OUR STORY

Slick City Action Parks was founded in 2022 when Bron Launsby – an accomplished entrepreneur in the family entertainment space and a board member of the International Adventure and Trampoline Parks Association – partnered with the inventor of Slick Slide, Gary Schmit, to bring a new and exciting concept to in the adventure park industry.

The team has since grown to include senior management and advisors from Burger King, Sky Zone, Universal Studios, and other major experiential, retail, and franchise brands.

We're dedicated to constant innovation – unveiling new slides frequently and focusing on in-house development processes. 55 patents have already been filed or granted for our proprietary slides and technology.
