Love my Ring

Anonymous

8 hours ago

I love this ring...Bur I keep taking it off to wash my hands, then I keep leaving it behind only to find it later in the evening... I have misplaced this ring twice. I love it other than that.

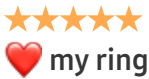

✔ Yes, I recommend this product.

The Galaxy Ring facilitates the establishment and enhancement of sleep goals, in addition to continuously monitoring step counts and workout activities. The health application synchronizes with the Virgin Pulse app to track activity, potentially enabling health insurance discounts. A frequently utilized feature is the Ring's capability to remotely capture images via a connected smartphone. The Ring boasts an appealing design, lightweight construction, and a commendable battery life, providing up to seven days of use.

This is awesome. When my watch dies I don't have to worry about losing track of my sleep. My energy score really helps me set up for the day. Love the long battery life. The galaxy ai summary is cool...

Feature rich, really helpful tracking

Thiqnvaney87

The new Galaxy Ring is a game changer for people on the move. The interfacing of this ring is next level. It tracks too much stuff to list here but I personally use it to track my sleep, track biometrics, steps, and I have it setup to take pictures and silence alarms/reminders. If my watch is charging, then the ring will relay the information to my watch or my phone (which ever one is closest I think) so my activities stay up to date. Oh, AND it can even help detect signs of sleep apnea (along with a few other sleeping metrics). Overall, I recommend it to anyone that will listen. Could I live without all of my Samsung Galaxy Ai equipment? Sure, but do I want to? No... and thank the technology gods that I dont have to!

Ring useless after software update

CS12

3 days ago

After software update the battery live is terrible, goes from 100% to 99% as soon as taking it off the charging dock. Battery life drains three times as fast now. Now it always disconnecting from the phone. I tried reconnecting didn't work, i was holding my phone in the same hand as my ring and it was fully charged. I got the ring to track sleep, it is useless, now as it does not stay connected.

R&R Team

Hey there CS12,

Thank you for taking the time to share your thoughts with us regarding your experience using the Samsung Galaxy Ring. We value your feedback as we improve the design and functionality of our product line. Samsung provides a 12-month warranty for manufacturing defects in materials and workmanship. With the Galaxy Ring, you're able to slip your device on and forget it with a seven-day charge that won't slow you down. Combined with a full cradle charge, you can use Galaxy Ring for up to 14 days without plugging into an outlet. Take a moment to check out, "How to charge the Galaxy Ring" to learn how to optimize your battery life. If your Galaxy Ring disconnects from your phone, then there may be an issue with the Bluetooth connection. You can fix this by reestablishing the connection, ensuring there are no obstacles, and updating the Galaxy Wearable app. Also check out, "Galaxy Ring keeps disconnecting from phone" to help resolve what you've described to be experiencing. Feel free to reach out to Samsung Support afterward if you would like further assistance with troubleshooting your device. Thank you for being a faithful Samsung customer.

ⓈFor a limited time only, on Samsung.com/Shop Samsung App, or purchase a new qualifying Galaxy device ("Qualifying Purchase"), send in your qualifying trade-in device to Samsung through the Samsung Trade-In Program, and if Samsung determines your trade-in device meets all eligibility requirements, you will receive a trade-in credit specific to your qualifying trade-in device to apply toward your Qualifying Purchase. Device models that currently qualify for trade-in and trade-in credit amounts associated with those models are available on Samsung.com and the Shop Samsung App; eligible models and amounts may change at Samsung's sole discretion. To be eligible for trade-in, your qualifying device must meet all Trade-In Program eligibility requirements, which include, but are not limited to, that the device powers on, holds a charge, and does not power off unexpectedly; has a functioning display; has no breaks or cracks in the screen (unless a cracked screen offer applies); has no breaks or cracks in the case; has no liquid damage (whether visible or not); has no other defects that go beyond normal wear and tear; is not on a black list; has a verified FCC ID; has been reset to factory settings; has all personal information removed; has all software locks disabled; and is owned by you (leased devices are not eligible). Anticipated trade-in value will be applied as a credit at time of purchase, but, if you do not send in your trade-in device within 15 days of receipt of your Qualifying Purchase, you will be charged back for the trade-in credit applied to your purchase, or if you send in your trade-in device within 15 days of receipt of your Qualifying Purchase but Samsung determines your device does not meet all eligibility requirements, you will be charged back for the trade-in credit applied to your purchase minus \$25. Participation in this program does not excuse you from contracts with your carrier or retailer (or any related payments or fees) for the device that was traded in. Limit 1 trade-in per Qualifying Purchase. Samsung reserves the right to modify or discontinue this offer at any time. The Trade-In Program cannot be combined with any other Samsung, carrier or retailer promotions, discounts, or offers unless specifically provided for in the terms and conditions of such offers. Additional terms, including terms that govern the resolution of disputes, apply. Click [here- For terms and conditions](#) to learn more.
