About CellockED

In today's digital age, managing student cellphone usage during school hours presents a significant challenge. The prevalence of cellphones in classrooms can be a major distraction, impacting student focus and overall academic performance. To address this issue, we propose the adoption of a new cellphone pouch with a magnetic locking system, designed to safely secure students' cellphones during school hours.

Product Overview

01

Military-Grade Materials

Durable materials for long-lasting use with reinforced closure

02

Magnetic Locking System

Unique retractable locking system that replaces any keys or combination locks

03

RFI/EMI Shielding

Signal blocking material from electromagnetic interference

04

05

06

Privacy - Terms

Yondr EX2021
Be Smarter, et al. v. Yondr - PGR2025-00070

Durable materials for long-lasting use with reinforced closure

Unique retractable locking system that replaces any keys or combination locks

Signal blocking material from electromagnetic interference

04

Device Agnostic

Large size to secure most cellular phone devices

05

Reduce Radiation Exposure

Significantly reduces children's exposure to EMF radiation

06

Emergency Accessible

At your request, provide unlocking stations in accessible locations

Specifications

CellockED Phone Pouches use a retractable magnetic pin locking system. When a phone is placed inside, the pouch opening is pinched shut, securing the device inside. To unlock it, a magnetic detacher is required to release the pin and open the pouch.

Warranty

CellockED Phone Pouches include a two-year warranty covering manufacturing defects or workmanship issues. Warranty exclusions include normal wear and tear, misuse, or abuse of the product.

We stand behind our products and offer a 100% Satisfaction Guarantee. Our goal is to provide premium quality products that perform as designed and meet or exceed our partners' expectations. If you are not completely satisfied with your CellockED Phone Pouch for any reason, simply contact us within 30 days for a full exchange or refund of the product purchase price. A restocking fee will apply in accordance with the original purchase if a refund is processed.

The products are owned by the School once a purchase is made. We do not lease the products or expect our School partners to renew the contract year-to-year.

Support

New School Hero provides a comprehensive level of customer support to ensure the successful implementation and ongoing use of its phone-free solutions in schools and other venues. Here are the key aspects of our support system:

- **Dedicated Consultation and Planning:** New School Hero offers policy consultation and operational planning to help schools and organizations transition to phone-free environments effectively.
- **Training and Ongoing Support:** Schools receive tailored training sessions for staff, including pre-launch planning, mid-year check-ins, and end-of-year reviews to address challenges and optimize the program.
- **Implementation Assistance:** CellockED staff assist with the initial rollout of pouches, unlocking bases, and other equipment, ensuring seamless integration into daily routines.
- **Helpdesk Support:** Customers can submit requests for assistance through CellockED's online support portal for troubleshooting or replacement needs.

New School Hero provides robust customer support through dedicated consultation, ongoing training, and onsite assistance where necessary. This multi-tiered approach ensures schools can implement and maintain phone-free environments with minimal disruption.

Grant Funding

House Bill 1481, passed by the 89th Texas Legislature, restricts student use of personal communication devices on school property during the school day. This includes cellphones, smartwatches, tablets, headphones, and earbuds. The bill aims to minimize distractions and improve focus on learning. Students must store these devices away, typically in backpacks, lockers, or locked pouches. Exceptions exist for medical or special education needs, with prior approval.

To support school systems in complying with HB 1481, the Texas Education Agency (TEA) has been allocated $20 million in state grant funding. This funding is intended to help school systems purchase secure storage solutions and implement the infrastructure necessary to enforce the personal communication device ban. Check with your state government to find available grants for funding.

Watch this video to see how Gregory-Portland ISD has implemented grant funding in response to House Bill 1481.
