device is acting as USB Host, the USB Bridge processes the USB packets from the consumer port and provides

them to the USB Hub, thereby rendering the consumer device compatible with the vehicle's embedded USB Host. In the case where the consumer device is acting as USB Device, the USB Bridge controls the switching device such that the switching device provides the USB signaling directly to the USB Hub, bypassing the Bridge.

5 As shown in Figure 4, the system also includes Power Management structure, as well as some other conventional structure not specifically shown in Figure 4, but which would be readily assumed to be present by one having ordinary skill in the art.

 In use, the Head Unit controls the switching device via the USB Bridge hardware or any other convenient means of control. The HU software application may choose to enable, for
10 example, a phone on any one of the consumer USB ports, by requesting, commanding or otherwise knowing the phone is required to be in USB Host mode and commanding the routing of the specific USB port the phone is attached to the USB Bridge. Once routed to the USB Bridge, the phone will detect a USB Device is connected and the phone will begin the standard USB enumeration sequence. The detection and enumeration processes are defined by USB
15 standards and not explained here in detail. However, for purposes of describing the operation of the invention, a general understanding is provided herein. The enumeration process follows a strict sequence of USB descriptor requests from the USB Host and USB descriptor responses from the USB Device that allow the Host to determine the capabilities and functions of the Device and configure the USB Device for operation. Once the complete set of device descriptors
20 are known the USB Host will then load the appropriate USB driver(s) and applications to support in the functionality that the USB Device provides. In the scope of this invention it is envisioned that the responses to the descriptor requests made by the phone (USB Host) are either answered

locally by the Bridge or preferably, the requests are forwarded through the Bridge to the Head Unit where its device drivers process the request and return the response. The descriptor responses from the device driver are conveyed to the USB Bridge, which then, in turn, passes them to the phone. By passing descriptor request to the Head Unit drivers and returning the responses from the Head Unit drivers back to the consumer device, the Bridge appears as a transparent component in the USB system architecture. The system capabilities are controlled by the Head Unit and the system remains flexible without need for changes to the Bridge firmware or hardware when the system designer requires changes to the descriptor responses. Once the consumer device completes the enumeration process, the Head Unit's USB functional capabilities are known to the consumer device and the consumer device may enable use of those functions over USB communication. At this point, the consumer device or the Head Unit may begin activating any number of supported services such as data connections, streaming audio and streaming video to and from the vehicle via the USB Bridge.

Another embodiment of the present invention can be provided, wherein the bridge is configured to act as an OTG port thus negating the need for switches and/or routing logic. In this case there would exist one Bridge functional block for each downstream port. This embodiment would effectively be a more generalized case of the example illustrated in Figure 4. Figure 4 shows just one Bridge that any one of the consumer USB ports can be routed to. With just one bridge, only one consumer USB port can be connected to a USB host at a time. However, if each downstream port of the Hub has a dedicated Bridge, then multiple consumer ports can support connection to USB Host devices at the same time. Thus, any consumer port can be in either USB Host or USB Device mode at any time independently of the others.

Figure 5 illustrates an alternative embodiment wherein the switching device comprises USB routing logic, and both the USB routing logic and the USB Bridge are integrated with the USB Hub in a combination USB Hub/USB Bridge Integrated Circuit (IC). This configuration has cost and size advantages over building it with discrete components connected together on a printed circuit board.

Figure 6 illustrates the internal components of the USB Hub/USB Bridge Integrated Circuit (IC) shown in Figure 5. As shown, preferably the components of the USB Bridge include a bridge controller as well as endpoint buffers. While the exact configuration of endpoints is effectively up to the system designer to choose for a particular need, a specific example of one possible endpoint configuration is shown in Figure 7; however, many others are possible.

As shown in Figure 7, the endpoints of the Bridge may be designed to support multiple pipes of Bulk USB data connections between the Host A (Head Unit) and Host B (consumer device). In the Bridge, the IN endpoints of Device A are connected to the OUT endpoints of Device B and the OUT endpoints of Device A are connected to the IN endpoints of Device B. The design of the Bridge may be such that the data flow between the endpoints may be direct or buffered. For example, in the case of direct connection, once a USB packet is received from Host A on a Device A OUT endpoint, the internal logic of the Bridge moves the packet to the Device B IN endpoint if it is available. If Device B IN endpoint is full or otherwise not available then subsequent attempts of Host A to send more packets to Device A in the Bridge will be rejected until such time that the Device B IN endpoint is clear and the contents of the Device A OUT buffer is moved to it. Alternatively, there may exist a local buffer in the Bridge between the endpoints of Device A and B. For example, packets received on an OUT endpoint of Device

A are placed in a local memory device for temporary storage until Device B IN endpoint is ready for them. The OUT endpoints are thus capable of receiving multiple packets from the Host until the buffer is full. Likewise the IN endpoints may, at times, transmit multiple packets until the buffer is empty. Such buffers are not required, but are envisioned, to improve system throughput performance in certain circumstances where one of the USB Hosts is occasionally busy and not keeping up with USB transactions at the same rate as the other USB Host. Regardless of the buffer configuration, the Bridge hardware has IN and OUT endpoints on Device A mapped to OUT and IN endpoints respectively on Device B, thus forming a bidirectional bridge that passes USB traffic between two USB Hosts with bandwidth sufficient to support the application requirements of the system.

Also shown in Figure 7, Device A and Device B provide a bidirectional Control endpoint connected to their respective USB Hosts. Control endpoints are required per USB standard to support USB defined control messages between the Host and Device both during and after the enumeration sequence. Optionally, USB endpoints may also be utilized per USB standard to employ messages intended to control user defined custom device specific behavior, referred to as Vendor Specific messages. As can be seen in Figure 7, the Control endpoints are mapped to the Bridge Controller (BC). The BC logic may be implemented in hardware or preferably software. The BC provides the capability to send, receive and process USB standard Control endpoint messages as well as vendor specific messages essential to the control and operation of the Bridge. At system startup, the A Host requests and receives descriptors from the BC via the Control endpoint. Once complete, Host A then loads the Bridge Driver in its software stack and configures the custom Bridge hardware for operation. Host A can then control the functions of

the Bridge, such as USB switch routing control. The system is now ready to accept connection with USB Host mode consumer devices on the B Device of the Bridge. When such a connection is made, the BC will notify the Bridge Driver in Host A by sending a message on the control endpoint to Host A. Further, Host B will begin sending descriptor requests on the control

5 endpoint to Device B in Bridge. The BC receives these requests, encapsulates them with information that identifies them as descriptor requests from Host B and passes them to the Bridge Driver on Host using the control endpoint. Host A Bridge Driver receives these requests, identifies them as descriptor requests and passes the requests on to other software components in Host A system and waits for the descriptor responses. The descriptor responses are encapsulated

10 by the Bridge driver to indicate they are descriptor responses that are to be forwarded to Host B. The response is then sent to the BC via the control endpoint. The BC receives them, identifies them as descriptor responses that should be forwarded to Device B and places them on the control endpoint for Device B. This process of receiving and forwarding messages back and forth between the two hosts continues until the enumeration process is complete with Host B.

15 From that point on the two hosts may begin to use the IN and OUT endpoints to transfer application data and services over the bulk endpoints.

Figure 8 illustrates one possible configuration of the system architecture including software components in the Head Unit interfacing with the Bridge/Hub. There are multiple ways that the operating system and software architecture can be constructed to support the functions of

20 the USB Bridge/Hub. In Figure 8, a typical Linux implementation is shown including the Bridge/Hub Module and the Head Unit. The system design utilizes standard Linux Kernel components and configurations and should be familiar to those skilled in the art. The Head Unit

USB Host Controller hardware is driven by the Host Controller Driver. The Host Controller Driver is connected to the USB Core. The USB Core connects the HCD with the standard USB Linux Device Drivers and the custom Bridge Driver. The Bridge Driver is configured to optionally connect directly to the User Space Application software or to the USB Gadget Driver depending on system architecture. The custom Bridge Driver plays a dual role of both controlling the functions of the Bridge hardware as well as providing a data path between the gadget device drivers and applications running on the Head Unit. The architecture illustrated is capable of handling both the operation and data paths associated with the Bridge and the Hub at the same time, thus allowing concurrent operation of consumer devices operating in USB Device mode with consumer devices operating in USB Host mode. In one embodiment, the Hub/Bridge supports simultaneous active USB data connections between the Head Unit and multiple consumer devices, at least one of which being in host mode while the others are in device mode. In another embodiment, the Hub/Bridge supports simultaneous active USB data connections between the Head Unit and some combination of embedded and consumer USB devices along with at least one device being in host mode. While it is understood that the software functions of the head unit are essential to building a complete system, the designs of which can vary significantly and this example is provided only as a means of demonstrating one way to utilize the functionality of the present invention.

What is claimed is:

1. A Universal Serial Bus (USB) hub module, comprising:

a first USB port configured to be connected to a USB host;

a second USB port configured to be connected to a consumer device;

5 a USB hub interconnected to the first USB port and the second USB port;

a USB bridge interconnected to the USB hub; and

a USB routing switch interconnected to the USB bridge, the USB hub, and the second
USB port, wherein the USB routing switch is configured to connect the second USB port to the
first USB port through the USB bridge, thereby supporting bidirectional initiation of

10 communication between the USB host and the consumer device when the consumer device
connected to the second USB port is in a USB host mode and wherein the USB routing switch is
configured to connect the second USB port directly to the first USB port through the USB hub,
thereby supporting only communication initiated by the USB Host when the consumer device
connected to the second USB port is in a USB device mode.

15 2. The USB hub module according to claim 1, wherein the USB routing switch is configured to
connect the second USB port to the first USB port through the USB bridge thereby supporting
bidirectional initiation of communication between the USB host and the consumer device when
the consumer device connected to the second USB port is in the USB host mode and wherein the
USB routing switch is configured to simultaneously connect another second USB port directly to
20 the first USB port through the USB hub, thereby supporting only communication initiated by the
USB Host when another consumer device connected to the another second USB port is in the
USB device mode.

3. The USB hub module according to claim 1, wherein the USB hub module is configured to recognize whether the consumer device connected to the second USB port is in the USB host mode or in the USB device mode and control the USB routing switch accordingly.
4. The USB hub module according to claim 1, wherein the USB hub module is configured to dynamically switch operation of the second USB port between supporting the consumer device in the USB device mode or the USB host mode.
5. The USB hub module according to claim 1, wherein the USB routing switch is configured to connect the consumer device to either the USB bridge or the USB hub based on whether the consumer device attached to the second USB port is configured to act as the USB host or a USB device.
6. The USB hub module according to claim 1, wherein the USB bridge is configured to control the USB routing switch.
7. An integrated circuit, comprising:
- a USB hub configured to be interconnected to a first USB port connected to a USB host and a second USB port connected to a consumer device;
 - a USB bridge interconnected to the USB hub; and
 - a USB routing switch interconnected to the USB bridge, the USB hub, and the second USB port, wherein the USB routing switch is configured to connect the second USB port to the first USB port through the USB bridge thereby supporting bidirectional initiation of communication between the USB host and the consumer device when the consumer device connected to the second USB port is in a USB host mode and wherein the USB routing switch is

configured to connect the second USB port directly to the first USB port through the USB hub, thereby supporting only communication initiated by the USB Host when the consumer device connected to the second USB port is in a USB device mode.

8. The integrated circuit according to claim 7, wherein the USB routing switch is configured to
5 connect the second USB port to the first USB port through the USB bridge thereby supporting bidirectional initiation of communication between the USB host and the consumer device when the consumer device connected to the second USB port is in the USB host mode and wherein the USB routing switch is configured to simultaneously connect another second USB port directly to
10 the first USB port through the USB hub, thereby supporting only communication initiated by the USB Host when another consumer device connected to the another second USB port is in the USB device mode.

9. The integrated circuit according to claim 7, wherein the integrated circuit is configured to recognize whether the consumer device connected to the second USB port is in the USB host mode or in the USB device mode and control the USB routing switch accordingly.

15 10. The integrated circuit according to claim 7, wherein the integrated circuit is configured to dynamically switch operation of the second USB port between supporting the consumer device in the USB device mode or the USB host mode.

11. The integrated circuit according to claim 7, wherein the USB routing switch is configured to connect the consumer device to either the USB bridge or the USB hub based on whether the
20 consumer device attached to the second USB port is configured to act as the USB host or a USB device.

12. The integrated circuit according to claim 7, wherein the USB bridge is configured to control the USB routing switch.

13. A method of operating a USB hub module having a USB hub configured to be interconnected to a first USB port connected to a USB host and a second USB port connected to
5 a consumer device, a USB bridge interconnected to the USB hub, and a USB routing switch interconnected to the USB bridge, the USB hub, and the second USB port, said method comprising the steps of:

determining if the consumer device is operating in a USB host mode or in a USB device mode;

10 connecting the consumer device via the second USB port to the USB hub via the first USB port through the USB routing switch and the USB bridge when the consumer device is determined to be in the USB host mode; and

connecting the consumer device via the second USB port to the USB hub via the first USB port through the USB routing switch and the USB hub thereby bypassing the USB bridge
15 when the consumer device is determined to be in the USB device mode.

14. The method according to claim 13, wherein the step of determining if the consumer device is operating in the USB host mode or in the USB device mode is performed by the USB routing switch.

15. A method of supporting data communication between a USB host and a USB enabled
20 consumer device capable of operating in a USB host mode or a USB device mode, said method comprising the steps of:

providing a USB module having USB communication circuitry;

automatically configuring the USB communication circuitry to allow a consumer device to initiate communication with the USB host when the consumer device is operating in the USB host mode; and

5 automatically configuring the USB communication circuitry to allow only the USB host to initiate communication with the consumer device when the consumer device is operating in the USB device mode.

16. The method according to claim 15, wherein the USB communication circuitry includes a USB hub configured to be interconnected to a first USB port connected to the USB host and a
10 second USB port connected to the consumer device, a USB bridge interconnected to the USB hub, and a USB routing switch interconnected to the USB bridge, the USB hub, and the second USB port, said method further comprising the steps of:

 determining, via the USB routing switch, if the consumer device is operating in the USB host mode or in the USB device mode;

15 connecting the consumer device to the USB hub through the USB routing switch and the USB bridge when the USB routing switch determines the consumer device is in the USB host mode; and

 connecting the consumer device to the USB hub through the USB routing switch and the USB hub thereby bypassing the USB bridge when the USB routing switch determines the
20 consumer device is the USB device mode.

17. A process for providing efficient communications among USB components of a communication system of a type that accommodates multiple USB hosts and multiple USB devices, said process comprising the steps of:

providing a first input port for receiving a first USB signal from a first USB host;

5 providing a second input port for receiving a second USB signal;

routing second USB signals from a second USB host via a USB bridge to said first USB host, and

routing second USB signals from a USB device via a USB hub to said first USB host.

18. The process according to claim 17, wherein said second USB signals from the second USB
10 host are not routed to the first USB host via the USB hub.

19. The process according to claim 17, wherein the second USB signals are routed via only one of the USB bridge or the USB hub.

20. The process according to claim 17, wherein the second USB signals from the second USB host are transmitted to the first USB host via the USB bridge and the USB hub.

15 21. A method, comprising the steps of:

providing a first USB port for communication with a USB host;

providing a second USB port for communicating with a consumer device;

providing a signal detection circuit for receiving signals via said second USB port;

determining whether the signals received via said second USB port emanating from the

20 consumer device indicate that the consumer device is operating in a USB host mode and if so, routing said signals via a USB bridge to said first USB port;

determining whether the signals received via said second USB port emanating from the consumer device indicate that the consumer device is operating in a USB device mode and if so, routing said signals via a USB hub to said first USB port.

22. A USB communication management process for interconnecting sources of USB signals,

5 said process comprising the steps of:

receiving first USB host signals from a first USB host;

receiving second USB signals from a second USB signal source;

determining whether the second USB signals emanate from a second USB host; and

routing the second USB signals emanating from the second USB host via a USB bridge

10 to said first USB host, and

routing the second USB signals not determined to emanate from a USB host via a USB hub to said first USB host.

23. A USB communication management process for interconnecting sources of USB signals,

said process comprising the steps of:

15 receiving a first USB host signal from a first USB host;

receiving a second USB signal from a second USB signal source;

determining whether the second USB signal emanates from a second USB host;

establishing a first communication path via a USB bridge between said first USB host and said second USB signal source if said second signal emanates from the second USB host;

20 and

establishing a second communication path via a USB hub between said first USB host and said second USB signal source if said second USB signal is not determined to emanate from the second USB host.

24. The process according to claim 23, wherein the first communication path does not include a USB hub and wherein the second communication path does not include a USB bridge.

25. A Universal Serial Bus (USB) connectivity module, comprising:
a first USB port;
a second USB port;
a USB host to host bridge connected to said first USB port;
a USB routing switch connected to said first USB port, said second USB port and said USB host to host bridge, wherein said USB routing switch is configured to provide a communication link between said first USB port and said second USB port through said USB host to host bridge when a first consumer device connected to said second USB port is operating in a USB host mode and wherein said USB routing switch is configured to provide another communication link between said first USB port and said second USB port that bypasses said USB host to host bridge when the first consumer device connected to said second USB port is operating in a USB device mode.

26. The USB connectivity module according to claim 25, further comprising a third USB port, wherein said USB routing switch is configured to provide a first communication link between said first USB port and said second USB port through said USB host to host bridge when the first consumer device connected to said second USB port is operating in the USB host mode and

wherein said USB routing switch is configured to provide simultaneously provide a second communication link between said first USB port and said third USB port that bypasses said USB host to host bridge when a second consumer device connected to said third USB port is operating in the USB device mode.

5 27. The USB connectivity module according to claim 25, further comprising a third USB port, wherein said USB routing switch is further connected to the third USB port, wherein said USB routing switch is configured to provide a first communication link between said first USB port and said second USB port through said USB host to host bridge when the first consumer device connected to said second USB port is operating in the USB host mode, and wherein said USB
10 routing switch is configured to provide a second communication link between said first USB port and said third USB port that bypasses said USB host to host bridge when a second consumer device connected to said third USB port is operating in the USB device mode without interrupting the first communication link between said first USB port and said second USB port.

28. A communication system, comprising:

15 a USB hub including a first USB port and a second USB port;
 a central vehicle microcontroller connected to said first USB port;
 a first consumer device connected to said second USB port;
 a USB host to host bridge connected to said first USB port;
 a USB routing switch providing a first communication path between said second USB
20 port and said USB host to host bridge and a second communication path between said second USB port and said first USB port that bypasses said USB host to host bridge, wherein said USB routing switch is adapted to enable said first communication path when the first consumer device

is connected to said second USB port and is operating in a USB host mode and wherein said USB routing switch is adapted to enable said second communication path when the first consumer device is connected to said second USB port and is operating in a USB device mode.

29. The communication system according to claim 28, further comprising a second consumer
5 device, wherein the USB hub includes a third USB port and wherein the USB routing switch is further adapted to enable a third communication path between said third USB port and said first USB port that bypasses said USB host to host bridge when the second consumer device is connected to said third USB port and is operating in the USB device mode.

30. The communication system according to claim 29, wherein said USB routing switch is
10 configured to simultaneously provide the second communication path between said first USB port and said third USB port without interrupting the first communication path between said first USB port and said second USB port.

Abstract

A system which is configured to enable a vehicle's embedded USB Host system to connect to multiple mobile devices through a USB Hub, regardless of whether the mobile devices are configured to act as USB Hosts or USB Devices, without the need to add or provide

5 OTG controllers in the system or additional vehicle wiring, or inhibiting the functionality of any consumer devices operating in USB Device mode connected to a vehicle system Hub while another consumer device connected to the same Hub operates in USB Host mode. Preferably, the system is configured to provide that no additional cabling is required, and no hardware changes are required to be made to the HU. The system can be employed between a vehicle's

10 embedded USB Host, USB Hub and at least one consumer accessible USB port. In the case where the consumer device is acting as a USB Host, signals between the consumer device and the vehicle's embedded USB Host are processed through a bridge, thereby rendering the consumer device compatible with the vehicle's embedded USB Host.

This Acknowledgement Receipt evidences receipt on the noted date by the USPTO of the indicated documents, characterized by the applicant, and including page counts, where applicable. It serves as evidence of receipt similar to a Post Card, as described in MPEP 503.

New Applications Under 35 U.S.C. 111

If a new application is being filed and the application includes the necessary components for a filing date (see 37 CFR 1.53(b)-(d) and MPEP 506), a Filing Receipt (37 CFR 1.54) will be issued in due course and the date shown on this Acknowledgement Receipt will establish the filing date of the application.

National Stage of an International Application under 35 U.S.C. 371

If a timely submission to enter the national stage of an international application is compliant with the conditions of 35 U.S.C. 371 and other applicable requirements a Form PCT/DO/EO/903 indicating acceptance of the application as a national stage submission under 35 U.S.C. 371 will be issued in addition to the Filing Receipt, in due course.

New International Application Filed with the USPTO as a Receiving Office

If a new international application is being filed and the international application includes the necessary components for an international filing date (see PCT Article 11 and MPEP 1810), a Notification of the International Application Number and of the International Filing Date (Form PCT/RO/105) will be issued in due course, subject to prescriptions concerning national security, and the date shown on this Acknowledgement Receipt will establish the international filing date of the application.

INFORMAL NOTICE

Date Mailed: 09/30/2016

INFORMATIONAL NOTICE TO APPLICANT

Applicant is notified that the above-identified application contains the deficiencies noted below. No period for reply is set forth in this notice for correction of these deficiencies. However, if a deficiency relates to the inventor's oath or declaration, the applicant must file an oath or declaration in compliance with 37 CFR 1.63, or a substitute statement in compliance with 37 CFR 1.64, executed by or with respect to each actual inventor no later than the expiration of the time period set in the "Notice of Allowability" to avoid abandonment. See 37 CFR 1.53(f).

The item(s) indicated below are also required and should be submitted with any reply to this notice to avoid further processing delays.

- A properly executed inventor's oath or declaration has not been received for the following inventor(s):
Robert M. Voto
Shyambabu Yeda
Craig Allan Petku

Questions about the contents of this notice and the requirements it sets forth should be directed to the Office of Data Management, Application Assistance Unit, at (571) 272-4000 or (571) 272-4200 or 1-888-786-0101.

Receipt is acknowledged of this non-provisional patent application. The application will be taken up for examination in due course. Applicant will be notified as to the results of the examination. Any correspondence concerning the application must include the following identification information: the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. **If an error is noted on this Filing Receipt, please submit a written request for a Filing Receipt Correction. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections**

FLEXIBLE MOBILE DEVICE CONNECTIVITY TO AUTOMOTIVE SYSTEMS WITH UBS HUBS

Preliminary Class

710

Statement under 37 CFR 1.55 or 1.78 for AIA (First Inventor to File) Transition Applications: No

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4258).

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

SelectUSA

The United States represents the largest, most dynamic marketplace in the world and is an unparalleled location for business investment, innovation, and commercialization of new technologies. The U.S. offers tremendous resources and advantages for those who invest and manufacture goods here. Through SelectUSA, our nation works to promote and facilitate business investment. SelectUSA provides information assistance to the international investor community; serves as an ombudsman for existing and potential investors; advocates on behalf of U.S. cities, states, and regions competing for global investment; and counsels U.S. economic development organizations on investment attraction best practices. To learn more about why the United States is the best country in the world to develop technology, manufacture products, deliver services, and grow your business, visit <http://www.SelectUSA.gov> or call +1-202-482-6800.

**TERMINAL DISCLAIMER TO OBTAIN A DOUBLE PATENTING
REJECTION OVER A "PRIOR" PATENT**Docket Number (Optional)
DP-322037 CON

In re Application of: Robert M. Voto, et al.

Application No.: 15/268,728

Filed: 09-19-2016

For: FLEXIBLE MOBILE DEVICE CONNECTIVITY TO AUTOMOTIVE SYSTEMS WITH USB HUBS

The owner*, Delphi Technologies, Inc., of 100 percent interest in the instant application hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the instant application which would extend beyond the expiration date of the full statutory term **prior patent** No. 9,460,037 as the term of said prior patent is defined in 35 U.S.C. 154 and 173, and as the term of said **prior patent** is presently shortened by any terminal disclaimer. The owner hereby agrees that any patent so granted on the instant application shall be enforceable only for and during such period that it and the **prior patent** are commonly owned. This agreement runs with any patent granted on the instant application and is binding upon the grantee, its successors or assigns.

In making the above disclaimer, the owner does not disclaim the terminal part of the term of any patent granted on the instant application that would extend to the expiration date of the full statutory term as defined in 35 U.S.C. 154 and 173 of the **prior patent**, "as the term of said **prior patent** is presently shortened by any terminal disclaimer," in the event that said **prior patent** later:

expires for failure to pay a maintenance fee;
is held unenforceable;
is found invalid by a court of competent jurisdiction;
is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321;
has all claims canceled by a reexamination certificate;
is reissued; or
is in any manner terminated prior to the expiration of its full statutory term as presently shortened by any terminal disclaimer.

Check either box 1 or 2 below, if appropriate.

1. ☐ For submissions on behalf of a business/organization (e.g., corporation, partnership, university, government agency, etc.), the undersigned is empowered to act on behalf of the business/organization.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

2. ☒ The undersigned is an attorney or agent of record. Reg. No. 69,783

- ☒ Terminal disclaimer fee under 37 CFR 1.20(d) included.

WARNING: Information on this form may become public. Credit card information should not be included on this form. Provide credit card information and authorization on PTO-2038.

*Statement under 37 CFR 3.73(b) is required if terminal disclaimer is signed by the assignee (owner).
Form PTO/SB/96 may be used for making this certification. See MPEP § 324.

This collection of information is required by 37 CFR 1.321. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to take 12 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. **SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.**

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

Privacy Act Statement

The **Privacy Act of 1974 (P.L. 93-579)** requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether disclosure of these records is required by the Freedom of Information Act.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (*i.e.*, GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspection or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

This collection of information is required by 37 CFR 1.97 and 1.98. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 1 hour to complete, including gathering, preparing and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. **DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.**

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether the Freedom of Information Act requires disclosure of these records.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspections or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

Abstract of JP2003256351 (A)

PROBLEM TO BE SOLVED: To provide an USB hub, in which a plurality of host computers is capable of jointly owning peripheral equipment and switching operations are needless. **SOLUTION:** The USB hub comprises; a plurality of connecting ports 2 capable of connecting with a plurality of host computers 21 to 24 that packet-transmit and receive data assigned addresses; a plurality of connecting ports 3 capable of connecting with a plurality of peripheral equipment 25 to 28 that packet-transmit and receive data assigned addresses; FIFO memories 11 and 17 temporarily storing packet data inputted from the ports 2 and 3; and a control circuit C establishing connection between the host computers 21 to 24 and peripheral equipment 25 to 28 and controlling transmission of data at the basis of address information of the peripheral equipment 25 to 28 added to the packet data stored in the FIFO memories 11 and 17. **COPYRIGHT: (C)2003,JPO**

(54)【発明の名称】 USBハブ

(57)【要約】

【課題】 複数のホストコンピュータが周辺機器を共有することができ、かつ切替操作が不要なUSBハブを提供する。

【解決手段】 アドレスを割り当てられデータをパケット送受信する複数台のホストコンピュータ21-24を接続可能とした複数個の接続ポート2と、アドレスを割り当てられデータを送受信する複数台の周辺機器25-28を接続可能とした複数個の接続ポート3と、これらのポート2, 3から入力されるパケットデータを一時保持するFIFOメモリ11, 17と、このFIFOメモリ11, 17に保持されたパケットデータに付加された前記周辺機器25-28のアドレス情報に基づき、ホストコンピュータ21-24と前記周辺機器25-28との間の接続を確立しデータの転送を制御する制御回路Cとを備えた。

【特許請求の範囲】

【請求項1】 アドレスを割り当てられバケットデータを送受信する複数台のホストコンピュータを接続可能とした複数個の第1ポートと、

アドレスを割り当てられバケットデータを送受信する複数台の周辺機器を接続可能とした複数個の第2ポートと、

これらの第1ポート及び第2ポートから入力される前記バケットデータを一時保持するFIFOメモリと、
このFIFOメモリに保持されたバケットデータに付加された前記周辺機器のアドレス情報に基づき、前記ホストコンピュータと前記周辺機器との間の接続を確立しデータの転送を制御する制御回路とを備えたことを特徴とするUSBハブ。

【請求項2】 前記FIFOメモリは、前記ホストコンピュータごとに設けられた請求項1に記載のUSBハブ。

【請求項3】 前記FIFOメモリは、前記周辺機器ごとに設けられた請求項1又は2に記載のUSBハブ。

【請求項4】 前記制御回路は、前記周辺機器の1つに対し2台以上の前記ホストコンピュータからデータの送信又は受信の要求があった場合に、前記ホストコンピュータのうちの1つと前記周辺機器の1つとの間の接続を確立させ、他のホストコンピュータからのデータは接続中の前記ホストコンピュータでのデータの送信又は受信が完了するまで前記FIFOメモリに一時保持させるようにした請求項1乃至3のいずれか1項に記載のUSBハブ。

【発明の詳細な説明】

【0001】

【発明の属する技術分野】本発明は、USB (Universal Serial bus) インターフェースに対応した各種周辺機器を複数接続するためのUSBハブに関し、さらに詳しくは、周辺機器だけでなく複数台のコンピュータを接続できるように構成したUSBハブに関する。

【0002】

【従来の技術】近年、コンピュータと周辺機器とを接続するインターフェースの方式として、USB規格のインターフェースが広く採用されている。コンピュータの電源を入れた状態で接続しても周辺機器の認識が可能であること（ホットプラグ）、階層的な接続をすることにより最大127個まで周辺機器を接続可能であるなど、コンピュータの利便性を向上させるのに役立っている。また、このようなUSB対応機器を複数同時に接続するための装置として、いわゆるUSBハブも普及している。

【0003】

【発明が解決しようとする課題】しかし、USBインターフェースが複数台のホストコンピュータの存在を許さない規格となっていることから、USBハブ自体も、単一のコンピュータのみが接続可能になっている。このた

め、複数のPCで1つの周辺機器を共有することは、USBハブによっては困難であった。この点、特開2001-51939号公報に記載されたUSBハブは、複数のホストコンピュータを選択的に周辺機器に接続する切替回路を備えており、これにより複数のホストコンピュータを同時に接続可能にしている。しかし、この構成では、複数のホストコンピュータが同時に周辺機器を利用することはできないし、周辺機器の使用を許可するホストコンピュータを切り換える際には逐一切替回路を動作させなければならない。また、切替を行う度に周辺機器のデバイスドライバをロード、アンロードしなければならないことから、切り替えに長い時間を要することになる。この発明は、上述した問題点に鑑みてなされたものであり複数のコンピュータが周辺機器を共有することができ、かつ切替操作が不要なUSBハブを提供することを目的とする。

【0004】

【課題を解決するための手段】上記目的達成のため、本発明に係るUSBハブは、アドレスを割り当てられバケットデータを送受信する複数台のホストコンピュータを接続可能とした複数個の第1ポートと、アドレスを割り当てられバケットデータを送受信する複数台の周辺機器を接続可能とした複数個の第2ポートと、これらの第1ポート及び第2ポートから入力される前記バケットデータを一時保持するFIFOメモリと、このFIFOメモリに保持されたバケットデータに付加された前記周辺機器のアドレス情報に基づき、前記ホストコンピュータと前記周辺機器との間の接続を確立しデータの転送を制御する制御回路とを備えたことを特徴とする。

【0005】この発明によれば、制御回路により、送信元のホストコンピュータ（又は周辺機器）と送信先の周辺機器（又はホストコンピュータ）との間の接続が前記アドレス情報に基づいて確立されるので、USBインターフェースの下でも複数のホストコンピュータの存在が可能となる。また、接続の確立、解除するごとに逐一デバイスドライバをロード、アンロードする煩わしさが無い。

【0006】この発明において、前記FIFOメモリは、前記ホストコンピュータごとに設けるのが好適である。さらに、前記FIFOメモリは、前記周辺機器ごとに設けるのが好適である。また、前記制御回路は、前記周辺機器の1つに対し2台以上の前記ホストコンピュータからデータの送信又は受信の要求があった場合に、前記ホストコンピュータのうちの1つと前記周辺機器の1つとの間の接続を確立させ、他のホストコンピュータからのデータは接続中の前記ホストコンピュータでのデータの送信又は受信が完了するまで前記FIFOメモリに一時保持させるようにするとよい。このようにすることにより、複数のホストコンピュータからのデータが衝突することが回避される。

【0007】

【発明の実施の形態】次に、本発明の実施の形態を、図面に基づいて説明する。図1は、本発明の実施の形態に係るUSBハブ1と、このUSBハブ1に接続された複数のホストコンピュータ（以下ホストPCという）21-24及び周辺機器（図1では、プリンタ25、スキャナ26、ハードディスクドライブ27、CD-ROMドライブ28としている）を示している。

【0008】USBハブ1は、複数のホスト側接続ポート2（2-1、2-2、2-3、2-4）と、複数の周辺機器側接続ポート3（3-1、3-2、3-3、3-4）と、複数のホスト側FIFOメモリ11（11-1、11-2、11-3、11-4）と、バス12と、ハブリビータ13と、コントローラ14と、CPU15と、バス16と、複数の周辺機器側FIFOメモリ17（17-1、17-2、17-3、17-4）とを備えている。

【0009】ホスト側接続ポート2-1、2-2、2-3、2-4は、それぞれホストPC21、22、23、24をUSBハブ1に対しUSB接続するためのものである。また、周辺機器側接続ポート3-1、3-2、3-3、3-4は、それぞれ周辺機器としてのプリンタ21、スキャナ22、HDDドライブ23、CD-ROMドライブ24をUSBハブ1に対しUSB接続するためのものである。ホスト側FIFOメモリ11-1、11-2、11-3、11-4は、それぞれホスト側接続ポート2-1、2-2、2-3、2-4に接続されており、それぞれホストPC21-24から周辺機器25-28側に送信されるパケットデータ、及び周辺機器25-28側からホストPC21-24側へ転送されるパケットデータを一時保持する役割を有する。

【0010】バス12は、データを伝送するための通信経路である。ハブリビータ13、ハブコントローラ14、CPU15とは、全体としてホストPC21-24と周辺機器25-28との間のデータ伝送を制御する制御回路Cとして機能する。制御回路Cは、ホストPC21-24の1つから周辺機器25-28の1つに対しデータ転送の要求があった場合、その周辺機器の使用状況をチェックし、その周辺機器が使用可能である場合に当該ホストPCと周辺機器との間の接続をセットアップし、データ転送終了後接続を解除するなどの機能を有する。接続のセットアップは、要求元のホストPCと要求先の周辺機器との間で1対1に行われるので、要求先が重複しない限り、複数のホストPCが同時に周辺機器にアクセスすることが可能となっている。

【0011】ハブリビータ13は、ホストPC21-24と周辺機器25-28との間の接続をセットアップ又は解除する機能を有する部分であり、また、ハブコントローラ14は、ホストPC21からUSBハブ1へのデータ伝送を行うためのメカニズムを提供する部分であ

る。また、CPU15は、USB規格に基づいたパケットデータのトラフィック制御及びデータ管理を行う。バス16は、データを伝送するための通信経路である。周辺機器側FIFOメモリ17-1、17-2、17-3、17-4は、それぞれ周辺機器側接続ポート3-1、3-2、3-3、3-4に接続されており、制御回路Cから周辺機器25-28に出力されるべきパケットデータ、及び周辺機器25-28からホストPC21-24側へ転送されるパケットデータを一時保持する役割を有する。

【0012】次に、本実施の形態に係るUSBハブ1の作用を、図面に基づいて説明する。以下では、ホストPC21-24から周辺機器25-28へデータを送信する場合と、逆に周辺機器25-28からホストPC21-24にデータ送信する場合とで分けて説明する。

【0013】まず、ホストPC21-24から周辺機器25-28へデータを送信する場合を、図2に示すフローチャートに基づいて説明する。この場合、最初にデータ送信を希望するホストPCが、送信を希望するパケットデータDATA及びout-token/packetを出力する（S1）。ここでは、ホストPC21からプリンタ25へデータが出力されるものとする。パケットデータDATAのヘッダには、送信先のプリンタ25のアドレスが付加されている。out-token/packetは、ホストPCが周辺機器へデータ転送を指示する場合に出力されるコマンド/packetであり、そのヘッダには送信先の周辺機器（この場合プリンタ25）のアドレスが付加されている。

【0014】次に、S2において、このパケットデータDATA及びout-token/packetが、ホスト側FIFOメモリ11-1に一時記憶される。CPU14は、このパケットデータDATAに付加されたプリンタ25のアドレスデータを取得する。次に、S3において、CPU15は、取得されたアドレスデータに係る周辺機器即ちプリンタ25が使用可能か否かをチェックする。すなわち、他のホストPC22-24との間でデータを伝送している途中であるか否かをチェックする。プリンタ25が使用不可能であれば、CPU15はホストPC15にデータの送受信が正常に行われなかったときに発行されるハンドシェイクパケットNAKを出力し（S4）、処理はS1に戻る。

【0015】プリンタ25が使用可能であれば、CPU15は、ハブリビータ13に命令してホストPC21とプリンタ25との間の接続をセットアップさせると共に、ハブコントローラ14に命令して、ホスト側FIFOメモリ11-1に保持されたパケットデータDATA及びout-token/packetを周辺機器側FIFOメモリ17-1へ向けて出力させる（S5）。

【0016】次に、CPU15は、周辺機器側FIFOメモリ17-1に保持されたout-token/packetをプリンタ25に向けて出力させる（S6）。プリンタ25が

このout-token/パケットを受信しなかった場合 (S7のN) には、CPU15はプリンタ25からNAK信号を受け取り、ホスト側FIFOメモリ11-1にこのNAK信号を送信し、S6に戻る (S7)。

【0017】プリンタ25がこのout-token/パケットを受け取った場合 (S7のY)、パケットデータDATAが周辺機器側FIFOメモリ17-1からプリンタ25に向けて転送される。転送が完了すると、ハンドシェイクパケットACK (データの送受信が正常に行われたことを示す) がプリンタ25から周辺機器側FIFOメモリ11-1に出力される (S9)。ハンドシェイクパケットACKは周辺機器側FIFOメモリ17-1に送られ、さらにホストPC21に受信され、これによりデータの送信手順が終了する (S10)。このように、あるホストPCが1つの周辺機器 (例えばプリンタ25) にアクセスしている場合において、他のホストPCが当該周辺機器アクセスを要求した場合には、NAK信号の出力により先行のホストPCでの送受信が完了するまで他方のホストPCのデータはFIFOメモリ11により一時保持される。これにより、各ホストPCのデータの衝突が回避されている。

【0018】次に、周辺機器25-28からホストPC21-24にデータ送信する場合を図3に示すフローチャートに基づいて説明する。ここでは、CD-ROMドライブ25からホストPC22へデータが出力されるものとする。この場合、最初にデータ受信を希望するホストPC22が、in-token/パケットを出力する (S11)。このin-token/パケットは、周辺機器25-28側からホストPC21-24側へデータの転送を指示するためのコマンドパケットであり、そのヘッダには送信先の周辺機器 (ここではCD-ROMドライブ28) のアドレスが付加されている。

【0019】次に、S12において、このin-token/パケットが、ホスト側FIFOメモリ11-2に一時記憶される。CPU14は、このin-token/パケットに付加されたCD-ROMドライブ28のアドレスデータを取得する。次に、S13において、CPU15は、取得されたアドレスデータに係る周辺機器即ちCD-ROMドライブ28が使用可能か否かをチェックする。すなわち、他のホストPC22-24との間でデータを伝送している途中であるか否かをチェックする。

【0020】CD-ROMドライブ25が使用不可能であれば (S13のN)、CPU15はホストPC22にデータの送受信が正常に行われなかったときに発行されるハンドシェイクパケットNAKを出力し (S14)、処理はS11に戻る。

【0021】CD-ROMドライブ25が使用可能であれば (S13のY)、CPU15は、ハブリビータ13に命令してホストPC22とCD-ROMドライブ28

との間の接続をセットアップさせると共に、ハブコントローラ14に命令して、ホスト側FIFOメモリ11-2に保持されたin-token/パケットを周辺機器側FIFOメモリ17-4へ向けて出力させる (S15)。

【0022】次に、CPU15は、周辺機器側FIFOメモリ17-4に保持されたin-token/パケットをCD-ROMドライブ28に向けて出力させる (S16)。CD-ROMドライブ28がこのin-token/パケットを受信しなかった場合 (S17のN) には、CPU15はCD-ROMドライブ28からNAK信号を受け取り、ホスト側FIFOメモリ11-2にこのNAK信号を送信し (S18)、S16に戻る。

【0023】CD-ROMドライブ28がこのin-token/パケットを受け取った場合 (S17のY)、CD-ROMドライブ28のデータDATAが、周辺機器側FIFOメモリ17-4、制御回路C及びホスト側FIFOメモリ17-2を経てホストPC22に向けて転送される (S19)。ホストPC22は、データ受信に成功したら、ハンドシェイクパケットACKをCD-ROMドライブ28に向けて出力し (S20)、これによりデータの受信手順が終了する (S21)。

【0024】

【発明の効果】以上説明したように、本発明によれば、複数のホストコンピュータが周辺機器を共有することができ、かつ切替操作が不要となり、ネットワーク環境を簡単に提供することができる。

Priority number (s): TW20000104360 20000310

Abstract of TW470887 (B)

There are provided an USB hub having multiple upstream ports and capable of switching between different hosts and a computer system using the USB hub. According to the requests of different computer hosts or the selection of manual switch, the usage right is switched to a computer host that requires using an USB hub, so that the computer host can control the data access of all the USB devices connected to the downstream port of the USB hub. The present invention can select and switch the computer host via the control of computer software, and achieve an automatic switching function. Furthermore, the software can determine whether the USB device currently in use is allowed to be switched, so as to avoid influencing its application function. Also, the function of the conventional data converter is integrated with the USB hub to effectively save the cost without having over-long cable and avoid switching noise. In addition, based on the number of the downstream ports of the USB hub, it is able to switch and use multiple USB devices.

五、發明說明(/)

本發明是有關於一種 USB 集線器，且特別是有關於一種具有多個上傳埠並可在不同主機間切換之 USB 集線器及使用該 USB 集線器之電腦系統，其可依據不同電腦主機之要求與手動切換之選擇，在適當時機將其使用權切換給需使用 USB 集線器之電腦主機，使電腦主機可控制所有接在 USB 集線器之下傳埠的 USB 裝置資料存取。

自從 IBM 公司發展出 PC XT 及 PC AT 的個人電腦之後，和 IBM PC 相容的個人電腦即被全世界普遍使用。在這期間，因為半導體技術的進步，使個人電腦的功能越來越強，同時可用的設備也越來越多，例如：圖形化的作業系統的普及，滑鼠(Mouse)已是必備的設備，為了將資料印出，印表機幾乎也是必備的，網際網路(Internet)的發達，在家中的使用者都需使用數據機(MODEM)來連接網路，而為了避免電腦當機使工作成果付諸流水，會準備大容量的備份裝置定時備資料，或是想將圖形存入電腦，掃描器(Scanner)亦是普遍被使用的設備。

以上所提及的設備在個人電腦發展出來之後，陸續發展出來，直到目前，已是非常普遍，甚至是必備的設備。但是因為每一項設備發展的目的不同，所處的環境亦不同，所以在設計時，依不同的考量而使用不同的介面。到了現在，在一部個人電腦若要使用前面所提的各項設備，電腦後面的連線將是非常可觀的，因為幾乎每種設備都使用不同的介面，有些介面目前已是個人電腦的標準配備，如連接滑鼠的 RS232 串列介面，或是連接印表機的並列介

五、發明說明(2)

面。但是有些介面則需另外安裝介面卡，例如連接大容量備份裝置大都使用 SCSI(Small Computer System Interface)介面，SCSI 介面即需另外安裝介面卡。又，有些設備更是使用專有的介面，如有些掃描器即是使用特殊的專有介面，必需安裝專屬的介面卡才可使用。因此在個人電腦中，必需提供許多插槽(Slot)以供安裝各種介面卡，而完成整個系統的連線之後，電腦後面的連線亦是十分可觀，並且凌亂無比。

由於上述的情況，乃發展出通用串列匯流排(Universal Serial Bus：以下簡稱 USB)介面的規格，其係為一新興起之傳輸協定，USB 意圖將週邊至主機系統之傳輸方式統一化，使得未來週邊與主機之連結方式都透過 USB，以方便使用者連結各週邊與主機系統。

USB 希望各種設備都可使用統一的介面來連接，可簡化系統的安裝，並且電腦內部亦不需要預留太多的空間來安裝各種特殊的介面卡，另外 USB 介面亦有隨插即用(Plug & Play)的功能，即個人電腦可以自動偵測所連接的設備，並安裝相關的驅動程式(Driver)供使用者使用。此外，USB 介面的規格，具有線上即插即用(Hot Plug-in)的功能，可以在電腦運作當中，將設備連接上去，電腦主機皆可以自動偵測並安裝相關的程式，無需經過關機再重新開機的步驟，隨即可讓使用者使用新連上的週邊設備。同樣地，在週邊設備移除時，電腦主機亦可自動偵測並將相關的程式移除，以免使用者執行相關程式而產生錯誤。

五、發明說明(3)

一般來說，一個 USB 系統只能有一個主控器(master)，其他所有週邊裝置都是附屬器(slave)，通常個人電腦(PC)中之 USB 主機控制器(Host Controller)是唯一的主控器，並掌控所有資料之傳輸。主機控制器使用表徵(tokens)及指令(commands)，USB 定義為 Requests 來控制主控器(PC)與附屬器(週邊裝置)間資料之接收與傳送。

USB 集線器(Hub)界於 USB 主機控制器與週邊裝置(USB 裝置)之間為星形拓撲(star topology)中，用以擴展週邊之關鍵組件，所有的 USB 裝置(device)或節點(node)例如鍵盤、滑鼠、印表機...等都必須接在集線器之下傳埠(downstream port)或是被整合在集線器中。通常集線器擁有一上傳埠(upstream port)接至上一層集線器或主機控制器之根部節點集線器(root Hub)，另有一個以上(含一個)之下傳埠用以擴充 USB 之裝置節點。

集線器提供兩個主要的功能，一是中繼器(Repeater)：用以將主機下傳的資料廣播(broadcast)至所有致能埠上之 USB 裝置，然後將 USB 裝置上傳的資料重覆於上傳埠送至主機；另一是連接(connection)與斷絕(disconnection)之偵測：集線器必須對 USB 裝置之熱拔插做偵測，並報告給主機以達到主機熱即插即用(Hot Plug & Play)之功能。

請參照第 1 圖與第 2 圖，其分別繪示的是習知一種電腦系統的連接示意圖。

如第 1 圖與第 2 圖所示，所有的 USB 裝置 14a~14n 分別連接在對應之集線器 12a~12f 的下傳埠 16a~16n 或是被整

五、發明說明(4)

合在集線器(如第 2 圖之組合元件 20)中。集線器 12a~12f 分別擁有一上傳埠 18a~18f，並分別連接至上一層集線器或 USB 主機控制器 10 或電腦主機之根部節點集線器(root Hub)11。

由第 1 圖與第 2 圖可得知，由於個人電腦中之 USB 主機控制器控制所有 USB 裝置與個人電腦間資料之傳輸，所以對任一 USB 裝置而言，其只能被唯一之個人電腦使用，當有另一個人電腦欲透過 USB 匯流排使用此 USB 裝置時，必須重新將此 USB 裝置插入另一個人電腦之根部節點集線器或外部集線器之下傳埠，由此個人電腦取得 USB 裝置之控制權方能使用。

為了解決上述問題，目前市面上的解決方法為提供一轉換盒(switch box)，以手動方式來切換 USB 裝置接上被選擇之個人電腦，此種解決方案之電腦系統的連接示意圖如第 3 圖所示，包括個人電腦 21 與 22、轉換盒 24 及 USB 裝置 26。舉例來說，USB 裝置 26 目前是被個人電腦 21 所使用，假如個人電腦 22 欲使用 USB 裝置 26 時，必須以手動方式切換轉換盒 24 上之開關，使 USB 裝置 26 透過轉換盒 24 連接至個人電腦 22，此時個人電腦 22 即可使用 USB 裝置 26。然而，依照第 3 圖所示之架構及其切換方法，具有以下的缺點：

1. 人為切換不方便。
2. 無法判斷切換之適當時機，有可能影響正在使用此 USB 裝置之應用軟體功能。

五、發明說明(5)

3. 必須使用額外的轉換盒，成本高。
4. 延長電纜(cable)與使用過多的插座插頭，易產生雜訊。
5. 違反 USB 規格，有可能使 USB 裝置至集線器之電纜路徑超過 5 公尺。
6. 只能切換使用單一 USB 裝置。

請參照第 4 圖，其繪示的習知一種電腦系統的連接示意圖，包括個人電腦 31 與 32、資料轉換器(data switcher)34 及 USB 裝置 36a~36c。

第 4 圖與第 3 圖之最大不同點在於，透過第 4 圖之資料轉換器 34，可一次將連接於資料轉換器 34 上之多台 USB 裝置 36a~36c 切換給單一個人電腦使用。然而，必須注意的是，當資料轉換器 34 只連接這三台 USB 裝置 36a~36c 時，個人電腦 31 與 32 就分別必須使用三條 USB 電纜 37a~37c 與 38a~38c 來連接至資料轉換器 34。假如連接資料轉換器 34 之 USB 裝置的數量很多時，此時個人電腦 31、32 與資料轉換器 34 間之 USB 電纜的使用數量勢必非常可觀。

有鑒於此，本發明提出一種具有多個上傳埠並可在不同主機間切換之 USB 集線器，包括多數個上傳埠、多數個下傳埠、連結佈線器、轉換控制器與傳統 USB 集線器。這些上傳埠分別用以提供實際之連結至不同之電腦主機中，而所有下傳埠分別用以提供實際之連結至不同之 USB 裝置中。連結佈線器連接至所有上傳埠其中含有指令解譯器(74)

五、發明說明(6)

和多工器(72)，指令解譯器用以解碼來自個別電腦主機送來的指令，並回應相關的資料給電腦主機，同時送出解析後之結果訊號給轉換控制器(52)。轉換控制器(52)依據此控制訊號切換多工器(72)使其選擇指令所指定之上傳埠連接至USB集線器(54)之集線器中繼器(60)，其中被切換連接至集線器中繼器(60)之上傳埠係為集線器埠，其他未連接者則為裝置埠，而集線器埠所接之電腦主機擁有USB集線器之控制權，並控制所有接在USB集線器之下傳埠的USB裝置資料存取。轉換控制器連接所有上傳埠與連結佈線器，用以依據指令解析之結果訊號與手動開關來切換多工器，轉換控制器並於多工器切換完成後，送一開關控制訊號至所有上傳埠(46a~46n)，此控制訊號使上傳埠之電阻(64)先開路(open)再閉路(close)，而造成先斷絕再連接之機制，使連接上傳埠之主機分別對新的集線器埠和其他裝置埠重新認定，其中只有接在集線器埠的主機認定其下接有集線器並可使用此集線器下之裝置，其他接在裝置埠之主機認定其下接一單純之USB裝置用以傳送要求使用集線器之指令至連結佈線器(50)。

此外，本發明提出一種電腦系統，包括多數台電腦主機、多數台USB裝置與一USB集線器。上述USB集線器具有數個上傳埠與數個下傳埠，各上傳埠分別連接至各電腦主機中，以及各下傳埠分別連接至各USB裝置中，且USB集線器用以上傳由各USB裝置送來的資料及下傳由各電腦主機送來的資料。其中，在正常操作下，僅有一台電

五、發明說明(7)

腦主機具有 USB 集線器之使用權，代表此電腦主機可控制所有接在 USB 集線器之下傳埠的 USB 裝置資料存取。當有另一台電腦主機送出集線器要求指令給 USB 集線器，要求使用 USB 集線器及控制 USB 集線器下接之 USB 裝置時，USB 集線器會進入集線器仲裁狀態，並在適當時機後將其使用權轉交給此另一台電腦主機，此時該另一台電腦主機即具有 USB 集線器之使用權，並可控制所有接在 USB 集線器之下傳埠的 USB 裝置資料存取，達到不同電腦主機切換使用 USB 集線器之目的。另，USB 集線器可具有手動切換開關，經由控制此手動切換開關也可達到不同電腦主機切換使用 USB 集線器之目的。

本發明提出之 USB 集線器，由於具有多個上傳埠且本身具有切換與仲裁功能，故可依據不同電腦主機之要求與手動切換之選擇，在適當時機將其使用權切換給需使用 USB 集線器之電腦主機，使電腦主機可控制所有接在 USB 集線器之下傳埠的 USB 裝置資料存取，換言之，本發明依據 USB 集線器之下傳埠的數量多寡，可一次切換使用多個 USB 裝置。因此，本發明可經由電腦軟體控制選擇切換之電腦主機，並可達到自動切換的功能，且軟體可判斷目前正被使用之 USB 裝置是否允許切換，避免影響其應用功能。同時，將傳統資料轉換器之功能與 USB 集線器整合，可有效節省成本，並且無電纜過長之憂慮，可避免切換造成的雜訊。

為讓本發明之上述和其他目的、特徵、和優點能更明

五、發明說明(8)

顯易懂，下文特舉較佳實施例，並配合所附圖式，作詳細說明如下：

圖式之簡單說明：

五、發明說明 (10)

爲了有效解決多台個人電腦切換使用多個 USB 裝置所面臨的問題，並且由於所有的 USB 裝置都必須經由集線器再往上接至使用此 USB 裝置之個人電腦(PC)，因此本發明乃利用此一特性，提供一個含有多個上傳埠之集線器，並透過內建於此集線器中之轉換控制器與個別 PC 中之控制軟體來選擇切換何者使用集線器，並控制和使用接上此集線器之 USB 裝置，其相關描述將於下詳細討論。

請參照第 5 圖，其繪示的是依照本發明一較佳實施例的一種使用具有多個上傳埠之 USB 集線器，並可在不同電腦主機間切換之電腦系統的連接示意圖。

本發明之電腦系統的組成要件主要包括多數台個人電腦 40a~40n、多數個 USB 裝置 42a~42n 與一具有多上傳埠之 USB 集線器 44，其中任一 USB 裝置 42a~42n 可以是鍵盤、滑鼠、印表機...等週邊裝置。USB 集線器 44 具有多數個上傳埠 46a~46n 與多數個下傳埠 48a~48n。每一個人電腦 40a~40n 分別透過其內部之 USB 主機控制器 50a~50n 連接至 USB 集線器 44 之一上傳埠 46a~46n，以及每一 USB 裝置 42a~42n 分別連接至 USB 集線器 44 之一下傳埠 48a~48n，如第 5 圖所示。

請參照第 6 圖，其繪示的是依照第 5 圖之具有多上傳埠之 USB 集線器 44 的詳細結構圖。

如先前所述，USB 集線器 44 具有多數個上傳埠 46a~46n 與多數個下傳埠 48a~48n，其中上傳埠 46a~46n 可被轉換控制器 52 控制其斷絕/連接之時序，USB 集線器 44

(請先閱讀背面之注意事項再填寫本頁)

訂

五、發明說明 (//)

係由一連結佈線器(link router)50、一轉換控制器 52 與一傳統 USB 集線器 54 所組成。連結佈線器 50 連接 USB 集線器 44 之上傳埠 46a~46n、轉換控制器 52 與傳統 USB 集線器 54。轉換控制器 52 控制上傳埠 46a~46n 之斷絕、連接時序，且其可經由外部之手動切換來改變其控制狀態。

請參照第 7 圖，其繪示的是依照第 6 圖之傳統 USB 集線器 54 的詳細結構圖。

USB 集線器 54 係由一集線器中繼器 60 與一集線器控制器 62 所組成，且兩者相互連接。集線器中繼器 60 之功能為上傳由下傳埠 48a~48n 送來的資料，以及下傳由連結佈線器 50(第 6 圖)送來之表徵、指令及資料。集線器控制器 62 提供 USB 集線器 54 之狀態給電腦主機(例如第 5 圖之個人電腦 40a)，電腦主機依據 USB 集線器 54 之不同狀態控制下傳埠 48a~48n。

請參照第 8 圖，其繪示的是依照第 6 圖之 USB 集線器 44 之每一上傳埠 46a~46n 的詳細結構圖。

在第 8 圖中，以上傳埠 46a 為例來說明。USB 集線器 44 之上傳埠 46a 包括一電阻 64、一 USB 收發器 66、訊號端 DP 68 與訊號端 DM 70。電阻 64 之兩端分別耦接至一電壓源 VDD 與訊號端 DP 68，且電阻 64 接收來自轉換控制器 52 之一 ON/OFF 控制信號，並依據此 ON/OFF 控制信號來決定上傳埠 46a 之連接狀態，其中 ON 代表連接(connection)而 OFF 代表斷絕(disconnection)，以及電阻 64 之阻值例如是 1.5K 歐姆(Ω)，電壓源 VDD 之電壓值例如是 3.3 伏特

五、發明說明 (12)

(V)。USB 收發器 66 之一端連接至連結佈線器 50，另一端連接至訊號端 DP 68 與訊號端 DM 70，用以接收來自連結佈線器 50(或訊號端 68、70)的資料訊息，並將此資料訊息傳送至連接端 68、70(或連結佈線器 50)。

換言之，USB 集線器 44 之每一上傳埠 46a~46n 用以提供實際之連結至不同個人電腦 40a~40n 之 USB 主機控制器 50a~50n，且每一上傳埠 46a~46n 內含有一連接/斷絕之機制，由轉換控制器 52 控制不同上傳埠 46a~46n 之連接或斷絕。而 USB 集線器 44 之每一下傳埠 48a~48n 則用以提供實際之連結至 USB 裝置 42a~42n，且每一下傳埠 42a~42n 內含有一裝置附加/分離(attach/detach)偵測線路(未繪示出)，如熟習者所知，用以判斷下傳埠 48a~48n 之狀態並通知主機控制器作為埠狀態之更新。

請參照第 9 圖，其繪示的是依照第 6 圖之本發明 USB 集線器 44 之連結佈線器 50 的詳細結構圖。

連結佈線器 50 包括一多工器(MUX)72 與一指令解譯器(Command Parser)74。多工器 72 連結於上傳埠 46a~46n 與傳統 USB 集線器 54 間，此 N 選一之多工器 72 由轉換控制器 52 之輸出控制，被選擇到之上傳埠 46a~46n 稱為集線器埠(Hub port)，其他則稱為裝置埠(Device port)。集線器埠所接之 USB 主機控制器擁有 USB 集線器 44 之控制權，並控制所有接在此 USB 集線器 44 之下傳埠 48a~48n 的 USB 裝置 42a~42n 資料存取。指令解譯器 74 用以解碼裝置埠和集線器埠從各個人電腦 40a~40n 之主機控制器 50a~50n 送來

(請先閱讀背面之注意事項再填寫本頁)

訂

五、發明說明(13)

的指令，並回應相關的資料給主機控制器 50a~50n，同時，指令解譯器 74 會將解析之結果送至轉換控制器 52 作為控制之部分依據。

請參照第 10 圖，其繪示的是依照第 6 圖之本發明 USB 集線器 44 之轉換控制器 52 的詳細結構圖。

轉換控制器 52 經由其內部之組合邏輯控制器 76 接收指令解譯器 74 之結果加上手動切換之選擇，產生控制多工器 72 之訊號來決定何者是集線器埠，同時輸出控制信號至上傳埠 46a~46n，並在集線器埠、裝置埠切換時，對相關之埠做斷絕/連接之控制。

本發明之實施方法將詳細描述於下，並請同時配合參照第 5 圖至第 10 圖。

在完成電源開啓(power on)或重設(reset)之起始化(Initialization)動作之後，所有的上傳埠 46a~46n 為連接狀態。之後，轉換控制器 52 依據手動切換之設定(亦即選擇第 10 圖之 S0~SN 其中之一)，控制連結佈線器 50 中之多工器 72 選擇上傳埠 46a~46n 其中之一為集線器埠(例如上傳埠 46a)，此集線器埠 46a 連結之 USB 主機控制器 50a 控制經由多工器 72 連結之 USB 集線器 54，此時 USB 主機控制器 50a 所屬之個人電腦 40a 具有 USB 集線器 54 之使用權，並控制 USB 集線器 54 所連接 USB 裝置 48a~48n 資料之傳輸。此外，手動切換為可選擇的(optional)，當無手動切換時，轉換控制器 52 可預設某一上傳埠(例如上傳埠 46a)為集線器埠，欲使用 USB 集線器 44 之個人電腦必須連接至此手

五、發明說明 (14)

動切換設定或預設之上傳埠。

當接至集線器埠之 USB 主機控制器使用 USB 集線器 44 時，指令解譯器 74 接收經裝置埠送來之指令並回應相關之訊息給此裝置埠上接之 USB 主機控制器，使 USB 主機控制器視指令解譯器 74 為單一之 USB 裝置，並可分辨個別個人電腦送來的指令。若其中之一個人電腦(例如個人電腦 40n)欲使用 USB 集線器 44 及控制 USB 集線器 44 下接之 USB 裝置 48a~48n 時，其 USB 主機控制器 50n 送出一特別之指令(集線器要求指令 HRQ)給指令解譯器 74，指令解譯器 74 解析個人電腦 40n 送來之集線器要求指令後進入集線器仲裁狀態(HARB)，並回應此狀態給所有的 USB 主機控制器 50a~50n。接著，個人電腦 40a 判斷切換 USB 集線器 44 之適當時機後，送出另一特別之指令(集線器確認指令 HACK)給指令解譯器 74，指令解譯器 74 將指令及狀態轉換成控制信號(HRQ/HACK/HARB)給轉換控制器 52 控制 USB 集線器 44 之切換。

當個人電腦 40n 產生之 HRQ 指令啟動(active)後，且個人電腦 40a 產生之 HACK 指令啟動時，轉換控制器 52 對上傳埠 46a 與 46n 做斷絕動作後，控制多工器 72 切換至上傳埠 46n，最後再將上傳埠 46a 與 46n 做連接動作。經過多工器 72 切換後重新連接 USB 主機控制器 50a、50n 之上傳埠 46a 與 46n，達到集線器埠與裝置埠互換之目的。同時，個人電腦 40n 上之 USB 主機控制器 50n 取得 USB 集線器 44 之所有權，並控制 USB 集線器 44 下接之 USB 裝置

五、發明說明(15)

48a~48n，達成不同個人電腦(40a、40n)切換使用 USB 集線器 44 之目的。

對於 USB 主機控制器之實施步驟如下所述。USB 主機控制器先判斷本身是否已控制 USB 集線器 44，若是，則當另一 USB 主機控制器要求使用 USB 集線器 44 時，會使轉換控制器 52 進入仲裁狀態，並通知個人電腦。此時，個人電腦決定是否可被切換，若是允許被切換的話，則送出集線器確認指令 HACK 通知轉換控制器 52 做切換。反之，若不允許被切換的話，則先將 USB 集線器 44 下接之 USB 裝置 48a~48n 之驅動程式(driver)卸載(unload)，或對相關之應用軟體做必要之處理。

若此一 USB 主機控制器目前不控制 USB 集線器 44，可於應用軟體的控制下決定是否提出 USB 集線器 44 之要求，而提出之條件、時間可依使用者設定配合轉換控制器 52 達到自動切換的功能。另，在送出集線器要求指令 HRQ 之前，需先判斷轉換控制器 52 是否正處於仲裁狀態，以避免要求信號被錯失(miss)。

對於轉換控制器 52 之實施步驟如下所述。轉換控制器 52 內有一計時器(未繪示出)，用以計時在手動切換指定或預設之上傳埠上，是否接上 USB 主機控制器，若無，則該上傳埠無法於計時超過一段時間(Timeout)內收到指令，表示上傳埠未接到任何 USB 主機控制器或 USB 主機控制器接在非指定之埠上。轉換控制器 52 即進行所有上傳埠 46a~46n 反覆搜尋之動作，若 USB 主機控制器接在另一上

(請先閱讀背面之注意事項再填寫本頁)

訂

五、發明說明(16)

傳埠或者中途才被接上，則搜尋動作能正確將其設定為集線器埠(46a)，並使用 USB 集線器 44。在集線器埠使用 USB 集線器 44 時，其他裝置埠(46n)可經由軟體控制自動或由使用者指定由 USB 主機控制器 50n 送出集線器要求指令 HRQ，經由轉換控制器 52、USB 主機控制器 50a 與 50n 之互動而切換 USB 集線器 44 之使用權。

上述轉換控制器 52 實行的方法，可以是微控制器或硬體結合控制邏輯，以及指令解譯器 74 實行的方法，可以是微控制器或硬體狀態機制。

綜上所述，本發明具有以下優點：

1. 經由軟體控制選擇切換之個人電腦，並可達到自動切換的功能。
2. 軟體可判斷目前正被使用之 USB 裝置是否允許切換，避免影響其應用功能。
3. 將傳統資料轉換器之功能與 USB 集線器整合，可有效節省成本。
4. 無電纜過長之憂慮，並可避免切換造成的雜訊。
5. 依據集線器下傳埠的數量多寡，可一次切換多個 USB 裝置。

雖然本發明已以較佳實施例揭露如上，然其並非用以限定本發明，任何熟習此技藝者，在不脫離本發明之精神和範圍內，當可作各種之更動與潤飾，因此本發明之保護範圍當視後附之申請專利範圍所界定者為準。

四、中文發明摘要 (發明之名稱： 具有多個上傳埠並可在不同主機間
切換之 USB 集線器及使用該 USB 集
線器之電腦系統)

一種具有多個上傳埠並可在不同主機間切換之 USB 集線器及使用該 USB 集線器之電腦系統，可依據不同電腦主機之要求或手動切換之選擇，在適當時機將其使用權切換給需使用 USB 集線器之電腦主機，使電腦主機可控制所有接在 USB 集線器之下傳埠的 USB 裝置資料存取。本發明可經由電腦軟體控制選擇切換之電腦主機，並可達到自動切換的功能，且軟體可判斷目前正被使用之 USB 裝置是否允許切換，避免影響其應用功能。同時將傳統資料轉換器之功能與 USB 集線器整合，可有效節省成本，並且無電纜過長之憂慮，可避免切換造成的雜訊。並可依據 USB 集線器之下傳埠的數量多寡，一次切換使用多個 USB 裝置。

英文發明摘要 (發明之名稱：)

六、申請專利範圍

1. 一種具有多個上傳埠並可在不同主機間切換之 USB 集線器，包括：

複數個上傳埠，該些上傳埠可分別被控制其斷絕/連接之時序，且各該上傳埠分別用以提供實際之連結至一不同之電腦主機中；

複數個下傳埠，各該下傳埠分別用以提供實際之連結至一不同之 USB 裝置中；

一連結佈線器，連接該些上傳埠，該連結佈線器用以解碼來自各該電腦主機送來的指令，並回應相關的資料給各該電腦主機，同時送出解析後之一結果訊號，且該連結佈線器接收一控制訊號，並依據該控制訊號切換該連結佈線器之一多工器指向該些上傳埠其中之一；

一轉換控制器，連接該些上傳埠與該連結佈線器，用以依據該結果訊號與/或一手動切換，產生該控制訊號來控制各該上傳埠之斷絕/連接狀態；以及

一傳統 USB 集線器，用以上傳由該些下傳埠送來的資料及下傳經由該連結佈線器送來的集線器埠資料，並提供其本身之狀態給連接該集線器埠之電腦主機，使該電腦主機依據該傳統 USB 集線器之不同狀態控制該些下傳埠。

2. 如申請專利範圍第 1 項所述之具有多個上傳埠並可在不同主機間切換之 USB 集線器，其中各該上傳埠包括：

一電阻，該電阻之兩端分別耦接至一電壓源與一訊號端 DP，且該電阻接收來自該轉換控制器之該控制信號，並依據該控制信號來決定各該上傳埠之斷絕/連接狀態；以及

六、申請專利範圍

一 USB 收發器，該 USB 收發器之一端連接至該連結佈線器，其另一端連接至該訊號端 DP 與一訊號端 DM，用以與連接該上傳埠之電腦主機間上傳或下傳資料。

3.如申請專利範圍第 2 項所述之具有多個上傳埠並可在不同主機間切換之 USB 集線器，其中該電阻之阻值包括 1.5K 歐姆或其他合乎 USB 規格之阻值。

4.如申請專利範圍第 2 項所述之具有多個上傳埠並可在不同主機間切換之 USB 集線器，其中該電壓源之電壓值包括 3.3 伏特或其他合乎 USB 規格之電壓值。

5.如申請專利範圍第 1 項所述之具有多個上傳埠並可在不同主機間切換之 USB 集線器，其中該連結佈線器包括：

一多工器，連結於該些上傳埠與該傳統 USB 集線器間，該多工器係由該轉換控制器之輸出控制，指向其中一上傳埠與傳統 USB 集線器相連接，被選擇到之該上傳埠稱為集線器埠，其他則稱為裝置埠；以及

一指令解譯器，用以解碼該些上傳埠從各該電腦主機送來的指令，並回應相關的資料給各該電腦主機，同時將解析之結果送至該轉換控制器中作為控制之部分依據。

6.如申請專利範圍第 5 項所述之具有多個上傳埠並可在不同主機間切換之 USB 集線器，其中該指令解譯器包括微控制器或其他可解譯指令之機制。

7.如申請專利範圍第 1 項所述之具有多個上傳埠並可在不同主機間切換之 USB 集線器，其中該轉換控制器包括

線

六、申請專利範圍

一組合邏輯控制器，用以經由該組合邏輯控制器接收來自該連結佈線器之該結果訊號或/與該手動切換之選擇，產生該控制訊號來決定哪一該上傳埠是集線器埠，同時輸出該控制信號至該些上傳埠，並在集線器埠與裝置埠切換時，對相關之埠做斷絕/連接之控制。

8.如申請專利範圍第1項所述之具有多個上傳埠並可在不同主機間切換之USB集線器，其中該傳統USB集線器包括：

一集線器中繼器，用以上傳由該些下傳埠送來的資料及下傳由該連結佈線器送來的資料；以及

一集線器控制器，連接該集線器中繼器，該集線器控制器用以提供該傳統USB集線器之狀態給該些電腦主機，使該些電腦主機依據該傳統USB集線器之不同狀態控制該些下傳埠。

9.如申請專利範圍第1項所述之具有多個上傳埠並可在不同主機間切換之USB集線器，其中各該上傳埠內含有一連接/斷絕之機制，由該轉換控制器控制不同之各該上傳埠的連接與斷絕。

10.如申請專利範圍第1項所述之具有多個上傳埠並可在不同主機間切換之USB集線器，其中各該下傳埠內含有一裝置附加/分離偵測線路，用以判斷各該下傳埠之狀態並通知該些電腦主機作為埠狀態之更新。

11.如申請專利範圍第1項所述之具有多個上傳埠並可在不同主機間切換之USB集線器，其中各該電腦主機分別

六、申請專利範圍

具有一USB主機控制器，連接至各該上傳埠中，以透過該USB主機控制器控制該USB集線器。

12.如申請專利範圍第 1 項所述之具有多個上傳埠並可在不同主機間切換之 USB 集線器，其中該電腦主機包括個人電腦與可控制 USB 傳輸協定之任何平台。

13.如申請專利範圍第 1 項所述之具有多個上傳埠並可在不同主機間切換之 USB 集線器，其中各該 USB 裝置包括鍵盤、滑鼠、印表機等週邊裝置其中之一。

14.如申請專利範圍第 1 項所述之具有多個上傳埠並可在不同主機間切換之 USB 集線器，其中該轉換控制器包括微控制器與其他可產生該控制訊號之邏輯。

15.如申請專利範圍第 1 項所述之具有多個上傳埠並可在不同主機間切換之 USB 集線器，其中當該連結佈線器依據該控制訊號切換該多工器指向該些上傳埠其中之一時，被切換連接之該上傳埠係為集線器埠，其他未連接者則為裝置埠，而該集線器埠所接之該電腦主機擁有該 USB 集線器之控制權，並控制所有接在該 USB 集線器之該些下傳埠的該些 USB 裝置資料存取。

16.一種電腦系統，包括：

複數台電腦主機；

複數台 USB 裝置；以及

一 USB 集線器，具有複數個上傳埠與複數個下傳埠，各該上傳埠分別連接至各該電腦主機中，以及各該下傳埠分別連接至各該 USB 裝置中，該 USB 集線器用以上傳由各

六、申請專利範圍

該 USB 裝置送來的資料及下傳由各該電腦主機送來的資料：

其中，在正常操作下，僅有一台該電腦主機具有該 USB 集線器之使用權，代表該電腦主機可控制所有接在該 USB 集線器之該些下傳埠的該些 USB 裝置資料存取，當有另一台該電腦主機送出一集線器要求指令給該 USB 集線器，要求使用該 USB 集線器及控制該 USB 集線器下接之該些 USB 裝置時，該 USB 集線器會進入一集線器仲裁狀態，並在一適當時機後將其使用權轉交給該另一台該電腦主機，此時該另一台該電腦主機即具有該 USB 集線器之使用權，並可控制所有接在該 USB 集線器之該些下傳埠的該些 USB 裝置資料存取，達到不同該電腦主機切換使用該 USB 集線器之目的。

17.如申請專利範圍第 16 項所述之電腦系統，其中該 USB 集線器可具有一手動切換開關，經由控制該手動切換開關可達到不同該電腦主機切換使用該 USB 集線器之目的。

18.如申請專利範圍第 16 項所述之電腦系統，其中該 USB 集線器包括：

一連結佈線器，連接該些上傳埠，該連結佈線器用以解碼來自各該電腦主機送來的指令，並回應相關的資料給各該電腦主機，同時送出解析後之一結果訊號，且該連結佈線器接收一控制訊號，並依據該控制訊號切換連接至該些上傳埠之一，其中，被切換連接之該上傳埠係為集線器

六、申請專利範圍

埠，其他未連接者則為裝置埠，而集線器埠所接之該電腦主機擁有該 USB 集線器之控制權，並控制所有接在該 USB 集線器之該些下傳埠的該些 USB 裝置資料存取；

一轉換控制器，連接該些上傳埠與該連結佈線器，用以依據該結果訊號與一手動切換，產生該控制訊號來控制各該上傳埠與該連結佈線器之連接狀態；以及

一傳統 USB 集線器，用以上傳由該些下傳埠送來的資料及下傳由該連結佈線器送來的資料，並提供其本身之狀態給該些電腦主機，使該些電腦主機依據該傳統 USB 集線器之不同狀態控制該些下傳埠。

19.如申請專利範圍第 18 項所述之電腦系統，其中該 USB 集線器之各該上傳埠包括：

一電阻，該電阻之兩端分別耦接至一電壓源與一訊號端 DP，且該電阻接收來自該轉換控制器之該控制信號，並依據該控制信號來決定各該上傳埠之斷絕/連接狀態；以及

一 USB 收發器，該 USB 收發器之一端連接至該連結佈線器，其另一端連接至該訊號端 DP 與一訊號端 DM，用以與連接該上傳埠之電腦主機間上傳或下傳資料。

20.如申請專利範圍第 18 項所述之電腦系統，其中該連結佈線器包括：

一多工器，連結於該些上傳埠與該傳統 USB 集線器間，該多工器係由該轉換控制器之輸出控制，被選擇到之該上傳埠稱為集線器埠，其他則稱為裝置埠；以及

一指令解譯器，用以解碼該些上傳埠從各該電腦主機

(請先閱讀背面之注意事項再填寫本頁)

六、申請專利範圍

送來的指令，並回應相關的資料給各該電腦主機，同時將解析之結果送至該轉換控制器中作為控制之部分依據。

21.如申請專利範圍第 20 項所述之電腦系統，其中該指令解譯器包括微控制器或其他可解譯指令之機制。

22.如申請專利範圍第 18 項所述之電腦系統，其中該轉換控制器包括一組合邏輯控制器，用以經由該組合邏輯控制器接收來自該連結佈線器之該結果訊號與該手動切換開關之選擇，產生該控制訊號來決定哪一該上傳埠是集線器埠，同時輸出該控制信號至該些上傳埠，並在集線器埠與裝置埠切換時，對相關之埠做斷絕/連接之控制。

23.如申請專利範圍第 18 項所述之電腦系統，其中該傳統 USB 集線器包括：

一集線器中繼器，用以上傳由該些下傳埠送來的資料及下傳由該連結佈線器送來的資料；以及

一集線器控制器，連接該集線器中繼器，該集線器控制器用以提供該傳統 USB 集線器之狀態給該些電腦主機，使該些電腦主機依據該傳統 USB 集線器之不同狀態控制該些下傳埠。

24.如申請專利範圍第 16 項所述之電腦系統，其中各該上傳埠內含有一連接/斷絕之機制，由一轉換控制器控制不同之各該上傳埠的連接與斷絕。

25.如申請專利範圍第 16 項所述之電腦系統，其中各該下傳埠內含有一裝置附加/分離偵測線路，用以判斷各該下傳埠之狀態並通知該些電腦主機作為埠狀態之更新。

六、申請專利範圍

26.如申請專利範圍第16項所述之電腦系統，其中各該電腦主機分別具有一USB主機控制器，連接至各該上傳埠中，以透過該USB主機控制器控制該USB集線器。

27.如申請專利範圍第16項所述之電腦系統，其中該電腦主機包括個人電腦與可控制USB傳輸協定之任何平台。

28.如申請專利範圍第16項所述之電腦系統，其中各該USB裝置包括鍵盤、滑鼠、印表機等週邊裝置其中之一。

29.如申請專利範圍第18項所述之電腦系統，其中該轉換控制器包括微控制器與其他可產生該控制訊號之邏輯。

This Acknowledgement Receipt evidences receipt on the noted date by the USPTO of the indicated documents, characterized by the applicant, and including page counts, where applicable. It serves as evidence of receipt similar to a Post Card, as described in MPEP 503.

New Applications Under 35 U.S.C. 111

If a new application is being filed and the application includes the necessary components for a filing date (see 37 CFR 1.53(b)-(d) and MPEP 506), a Filing Receipt (37 CFR 1.54) will be issued in due course and the date shown on this Acknowledgement Receipt will establish the filing date of the application.

National Stage of an International Application under 35 U.S.C. 371

If a timely submission to enter the national stage of an international application is compliant with the conditions of 35 U.S.C. 371 and other applicable requirements a Form PCT/DO/EO/903 indicating acceptance of the application as a national stage submission under 35 U.S.C. 371 will be issued in addition to the Filing Receipt, in due course.

New International Application Filed with the USPTO as a Receiving Office

If a new international application is being filed and the international application includes the necessary components for an international filing date (see PCT Article 11 and MPEP 1810), a Notification of the International Application Number and of the International Filing Date (Form PCT/RO/105) will be issued in due course, subject to prescriptions concerning national security, and the date shown on this Acknowledgement Receipt will establish the international filing date of the application.

POWER OF ATTORNEY TO PROSECUTE APPLICATIONS BEFORE THE USPTO

I hereby revoke all previous powers of attorney given in the application identified in the attached statement under 37 CFR 3.73(c).

This collection of information is required by 37 CFR 1.31, 1.32 and 1.33. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to take 3 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. **SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.**

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

Privacy Act Statement

The **Privacy Act of 1974 (P.L. 93-579)** requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether disclosure of these records is required by the Freedom of Information Act.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (*i.e.*, GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspection or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

STATEMENT UNDER 37 CFR 3.73(c)

Applicant/Patent Owner: Robert M. Voto, et al.

Application No./Patent No.: 15/268,728

Filed/Issue Date: 19 September 2016

Titled: FLEXIBLE MOBILE DEVICE CONNECTIVITY TO AUTOMOTIVE SYSTEMS WITH UBS HUBS

Delphi Technologies, Inc., a corporation

(Name of Assignee)

(Type of Assignee, e.g., corporation, partnership, university, government agency, etc.)

states that, for the patent application/patent identified above, it is (choose **one** of options 1, 2, 3 or 4 below):

1. ☒ The assignee of the entire right, title, and interest.

2. ☐ An assignee of less than the entire right, title, and interest (check applicable box):

☐ The extent (by percentage) of its ownership interest is ____%. Additional Statement(s) by the owners holding the balance of the interest must be submitted to account for 100% of the ownership interest.

☐ There are unspecified percentages of ownership. The other parties, including inventors, who together own the entire right, title and interest are:

Additional Statement(s) by the owner(s) holding the balance of the interest must be submitted to account for the entire right, title, and interest.

3. ☐ The assignee of an undivided interest in the entirety (a complete assignment from one of the joint inventors was made). The other parties, including inventors, who together own the entire right, title, and interest are:

Additional Statement(s) by the owner(s) holding the balance of the interest must be submitted to account for the entire right, title, and interest.

4. ☐ The recipient, via a court proceeding or the like (e.g., bankruptcy, probate), of an undivided interest in the entirety (a complete transfer of ownership interest was made). The certified document(s) showing the transfer is attached.

The interest identified in option 1, 2 or 3 above (not option 4) is evidenced by either (choose **one** of options A or B below):

A. ☒ An assignment from the inventor(s) of the patent application/patent identified above. The assignment was recorded in the United States Patent and Trademark Office at Reel _____, Frame _____, or for which a copy thereof is attached.

B. ☐ A chain of title from the inventor(s), of the patent application/patent identified above, to the current assignee as follows:

1. From: _____ To: _____

The document was recorded in the United States Patent and Trademark Office at

Reel _____, Frame _____, or for which a copy thereof is attached.

2. From: _____ To: _____

The document was recorded in the United States Patent and Trademark Office at

Reel _____, Frame _____, or for which a copy thereof is attached.

[Page 1 of 2]

This collection of information is required by 37 CFR 3.73(b). The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to take 12 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. **SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.**

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

STATEMENT UNDER 37 CFR 3.73(c)

3. From: _____ To: _____

The document was recorded in the United States Patent and Trademark Office at
 Reel _____, Frame _____, or for which a copy thereof is attached.

4. From: _____ To: _____

The document was recorded in the United States Patent and Trademark Office at
 Reel _____, Frame _____, or for which a copy thereof is attached.

5. From: _____ To: _____

The document was recorded in the United States Patent and Trademark Office at
 Reel _____, Frame _____, or for which a copy thereof is attached.

6. From: _____ To: _____

The document was recorded in the United States Patent and Trademark Office at
 Reel _____, Frame _____, or for which a copy thereof is attached.

☐ Additional documents in the chain of title are listed on a supplemental sheet(s).

☐ As required by 37 CFR 3.73(c)(1)(i), the documentary evidence of the chain of title from the original owner to the assignee was, or concurrently is being, submitted for recordation pursuant to 37 CFR 3.11.

[NOTE: A separate copy (i.e., a true copy of the original assignment document(s)) must be submitted to Assignment Division in accordance with 37 CFR Part 3, to record the assignment in the records of the USPTO. See MPEP 302.08]

The undersigned (whose title is supplied below) is authorized to act on behalf of the assignee.

Privacy Act Statement

The **Privacy Act of 1974 (P.L. 93-579)** requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether disclosure of these records is required by the Freedom of Information Act.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (*i.e.*, GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspection or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

DECLARATION (37 CFR 1.63) FOR UTILITY OR DESIGN APPLICATION USING AN APPLICATION DATA SHEET (37 CFR 1.76)

Title of Invention	FLEXIBLE MOBILE DEVICE CONNECTIVITY TO AUTOMOTIVE SYSTEMS WITH USB HUBS
-----------------------	--

As the below named inventor, I hereby declare that:

This declaration
is directed to:

☐

The attached application, or

☒

United States application or PCT international application number 15/268,728

filed on 19 September 2016

The above-identified application was made or authorized to be made by me.

I believe that I am the original inventor or an original joint inventor of a claimed invention in the application.

I hereby acknowledge that any willful false statement made in this declaration is punishable under 18 U.S.C. 1001 by fine or imprisonment of not more than five (5) years, or both.

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

LEGAL NAME OF INVENTOR

Inventor: Robert M. Voto

Date (Optional) : _____

Signature: Robert M. Voto

Note: An application data sheet (PTO/SB/14 or equivalent), including naming the entire inventive entity, must accompany this form or must have been previously filed. Use an additional PTO/AIA/01 form for each additional inventor.

This collection of information is required by 35 U.S.C. 115 and 37 CFR 1.63. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to take 1 minute to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-8199 and select option 2.

Under the Paperwork Reduction Act of 1996, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

Title : Flexible Mobile Device Connectivity to Automotive Systems with USB Hubs

RESPONSE TO INFORMATIONAL NOTICE TO APPLICANT

Dear Sirs:

This letter is in response to an Informational Notice to Applicant, sent September 30, 2016 for the above referenced patent application.

Enclosed is the executed declaration for inventors Robert M. Voto, Shyambabu Yeda, and Craig Petku.

A copy of the patent assignment signed by the inventors a power of attorney statement, and a statement under 37 CFR 3.73(c) is also included herewith.

Please charge any fees due to Deposit Account No. 50-0831, Delphi Technologies, Inc.

Respectfully submitted,

/Robert J. Myers/

Doc Code: DIST.E.FILE Document Description: Electronic Terminal Disclaimer - Filed		PTO/SB/25 U.S. Patent and Trademark Office Department of Commerce
Electronic Petition Request	TERMINAL DISCLAIMER TO OBTAIN A PROVISIONAL DOUBLE PATENTING REJECTION OVER A PENDING "REFERENCE" APPLICATION	
Application Number	15268728	
Filing Date	19-Sep-2016	
First Named Inventor	Robert Voto	
Attorney Docket Number	DP-322037 CON	
Title of Invention	FLEXIBLE MOBILE DEVICE CONNECTIVITY TO AUTOMOTIVE SYSTEMS WITH UBS HUBS	
☒ Filing of terminal disclaimer does not obviate requirement for response under 37 CFR 1.111 to outstanding Office Action ☒ This electronic Terminal Disclaimer is not being used for a Joint Research Agreement.		
Owner	Percent Interest	
Delphi Technologies, Inc.	100%	
The owner(s) of percent interest listed above in the instant application hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the instant application which would extend beyond the expiration date of the full statutory term of any patent granted on pending reference Application Number(s)		
15257096 filed on 09/06/2016 as the term of any patent granted on said reference application may be shortened by any terminal disclaimer filed prior to the grant of any patent on the pending reference application. The owner hereby agrees that any patent so granted on the instant application shall be enforceable only for and during such period that it and any patent granted on the reference application are commonly owned. This agreement runs with any patent granted on the instant application and is binding upon the grantee, its successors or assigns. In making the above disclaimer, the owner does not disclaim the terminal part of any patent granted on the instant application that would extend to the expiration date of the full statutory term of any patent granted on said reference application, "as the term of any patent granted on said reference application may be shortened by any terminal disclaimer filed prior to the grant of any patent on the pending reference application," in the event that any such patent granted on the pending reference application: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321, has all claims canceled by a reexamination certificate, is reissued, or is in any manner terminated prior to the expiration of its full statutory term as shortened by any terminal disclaimer filed prior to its grant.		
☒ Terminal disclaimer fee under 37 CFR 1.20(d) is included with Electronic Terminal Disclaimer request.		

☐ I certify, in accordance with 37 CFR 1.4(d)(4), that the terminal disclaimer fee under 37 CFR 1.20(d) required for this terminal disclaimer has already been paid in the above-identified application.	
Applicant claims the following fee status:	
☐ Small Entity ☐ Micro Entity ☒ Regular Undiscounted	
I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.	
THIS PORTION MUST BE COMPLETED BY THE SIGNATORY OR SIGNATORIES	
I certify, in accordance with 37 CFR 1.4(d)(4) that I am:	
☒ An attorney or agent registered to practice before the Patent and Trademark Office who is of record in this application Registration Number <u>69783</u>	
☐ A sole inventor	
☐ A joint inventor; I certify that I am authorized to sign this submission on behalf of all of the inventors as evidenced by the power of attorney in the application	
☐ A joint inventor; all of whom are signing this request	
Signature	/Robert J. Myers/
Name	Robert J. Myers

*Statement under 37 CFR 3.73(b) is required if terminal disclaimer is signed by the assignee (owner).
 Form PTO/SB/96 may be used for making this certification. See MPEP § 324.

**TERMINAL DISCLAIMER TO OBTAIN A DOUBLE PATENTING
REJECTION OVER A "PRIOR" PATENT**Docket Number (Optional)
DP-322037 CON

In re Application of: Robert M. Voto, et al.

Application No.: 15/268,728

Filed: 09-19-2016

For: FLEXIBLE MOBILE DEVICE CONNECTIVITY TO AUTOMOTIVE SYSTEMS WITH USB HUBS

The owner*, Delphi Technologies, Inc., of 100 percent interest in the instant application hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the instant application which would extend beyond the expiration date of the full statutory term **prior patent** No. 9,460,037 as the term of said prior patent is defined in 35 U.S.C. 154 and 173, and as the term of said **prior patent** is presently shortened by any terminal disclaimer. The owner hereby agrees that any patent so granted on the instant application shall be enforceable only for and during such period that it and the **prior patent** are commonly owned. This agreement runs with any patent granted on the instant application and is binding upon the grantee, its successors or assigns.

In making the above disclaimer, the owner does not disclaim the terminal part of the term of any patent granted on the instant application that would extend to the expiration date of the full statutory term as defined in 35 U.S.C. 154 and 173 of the **prior patent**, "as the term of said **prior patent** is presently shortened by any terminal disclaimer," in the event that said **prior patent** later:

expires for failure to pay a maintenance fee;
is held unenforceable;
is found invalid by a court of competent jurisdiction;
is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321;
has all claims canceled by a reexamination certificate;
is reissued; or
is in any manner terminated prior to the expiration of its full statutory term as presently shortened by any terminal disclaimer.

Check either box 1 or 2 below, if appropriate.

1. ☐ For submissions on behalf of a business/organization (e.g., corporation, partnership, university, government agency, etc.), the undersigned is empowered to act on behalf of the business/organization.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

2. ☒ The undersigned is an attorney or agent of record. Reg. No. 69,783

- ☐ Terminal disclaimer fee under 37 CFR 1.20(d) included.

WARNING: Information on this form may become public. Credit card information should not be included on this form. Provide credit card information and authorization on PTO-2038.

*Statement under 37 CFR 3.73(b) is required if terminal disclaimer is signed by the assignee (owner).
Form PTO/SB/96 may be used for making this certification. See MPEP § 324.

This collection of information is required by 37 CFR 1.321. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to take 12 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. **SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.**

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

Privacy Act Statement

The **Privacy Act of 1974 (P.L. 93-579)** requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether disclosure of these records is required by the Freedom of Information Act.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (*i.e.*, GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspection or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

TITLE OF INVENTION: FLEXIBLE MOBILE DEVICE CONNECTIVITY TO AUTOMOTIVE SYSTEMS WITH UBS HUBS

APPLN. TYPE	ENTITY STATUS	ISSUE FEE DUE	PUBLICATION FEE DUE	PREV. PAID ISSUE FEE	TOTAL FEE(S) DUE	DATE DUE
nonprovisional	UNDISCOUNTED	\$960	\$0	\$0	\$960	02/27/2017

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the ENTITY STATUS shown above. If the ENTITY STATUS is shown as SMALL or MICRO, verify whether entitlement to that entity status still applies.

If the ENTITY STATUS is the same as shown above, pay the TOTAL FEE(S) DUE shown above.

If the ENTITY STATUS is changed from that shown above, on PART B - FEE(S) TRANSMITTAL, complete section number 5 titled "Change in Entity Status (from status indicated above)".

For purposes of this notice, small entity fees are 1/2 the amount of undiscounted fees, and micro entity fees are 1/2 the amount of small entity fees.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: **Mail** **Mail Stop ISSUE FEE**
Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450
or Fax **(571)-273-2885**

INSTRUCTIONS: This form should be used for transmitting the ISSUE FEE and PUBLICATION FEE (if required). Blocks 1 through 5 should be completed where appropriate. All further correspondence including the Patent, advance orders and notification of maintenance fees will be mailed to the current correspondence address as indicated unless corrected below or directed otherwise in Block 1, by (a) specifying a new correspondence address; and/or (b) indicating a separate "FEE ADDRESS" for maintenance fee notifications.

CURRENT CORRESPONDENCE ADDRESS (Note: Use Block 1 for any change of address)

22851 7590 11/25/2016
Delphi Technologies, Inc.
P.O. Box 5052
M/C 483-400-402
Troy, MI 48007-5052

Note: A certificate of mailing can only be used for domestic mailings of the Fee(s) Transmittal. This certificate cannot be used for any other accompanying papers. Each additional paper, such as an assignment or formal drawing, must have its own certificate of mailing or transmission.

Certificate of Mailing or Transmission

I hereby certify that this Fee(s) Transmittal is being deposited with the United States Postal Service with sufficient postage for first class mail in an envelope addressed to the Mail Stop ISSUE FEE address above, or being facsimile transmitted to the USPTO (571) 273-2885, on the date indicated below.

1. Change of correspondence address or indication of "Fee Address" (37 CFR 1.363).

- ☐ Change of correspondence address (or Change of Correspondence Address form PTO/SB/122) attached.
☐ "Fee Address" indication (or "Fee Address" Indication form PTO/SB/47; Rev 03-02 or more recent) attached. **Use of a Customer Number is required.**

2. For printing on the patent front page, list

- (1) The names of up to 3 registered patent attorneys or agents OR, alternatively, 1 _____
(2) The name of a single firm (having as a member a registered attorney or agent) and the names of up to 2 registered patent attorneys or agents. If no name is listed, no name will be printed. 2 _____
3 _____

3. ASSIGNEE NAME AND RESIDENCE DATA TO BE PRINTED ON THE PATENT (print or type)

PLEASE NOTE: Unless an assignee is identified below, no assignee data will appear on the patent. If an assignee is identified below, the document has been filed for recordation as set forth in 37 CFR 3.11. Completion of this form is NOT a substitute for filing an assignment.

(A) NAME OF ASSIGNEE

(B) RESIDENCE: (CITY and STATE OR COUNTRY)

Please check the appropriate assignee category or categories (will not be printed on the patent): ☐ Individual ☐ Corporation or other private group entity ☐ Government

4a. The following fee(s) are submitted:

- ☐ Issue Fee
☐ Publication Fee (No small entity discount permitted)
☐ Advance Order - # of Copies _____

4b. Payment of Fee(s): (Please first reapply any previously paid issue fee shown above)

- ☐ A check is enclosed.
☐ Payment by credit card. Form PTO-2038 is attached.
☐ The director is hereby authorized to charge the required fee(s), any deficiency, or credits any overpayment, to Deposit Account Number _____ (enclose an extra copy of this form).

5. Change in Entity Status (from status indicated above)

- ☐ Applicant certifying micro entity status. See 37 CFR 1.29
☐ Applicant asserting small entity status. See 37 CFR 1.27
☐ Applicant changing to regular undiscounted fee status.

NOTE: Absent a valid certification of Micro Entity Status (see forms PTO/SB/15A and 15B), issue fee payment in the micro entity amount will not be accepted at the risk of application abandonment.

NOTE: If the application was previously under micro entity status, checking this box will be taken to be a notification of loss of entitlement to micro entity status.

NOTE: Checking this box will be taken to be a notification of loss of entitlement to small or micro entity status, as applicable.

NOTE: This form must be signed in accordance with 37 CFR 1.31 and 1.33. See 37 CFR 1.4 for signature requirements and certifications.

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (Applications filed on or after May 29, 2000)

The Office has discontinued providing a Patent Term Adjustment (PTA) calculation with the Notice of Allowance.

Section 1(h)(2) of the AIA Technical Corrections Act amended 35 U.S.C. 154(b)(3)(B)(i) to eliminate the requirement that the Office provide a patent term adjustment determination with the notice of allowance. See Revisions to Patent Term Adjustment, 78 Fed. Reg. 19416, 19417 (Apr. 1, 2013). Therefore, the Office is no longer providing an initial patent term adjustment determination with the notice of allowance. The Office will continue to provide a patent term adjustment determination with the Issue Notification Letter that is mailed to applicant approximately three weeks prior to the issue date of the patent, and will include the patent term adjustment on the patent. Any request for reconsideration of the patent term adjustment determination (or reinstatement of patent term adjustment) should follow the process outlined in 37 CFR 1.705.

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

OMB Clearance and PRA Burden Statement for PTOL-85 Part B

The Paperwork Reduction Act (PRA) of 1995 requires Federal agencies to obtain Office of Management and Budget approval before requesting most types of information from the public. When OMB approves an agency request to collect information from the public, OMB (i) provides a valid OMB Control Number and expiration date for the agency to display on the instrument that will be used to collect the information and (ii) requires the agency to inform the public about the OMB Control Number's legal significance in accordance with 5 CFR 1320.5(b).

The information collected by PTOL-85 Part B is required by 37 CFR 1.311. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 12 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, Virginia 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450. Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether disclosure of these records is required by the Freedom of Information Act.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspection or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

Notice of Allowability	Application No. 15/268,728	Applicant(s) VOTO ET AL.	
	Examiner ERNEST UNELUS	Art Unit 2181	AIA (First Inventor to File) Status Yes

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address--

All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. **THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS.** This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.

1. ☒ This communication is responsive to Examiner's amendment.
☐ A declaration(s)/affidavit(s) under **37 CFR 1.130(b)** was/were filed on _____.

2. ☐ An election was made by the applicant in response to a restriction requirement set forth during the interview on _____; the restriction requirement and election have been incorporated into this action.

3. ☒ The allowed claim(s) is/are 1-14 and 25-30, renumbered as 1-20. As a result of the allowed claim(s), you may be eligible to benefit from the **Patent Prosecution Highway** program at a participating intellectual property office for the corresponding application. For more information, please see http://www.uspto.gov/patents/init_events/pph/index.jsp or send an inquiry to PPHfeedback@uspto.gov.

4. ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).

Certified copies:
a) ☐ All b) ☐ Some *c) ☐ None of the:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).
* Certified copies not received: _____.

Applicant has THREE MONTHS FROM THE "MAILING DATE" of this communication to file a reply complying with the requirements noted below. Failure to timely comply will result in ABANDONMENT of this application.
THIS THREE-MONTH PERIOD IS NOT EXTENDABLE.

5. ☐ CORRECTED DRAWINGS (as "replacement sheets") must be submitted.
☐ including changes required by the attached Examiner's Amendment / Comment or in the Office action of Paper No./Mail Date _____.

Identifying indicia such as the application number (see 37 CFR 1.84(c)) should be written on the drawings in the front (not the back) of each sheet. Replacement sheet(s) should be labeled as such in the header according to 37 CFR 1.121(d).

6. ☐ DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.

Attachment(s)

1. ☒ Notice of References Cited (PTO-892)	5. ☒ Examiner's Amendment/Comment
2. ☒ Information Disclosure Statements (PTO/SB/08), Paper No./Mail Date <u>10/24/2016</u>	6. ☒ Examiner's Statement of Reasons for Allowance
3. ☐ Examiner's Comment Regarding Requirement for Deposit of Biological Material	7. ☐ Other _____.
4. ☐ Interview Summary (PTO-413), Paper No./Mail Date _____.	

/ERNEST UNELUS/ Primary Examiner, Art Unit 2181	
--	--

DETAILED ACTION

The present application, filed on or after March 16, 2013, is being examined under the first inventor to file provisions of the AIA.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Robert J. Myers (Reg. No. 69,783) on October 13, 2016. The examiner proposed amendments to better place the application in condition for allowance, particularly adding the limitation that prior arts fail to teach. Mr. Myers agreed.

The application has been amended as follows:

Listing of Claims:

1. (Currently amended) A Universal Serial Bus (USB) hub module, comprising:
 - a first USB port configured to be connected to a USB host;
 - a second USB port configured to be connected to a consumer device;
 - a USB hub interconnected to the first USB port and the second USB port;
 - a USB bridge interconnected to the USB hub; and

a USB routing switch interconnected to the USB bridge, the USB hub, and the second USB port, wherein the USB routing switch is configured to connect the second USB port to the first USB port through the USB bridge, thereby ~~supporting~~ providing bidirectional initiation of communication between the USB host and the consumer device when the consumer device connected to the second USB port is in a USB host mode and wherein the USB routing switch is configured to connect the second USB port directly to the first USB port through the USB hub, thereby ~~supporting~~ only responding to communication initiated by the USB Host when the consumer device connected to the second USB port is in a USB device mode.

2. (Currently amended) The USB hub module according to claim 1, wherein the USB routing switch is configured to connect the second USB port to the first USB port through the USB bridge thereby ~~supporting~~ providing bidirectional initiation of communication between the USB host and the consumer device when the consumer device connected to the second USB port is in the USB host mode and wherein the USB routing switch is configured to simultaneously connect another second USB port directly to the first USB port through the USB hub, thereby ~~supporting~~ only responding to communication initiated by the USB Host when another consumer device connected to the another second USB port is in the USB device mode.

3. (Original) The USB hub module according to claim 1, wherein the USB hub module is configured to recognize whether the consumer device connected to the second USB port is in the USB host mode or in the USB device mode and control the USB routing switch accordingly.

4. (Original) The USB hub module according to claim 1, wherein the USB hub module is configured to dynamically switch operation of the second USB port between supporting the consumer device in the USB device mode or the USB host mode.
5. (Original) The USB hub module according to claim 1, wherein the USB routing switch is configured to connect the consumer device to either the USB bridge or the USB hub based on whether the consumer device attached to the second USB port is configured to act as the USB host or a USB device.
6. (Original) The USB hub module according to claim 1, wherein the USB bridge is configured to control the USB routing switch.
7. (Currently amended) An integrated circuit, comprising:
 - a USB hub configured to be interconnected to a first USB port connected to a USB host and a second USB port connected to a consumer device;
 - a USB bridge interconnected to the USB hub; and
 - a USB routing switch interconnected to the USB bridge, the USB hub, and the second USB port, wherein the USB routing switch is configured to connect the second USB port to the first USB port through the USB bridge thereby ~~supporting~~ providing bidirectional initiation of communication between the USB host and the consumer device when the consumer device connected to the second USB port is in a USB host mode and wherein the USB routing switch is configured to connect the second USB port directly to the first USB port through the USB hub, thereby ~~supporting~~ only responding to communication initiated by the USB Host when the consumer device connected to the second USB port is in a USB device mode.

8. (Currently amended) The integrated circuit according to claim 7, wherein the USB routing switch is configured to connect the second USB port to the first USB port through the USB bridge thereby ~~supporting~~ providing bidirectional initiation of communication between the USB host and the consumer device when the consumer device connected to the second USB port is in the USB host mode and wherein the USB routing switch is configured to simultaneously connect another second USB port directly to the first USB port through the USB hub, thereby ~~supporting~~ only responding to communication initiated by the USB Host when another consumer device connected to the another second USB port is in the USB device mode.

9. (Original) The integrated circuit according to claim 7, wherein the integrated circuit is configured to recognize whether the consumer device connected to the second USB port is in the USB host mode or in the USB device mode and control the USB routing switch accordingly.

10. (Original) The integrated circuit according to claim 7, wherein the integrated circuit is configured to dynamically switch operation of the second USB port between supporting the consumer device in the USB device mode or the USB host mode.

11. (Original) The integrated circuit according to claim 7, wherein the USB routing switch is configured to connect the consumer device to either the USB bridge or the USB hub based on whether the consumer device attached to the second USB port is configured to act as the USB host or a USB device.

12. (Original) The integrated circuit according to claim 7, wherein the USB bridge is configured to control the USB routing switch.

Art Unit: 2181

13. (Currently amended) A method of operating a USB hub module having a USB hub configured to be interconnected to a first USB port connected to a USB host and a second USB port connected to a consumer device, a USB bridge interconnected to the USB hub, and a USB routing switch interconnected to the USB bridge, the USB hub, and the second USB port, said method comprising the steps of:

determining ~~if~~ when the consumer device is operating in a USB host mode ~~or~~ and in a USB device mode;

connecting the consumer device via the second USB port to the USB hub via the first USB port through the USB routing switch and the USB bridge, thereby providing bidirectional initiation of communication between the USB host and the consumer device when the consumer device is determined to be in the USB host mode; and

connecting the consumer device via the second USB port to the USB hub via the first USB port through the USB routing switch and the USB hub thereby bypassing the USB bridge to only respond to communication initiated by the USB host when the consumer device is determined to be in the USB device mode.

14. (Currently amended) The method according to claim 13, wherein the step of determining ~~if~~ when the consumer device is operating in the USB host mode or in the USB device mode is performed by the USB routing switch.

15. – 24. (Cancelled)

25. (Currently amended) A Universal Serial Bus (USB) connectivity module, comprising:
a first USB port;

Art Unit: 2181

a second USB port;

a USB host-to-host bridge connected to said first USB port;

a USB routing switch connected to said first USB port, said second USB port and said USB host-to-host bridge, wherein said USB routing switch is configured to provide a communication link between said first USB port and said second USB port through said USB ~~host-to-host bridge~~ to-host bridge, thereby providing bidirectional initiation of communication between the USB host and the consumer device when a first consumer device connected to said second USB port is operating in a USB host mode and wherein said USB routing switch is configured to provide another communication link between said first USB port and said second USB port that bypasses said USB ~~host-to-host bridge~~ , thereby only responding to communication initiated by the USB host when the first consumer device connected to said second USB port is operating in a USB device mode.

26. (Currently amended) The USB connectivity module according to claim 25, further comprising a third USB port, wherein said USB routing switch is configured to provide a first communication link between said first USB port and said second USB port through said ~~host-to-host bridge~~ to-host bridge, thereby providing bidirectional initiation of communication between the USB host and the consumer device when the first consumer device connected to said second USB port is operating in the USB host mode and wherein said USB routing switch is configured to provide simultaneously provide a second communication link between said first USB port and said third USB port that bypasses said USB ~~host-to-host bridge~~ , thereby only responding to communication initiated by the USB Host when a second consumer device connected to said third USB port is operating in the USB device mode.

27. (Currently amended) The USB connectivity module according to claim 25, further comprising a third USB port, wherein said USB routing switch is further connected to the third USB port, wherein said USB routing switch is configured to provide a first communication link between said first USB port and said second USB port through said ~~USB host-to-host bridge-to-host bridge~~, thereby providing bidirectional initiation of communication between the USB host and the consumer device when the first consumer device connected to said second USB port is operating in the USB host mode, and wherein said USB routing switch is configured to provide a second communication link between said first USB port and said third USB port that bypasses said ~~USB host-to-host bridge~~, thereby only responding to communication initiated by the USB host when a second consumer device connected to said third USB port is operating in the USB device mode without interrupting the first communication link between said first USB port and said second USB port.

28. (Currently amended) A communication system, comprising:

- a USB hub including a first USB port and a second USB port;
- a central vehicle microcontroller connected to said first USB port;
- a first consumer device connected to said second USB port;
- a ~~USB host-to-host bridge~~ connected to said first USB port;
- a USB routing switch providing a first communication path between said second USB port and said ~~USB host-to-host bridge~~ and a second communication path between said second USB port and said first USB port that bypasses said ~~USB host-to-host bridge~~, wherein said USB routing switch ~~is adapted to enable~~ connects said first communication path when the first consumer device is connected to said second USB port and is operating in a USB host mode,

Art Unit: 2181

thereby providing bidirectional initiation of communication between the USB host and the consumer device and wherein said USB routing switch ~~is adapted to enable~~ connects said second communication path, thereby only responding to communication initiated by the USB host when the first consumer device is connected to said second USB port and is operating in a USB device mode.

29. (Currently amended) The communication system according to claim 28, further comprising a second consumer device, wherein the USB hub includes a third USB port and wherein the USB routing switch ~~is further adapted to enable~~ connects a third communication path between said third USB port and said first USB port that bypasses said USB host-to-host bridge, thereby only responding to communication initiated by the USB Host when the second consumer device is connected to said third USB port and is operating in the USB device mode.

30. (Original) The communication system according to claim 29, wherein said USB routing switch is configured to simultaneously provide the second communication path between said first USB port and said third USB port without interrupting the first communication path between said first USB port and said second USB port.

ALLOWABLE SUBJECT MATTER

The primary reason for allowance of claims 1, 7, 13, 25, and 28 in the instant application is that prior arts don't teach a peripheral device to communicate with a USB hub bi-directionally in a first mode and to communicate with the hub only uni-

directionally in a second mode wherein the device is only able to respond, and wherein a respective path between the device and host is taken for each mode.

The remaining claims 2-6, 8-12, 14, 26-27 and 29-30 are allowed by virtue of their dependencies on the independent claim. Hence, the examiner has allowed claims 1-14 and 25-30.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

CLOSING COMMENTS

Conclusion

a. STATUS OF CLAIMS IN THE APPLICATION

The following is a summary of the treatment and status of all claims in the application as recommended by **M.P.E.P. 707.07(i)**:

a(1) CLAIMS ALLOWED IN THE APPLICATION

Per the instant office action, claims 1-14 and 25-30 have been allowed.

b. DIRECTION OF FUTURE CORRESPONDENCES

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ernest Unelus whose telephone number is (571) 272-8596. The examiner can normally be reached on Monday to Friday 9:00 AM to 5:00 PM.

IMPORTANT NOTE

If attempts to reach the above noted Examiner by telephone are unsuccessful, the Examiner's supervisor, Mr. Idriss Alrobaye, can be reached at the following telephone number: Area Code (571) 270-1023.

The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PMR system, see [her//pair-direct.uspto.gov](http://pair-direct.uspto.gov). Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217- 91 97 (toll-free).

CERTIFICATION STATEMENT

Please see 37 CFR 1.97 and 1.98 to make the appropriate selection(s):

That each item of information contained in the information disclosure statement was first cited in any communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of the information disclosure statement. See 37 CFR 1.97(e)(1).

OR

☒ That no item of information contained in the information disclosure statement was cited in a communication from a foreign patent office in a counterpart foreign application, and, to the knowledge of the person signing the certification after making reasonable inquiry, no item of information contained in the information disclosure statement was known to any individual designated in 37 CFR 1.56(c) more than three months prior to the filing of the information disclosure statement. See 37 CFR 1.97(e)(2).

See attached certification statement.

The fee set forth in 37 CFR 1.17 (p) has been submitted herewith.

A certification statement is not submitted herewith.

SIGNATURE

A signature of the applicant or representative is required in accordance with CFR 1.33, 10.18. Please see CFR 1.4(d) for the form of the signature.

Signature	/Robert J. Myers/	Date (YYYY-MM-DD)	2016-10-24
Name/Print	Robert J. Myers	Registration Number	69,783

This collection of information is required by 37 CFR 1.97 and 1.98. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 1 hour to complete, including gathering, preparing and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. **DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.**

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether the Freedom of Information Act requires disclosure of these records.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspections or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

Title: FLEXIBLE MOBILE DEVICE CONNECTIVITY TO AUTOMOTIVE SYSTEMS WITH UBS HUBS

Publication No. US-2017-0004103-A1

Publication Date: 01/05/2017

NOTICE OF PUBLICATION OF APPLICATION

The above-identified application will be electronically published as a patent application publication pursuant to 37 CFR 1.211, et seq. The patent application publication number and publication date are set forth above.

The publication may be accessed through the USPTO's publicly available Searchable Databases via the Internet at www.uspto.gov. The direct link to access the publication is currently <http://www.uspto.gov/patft/>.

The publication process established by the Office does not provide for mailing a copy of the publication to applicant. A copy of the publication may be obtained from the Office upon payment of the appropriate fee set forth in 37 CFR 1.19(a)(1). Orders for copies of patent application publications are handled by the USPTO's Office of Public Records. The Office of Public Records can be reached by telephone at (571) 272-3150 or (800) 972-6382, by facsimile at (571) 273-3250, by mail addressed to the United States Patent and Trademark Office, Office of Public Records, Alexandria, VA 22313-1450 or via the Internet.

In addition, information on the status of the application, including the mailing date of Office actions and the dates of receipt of correspondence filed in the Office, may also be accessed via the Internet through the Patent Electronic Business Center at www.uspto.gov using the public side of the Patent Application Information and Retrieval (PAIR) system. The direct link to access this status information is currently <http://pair.uspto.gov/>. Prior to publication, such status information is confidential and may only be obtained by applicant using the private side of PAIR.

Further assistance in electronically accessing the publication, or about PAIR, is available by calling the Patent Electronic Business Center at 1-866-217-9197.

Office of Data Management, Application Assistance Unit (571) 272-4000, or (571) 272-4200, or 1-888-786-0101

TRANSMITTAL LETTER

Commissioner for Patents
P. O. Box 5052
Alexandria, VA 22313-1450

Dear Sir:

This paper is in reply to the Informational Notice to Applicant mailed on September 30, 2016 for the above referenced application. Attached is an amended Application Data Sheet correcting the name of inventor Craig Petku with underlined text indicating insertions and strike through indicating deletions. The Declaration for named inventors Robert M. Voto, Shyambabu Yeda, and Craig Petku was previously filed on October 28, 2016. Please charge any fees or credit any overpayments to Deposit Account No. 50-0831 to Delphi Technologies, Inc.

Respectfully submitted,
/Robert J. Myers/

Attorney Docket Number	DP-322037 CON	Small Entity Status Claimed	☐
Application Type	Nonprovisional		
Subject Matter	Utility		
Total Number of Drawing Sheets (if any)	8	Suggested Figure for Publication (if any)	

Filing By Reference:

Only complete this section when filing an application by reference under 35 U.S.C. 111(c) and 37 CFR 1.57(a). Do not complete this section if application papers including a specification and any drawings are being filed. Any domestic benefit or foreign priority information must be provided in the appropriate section(s) below (i.e., "Domestic Benefit/National Stage Information" and "Foreign Priority Information").

For the purposes of a filing date under 37 CFR 1.53(b), the description and any drawings of the present application are replaced by this reference to the previously filed application, subject to conditions and requirements of 37 CFR 1.57(a).

Application number of the previously filed application	Filing date (YYYY-MM-DD)	Intellectual Property Authority or Country

Publication Information:

☐ Request Early Publication (Fee required at time of Request 37 CFR 1.219)
☐ Request Not to Publish. I hereby request that the attached application not be published under 35 U.S.C. 122(b) and certify that the invention disclosed in the attached application has not and will not be the subject of an application filed in another country, or under a multilateral international agreement, that requires publication at eighteen months after filing.

Additional Domestic Benefit/National Stage Data may be generated within this form by selecting the Add button.			

Foreign Priority Information:

This section allows for the applicant to claim priority to a foreign application. Providing this information in the application data sheet constitutes the claim for priority as required by 35 U.S.C. 119(b) and 37 CFR 1.55. When priority is claimed to a foreign application that is eligible for retrieval under the priority document exchange program (PDX)¹ the information will be used by the Office to automatically attempt retrieval pursuant to 37 CFR 1.55(i)(1) and (2). Under the PDX program, applicant bears the ultimate responsibility for ensuring that a copy of the foreign application is received by the Office from the participating foreign intellectual property office, or a certified copy of the foreign priority application is filed, within the time period specified in 37 CFR 1.55(g)(1).

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it contains a valid OMB control number.

Authorization or Opt-Out of Authorization to Permit Access:

When this Application Data Sheet is properly signed and filed with the application, applicant has provided written authority to permit a participating foreign intellectual property (IP) office access to the instant application-as-filed (see paragraph A in subsection 1 below) and the European Patent Office (EPO) access to any search results from the instant application (see paragraph B in subsection 1 below).

Should applicant choose not to provide an authorization identified in subsection 1 below, applicant **must opt-out** of the authorization by checking the corresponding box A or B or both in subsection 2 below.

NOTE: This section of the Application Data Sheet is **ONLY** reviewed and processed with the **INITIAL** filing of an application. After the initial filing of an application, an Application Data Sheet cannot be used to provide or rescind authorization for access by a foreign IP office(s). Instead, Form PTO/SB/39 or PTO/SB/69 must be used as appropriate.

1. Authorization to Permit Access by a Foreign Intellectual Property Office(s)

A. Priority Document Exchange (PDX) - Unless box A in subsection 2 (opt-out of authorization) is checked, the undersigned hereby **grants the USPTO authority** to provide the European Patent Office (EPO), the Japan Patent Office (JPO), the Korean Intellectual Property Office (KIPO), the State Intellectual Property Office of the People's Republic of China (SIPO), the World Intellectual Property Organization (WIPO), and any other foreign intellectual property office participating with the USPTO in a bilateral or multilateral priority document exchange agreement in which a foreign application claiming priority to the instant patent application is filed, access to: (1) the instant patent application-as-filed and its related bibliographic data, (2) any foreign or domestic application to which priority or benefit is claimed by the instant application and its related bibliographic data, and (3) the date of filing of this Authorization. See 37 CFR 1.14(h)(1).

B. Search Results from U.S. Application to EPO - Unless box B in subsection 2 (opt-out of authorization) is checked, the undersigned hereby **grants the USPTO authority** to provide the EPO access to the bibliographic data and search results from the instant patent application when a European patent application claiming priority to the instant patent application is filed. See 37 CFR 1.14(h)(2).

The applicant is reminded that the EPO's Rule 141(1) EPC (European Patent Convention) requires applicants to submit a copy of search results from the instant application without delay in a European patent application that claims priority to the instant application.

2. Opt-Out of Authorizations to Permit Access by a Foreign Intellectual Property Office(s)

☐ A. Applicant **DOES NOT** authorize the USPTO to permit a participating foreign IP office access to the instant application-as-filed. If this box is checked, the USPTO will not be providing a participating foreign IP office with any documents and information identified in subsection 1A above.

☐ B. Applicant **DOES NOT** authorize the USPTO to transmit to the EPO any search results from the instant patent application. If this box is checked, the USPTO will not be providing the EPO with search results from the instant application.

NOTE: Once the application has published or is otherwise publicly available, the USPTO may provide access to the application in accordance with 37 CFR 1.14.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it contains a valid OMB control number.

Applicant Information:

Providing assignment information in this section does not substitute for compliance with any requirement of part 3 of Title 37 of CFR to have an assignment recorded by the Office.			
Applicant 1			
If the applicant is the inventor (or the remaining joint inventor or inventors under 37 CFR 1.45), this section should not be completed. The information to be provided in this section is the name and address of the legal representative who is the applicant under 37 CFR 1.43; or the name and address of the assignee, person to whom the inventor is under an obligation to assign the invention, or person who otherwise shows sufficient proprietary interest in the matter who is the applicant under 37 CFR 1.46. If the applicant is an applicant under 37 CFR 1.46 (assignee, person to whom the inventor is obligated to assign, or person who otherwise shows sufficient proprietary interest) together with one or more joint inventors, then the joint inventor or inventors who are also the applicant should be identified in this section.

Signature:

NOTE: This Application Data Sheet must be signed in accordance with 37 CFR 1.33(b). However, if this Application Data Sheet is submitted with the **INITIAL** filing of the application and either box A or B is not checked in subsection 2 of the "Authorization or Opt-Out of Authorization to Permit Access" section, then this form must also be signed in accordance with 37 CFR 1.14(c).

This Application Data Sheet must be signed by a patent practitioner if one or more of the applicants is a juristic entity (e.g., corporation or association). If the applicant is two or more joint inventors, this form must be signed by a patent practitioner, all joint inventors who are the applicant, or one or more joint inventor-applicants who have been given power of attorney (e.g., see USPTO Form PTO/AIA/81) on behalf of all joint inventor-applicants.

See 37 CFR 1.4(d) for the manner of making signatures and certifications.

This collection of information is required by 37 CFR 1.76. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 23 minutes to complete, including gathering, preparing, and submitting the completed application data sheet form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. **SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.**

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether the Freedom of Information Act requires disclosure of these records.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an international Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspections or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

Statement under 37 CFR 1.55 or 1.78 for AIA (First Inventor to File) Transition Applications: No

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4258).

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

SelectUSA

The United States represents the largest, most dynamic marketplace in the world and is an unparalleled location for business investment, innovation, and commercialization of new technologies. The U.S. offers tremendous resources and advantages for those who invest and manufacture goods here. Through SelectUSA, our nation works to promote and facilitate business investment. SelectUSA provides information assistance to the international investor community; serves as an ombudsman for existing and potential investors; advocates on behalf of U.S. cities, states, and regions competing for global investment; and counsels U.S. economic development organizations on investment attraction best practices. To learn more about why the United States is the best country in the world to develop technology, manufacture products, deliver services, and grow your business, visit <http://www.SelectUSA.gov> or call +1-202-482-6800.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE
Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450
or Fax (571)-273-2885

INSTRUCTIONS: This form should be used for transmitting the ISSUE FEE and PUBLICATION FEE (if required). Blocks 1 through 5 should be completed where appropriate. All further correspondence including the Patent, advance orders and notification of maintenance fees will be mailed to the current correspondence address as indicated unless corrected below or directed otherwise in Block 1, by (a) specifying a new correspondence address; and/or (b) indicating a separate "FEE ADDRESS" for maintenance fee notifications.

CURRENT CORRESPONDENCE ADDRESS (Note: Use Block 1 for any change of address):

22851 7593 11/25/2016
Delphi Technologies, Inc.
P.O. Box 5052
M/C 483-400-402
Troy, MI 48007-5052

Note: A certificate of mailing can only be used for domestic mailings of the Fee(s) Transmittal. This certificate cannot be used for any other accompanying papers. Each additional paper, such as an assignment or formal drawing, must have its own certificate of mailing or transmission.

Certificate of Mailing or Transmission

I hereby certify that this Fee(s) Transmittal is being deposited with the United States Postal Service with sufficient postage for first class mail in an envelope addressed to the Mail Stop ISSUE FEE address above, or being facsimile transmitted to the USPTO (571) 273-2885, on the date indicated below.

1. Change of correspondence address or indication of "Fee Address" (37 CFR 1.363).

- ☐ Change of correspondence address (or Change of Correspondence Address form PTO/SB/122) attached.
☐ "Fee Address" indication (or "Fee Address" Indication form PTO/SB/47; Rev 03-02 or more recent) attached. Use of a Customer Number is required.

2. For printing on the patent front page, list

- (1) The names of up to 3 registered patent attorneys or agents OR, alternatively,
(2) The name of a single firm (having as a member a registered attorney or agent) and the names of up to 2 registered patent attorneys or agents. If no name is listed, no name will be printed.

Robert J. Murphy
2. _____
3. _____

3. ASSIGNEE NAME AND RESIDENCE DATA TO BE PRINTED ON THE PATENT (print or type)

PLEASE NOTE: Unless an assignee is identified below, no assignee data will appear on the patent. If an assignee is identified below, the document has been filed for recordation as set forth in 37 CFR 3.11. Completion of this form is NOT a substitute for filing an assignment.

(A) NAME OF ASSIGNEE

(B) RESIDENCE: (CITY and STATE OR COUNTRY)

Delphi Technologies, Inc.

Troy, MI

Please check the appropriate assignee category or categories (will not be printed on the patent): ☐ Individual ☒ Corporation or other private group entity ☐ Government

4a. The following fee(s) are submitted:

- ☒ Issue Fee
☐ Publication Fee (No small entity discount permitted)
☐ Advance Order - # of Copies _____

4b. Payment of Fee(s): (Please first reapply any previously paid issue fee shown above)

- ☐ A check is enclosed.
☐ Payment by credit card. Form PTO-2038 is attached.
☒ The director is hereby authorized to charge the required fee(s), any deficiency, or credits any overpayment, to Deposit Account Number *600857* (enclose an extra copy of this form).

5. Change in Entity Status (from status indicated above)

- ☐ Applicant certifying micro entity status. See 37 CFR 1.29
☐ Applicant asserting small entity status. See 37 CFR 1.27
☐ Applicant changing to regular undiscounted fee status.

NOTE: Absent a valid certification of Micro Entity Status (see forms PTO/SB/15A and 15B), issue fee payment in the micro entity amount will not be accepted at the risk of application abandonment.

NOTE: If the application was previously under micro entity status, checking this box will be taken to be a notification of loss of entitlement to micro entity status.

NOTE: Checking this box will be taken to be a notification of loss of entitlement to small or micro entity status, as applicable.

NOTE: This form must be signed in accordance with 37 CFR 1.31 and 1.33. See 37 CFR 1.4 for signature requirements and certifications.

ISSUE NOTIFICATION

The projected patent number and issue date are specified above.

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment is 0 day(s). Any patent to issue from the above-identified application will include an indication of the adjustment on the front page.

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Application Assistance Unit (AAU) of the Office of Data Management (ODM) at (571)-272-4200.

APPLICANT(s) (Please see PAIR WEB site <http://pair.uspto.gov> for additional applicants):

Robert M. Voto, Clarkston, MI;
DELPHI TECHNOLOGIES, INC., TROY, MI;
Shyambabu Yeda, Rochester Hills, MI;
Craig Petku, Clarkston, MI;

Confirmatory Assignment

Whereas, **DELPHI TECHNOLOGIES, INC.**, of 5725 Delphi Drive, Troy, Michigan 48098, U.S.A, hereinafter called Assignor, is the assignee of record of the entire right, title and interest in the U.S. Patents listed in the attached **Appendix** (hereinafter the "Assigned Patent Rights") by assignment recorded with the U.S. Patent and Trademark Office; and

Whereas, **APTIV TECHNOLOGIES LIMITED**, a company incorporated in accordance with the Companies Act CAP 308 of the laws of Barbados (company no. 41949) and licensed to operate as an International Business Company, whose registered office is at Erin Court, Bishop's Court Hill, St. Michael, Barbados, hereinafter called Assignee, desires to acquire the Assignor's entire right, title, and interest including rights to recover for past infringement in the Assigned Patents.

Therefore, for valuable consideration, receipt of which is hereby acknowledged, the above named Assignor, hereby sells, assigns and transfers to the above named Assignee, its successors and assigns, the Assignor's entire right, title and interest including rights to recover for past infringement in the Assigned Patents; and Assignor will execute without further consideration all papers deemed necessary by the Assignee in connection with said Assigned Patents when called upon to do so by the Assignee.

This Assignment is made effective as of January 1, 2018.

ASSIGNOR:

Delphi Technologies, Inc.

By:

Name:

CRAIG A. BALDWIN

Title:

ASSISTANT SECRETARY

APPENDIX
