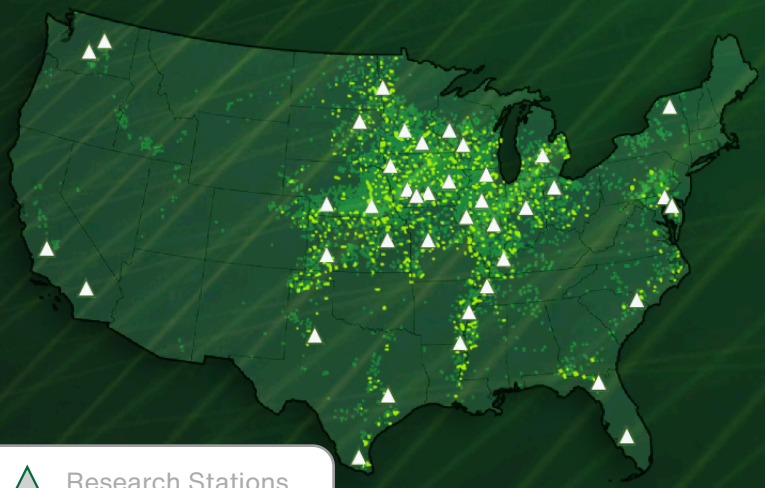
Local Product Development

Products made for your fields

Our breeders live and work in the local communities where the research takes place with direct access to the plants being bred, resulting in seed that is driven by the real-world conditions for a farmer's particular area.



- Research Stations
- Impact™ Trials
- Agronomy Trials

Research & Development Created, Field Perfected

Feedback from the field guarantees that only the strongest products are advanced to your fields

Pioneer seed is among the most rigorously tested on the market. Seed products undergo multiple years of local field testing before they make it into a Pioneer bag,
