Your Honors,

Based on the guidance provided by the Board, we have confirmed with Patent Owner that they do not oppose the filing of replacement versions of the Reply briefs filed by Petitioner on January 20, 2026, and further do not oppose the expungement of the originally filed replies. Pursuant to the Board's authorization, the replacement copies of the Replies have now been filed. The parties thus jointly request expungement of the originally-filed replies (Paper 68 in PGR2025-00003, Paper 66 in PGR2025-00004, Paper 71 in PGR2025-00006, and Paper 66 in PGR2025-00009).

Sincerely,

Jeff Kushan
JEFFREY P. KUSHAN

Counsel,

The panel appreciates the parties' efforts to resolve their dispute. To the extent it has not done so already, Petitioner shall first serve revised versions of the four replies on Patent Owner. Provided that Patent Owner does not object to them, Petitioner is authorized to file the revised versions of the replies. After filing, the parties shall jointly contact the Board and request expungement of the originally-filed versions of the replies.

If Patent Owner objects to the revised versions, the Board asks that the parties continue to meet and confer in attempt to resolve the dispute. The parties may contact the Board if agreement cannot be reached.

Regards,

Andrew Kellogg,
Deputy Chief Clerk, Trials
Patent Trial and Appeal Board
USPTO

Your Honors,

In response to a concern expressed by Patent Owner with regard to inclusion of certain images and the limitations on word-count in replies filed in the above-noted proceedings, the parties have consulted and believe the appropriate course of action is to file revised versions of the four replies followed by expungement of the originally filed versions of the replies. Patent Owner has indicated that it does not oppose this course of action. Petitioner thus requests authorization to file replacement replies followed by expungement of the originally filed replies.

Sincerely,

Jeff Kushan
