Outdoor Dacron Foam

★★★★★ 1 review(s) | [Add your review](#)

\$26.00

Dacron foam is very cost-effective to use. It has a medium- firmness that can be cut, shaped, and used outside for seat cushions, back cushions, and mattresses. This foam can be bought by the sheet. This is high resilient dacron or HRD also known as Vertifiber.

* 3-Dimensionally Moldable

* Washable / Quick Drying

* Light Weight

The Dacron Foam can also be used for outdoor fire-retardant sound absorption for Aircraft, Bus,

Acoustical, Rail, Automotive, Marine, Furniture, and Medical needs.

Please open your package right away: The longer you keep the foam compressed in the package the longer it takes for the foam to expand which may prevent the foam from being in its normal shape and size. When this product expands to size there will be creases in the foam. If you need it see a photo, please let us know. These creases can be eliminated faster with a blow dryer and/or pinch with a needle to pop it into place.

Please contact us after 2 business days of opening the packaged with any concerns. Foam N' More will not be responsible to give discount fix or replace after 5 days of receiving the package.
