ORDER REGARDING SCHEDULE

On November 22, 2024, the Court held a conference on Plaintiff's Motion to Dismiss Counterclaims 6–8. (See ECF No. 71.) The Court and Parties discussed, among other things, bifurcation, updates to initial discovery disclosures, claim construction, and an updated schedule.

Reserving a ruling on Plaintiff's Motion, it appears bifurcating and staying Counterclaims 6–8 may be the most efficient course of action. Additionally, the Court resets the Claim Construction Hearing date to **January 9, 2025**, at **9:30AM CST**. Parties and the Court also discussed moving the trial date to January 2026 or perhaps December 2025.

SO ORDERED this 25th day of November, 2024.
