I am connecting you with an agent now. Have a great day!

Hi, I have an above-ground pool, small rectangular pool from about 10 years ago, it is size 102-1/2" x 63" x 25-5/8" (260cm x 160 cm x 65cm). I am looking for the corner piece, part number 10573. I notice that part number 10573 is discontinued, and instead there is a 10573A. It looks like the only difference between 10573 and 10573A is the color. Is that correct?
