 - Status: Not awarded
 - Opioid Education for Dental Students and Practicing Dentists: a nationwide course on pain management, addiction, and prescribing behaviors and practices focuses on increasing knowledge, changing attitudes and opinions on the use of opioids in pain management, and opioid prescribing habits—especially in potential at-risk populations like adolescents. The training is gamified to engage the end-user through a game-like experience and provides interactive, clinically focused prescribing methods in common dental clinical scenarios. Clinicians and dental students are taught how to assess and manage patients' expectations of post-procedure pain, a contributing factor to the overuse of opioids.
- Project: Delta Dental Community Care Foundation Biopsy Grant
 - Principal investigator: Suzanne Adolphson MSW, MHA
 - Co-Investigators: Mark Mintline DDS; **Jeffrey A. Elo DDS, MS**; Sahar Mirfarsi DDS; Setareh Lavasani DDS, MS; Olabisi Carr MBA
