v.

Case PGR2025-00075
U.S. Patent No. 12,142,371

AUTHORIZED RESPONSE TO DIRECTOR REVIEW REQUEST

Denial of institution was warranted for the many independent reasons set forth in the Preliminary Response.¹ *See* Paper 21. Far from providing a legitimate basis for reversing the denial decision, the Request for Director Review (“Request,” Paper 27) merely rehashes the same flawed positions from the Petition. Reversal of the denial decision is not warranted, because Petitioner fails to demonstrate that the decision presents an “(a) an abuse of discretion, (b) important issues of law or policy, (c) erroneous findings of material fact, or (d) erroneous conclusions of law.” *See* USPTO, “Director Review Process” at Section 2.B, <https://www.uspto.gov/patents/ptab/decisions/director-review-process> (last accessed Feb. 23, 2026)

Petitioner also fails to provide any legitimate basis for the Director providing a “brief disposition identifying the specific legal, evidentiary, procedural, or discretionary basis” upon which the denial decision was based. Request, 2. The Director routinely issues summary denial decisions like the one issued here, including in numerous other IPRs listed in the Notice of Decisions on Institution (Paper 26). Petitioner also fails to show that it is uniquely situated relative to the many other IPR parties that have not been provided with the type of “brief disposition” requested here. The Request should be denied in its entirety.

¹ This response was authorized on February 17, 2026. Ex. 3100.
