What kind of enterprise is a state-owned enterprise?

Release time: 2019-07-04 07:46:04

Message details

Title:	What kind of enterprise is a state-owned enterprise?
Content:	What is the exact definition of state-owned enterprises by the State-owned Assets Supervision and Administration Commission? What conditions must be met to become a state-owned enterprise? For example, if there is a joint-stock limited liability technology company whose state-owned shares account for 37% of the company's total share capital, and the state-owned shares are the majority shareholder, is such a company a state-owned enterprise?

Reply	Hello: We have received the question you submitted on our website. We now briefly reply to the information you provided as follows: State-owned enterprises refer to state-owned enterprises, state-owned companies and state-owned capital holding companies that the State Council and local people's governments respectively perform the duties of investors on behalf of the state, including enterprises supervised by central and local state-owned assets supervision and administration agencies and other departments at the same level and enterprises formed by their investment at each level. The above reply is for reference only. You are welcome to ask questions again.
